AVIATION WEEK & SPACE TECHNOLOGY

1982 Editorial Index

ADVANCED FIGHTER TECHNOLOGY
See AIRCRAFT-U.S., General Dynamics F-16

ADVANCING BLADE CONCEPT
See HELICOPTERS-U.S., Sikorsky

AEROSPACE INDUSTRY

Algeria
Algeria plans civil aviation expansion 5/17, p. 39

Australia
Australian buy 7/19, p. 23
Australia to develop trainer 8/16, p. 21

Belgium
Belgium plans buy of F-16 long-lead production items 1/25, p. 26

Brazil
Brazilian export policy sparks criticism 6/21, p. 60

China
Aerospatiale delivers first Dauphin SA 365N helicopter to China 3/1, p. 19
ICAO identifies China's ATC needs 3/1, p. 39
China purchasing Landsat ground station 3/15, p. 16
China awaits export license for CFM56 engine 3/29, p. 24

Cuba
Cuba takes delivery of Soviet Mi-24 Hind D attack helicopter 3/1, p. 16

Egypt
Egypt's technology shift: Nation seeks larger production base 1/4, p. 41
Egypt's industry has designed and is now producing an air defense gun based on the Soviet ZSU-23-4 Shilka gun system 1/4, p. 44
Egypt's technology shift 1/11, p. 44
Factories tool for Alpha Jet program 1/18, p. 61
Egypt's technology shift: Benha, Egypt factory pushes defense and civil technology 1/25, p. 59
Egypt's technology shift: Diverse factors mold air force future 2/1, p. 52
Egypt's technology shift: Egyptian navy gives priority to procurement of missiles and aircraft 2/8, p. 61
U.S. to sell 40 more F-16 fighters to Egypt 3/22, p. 26
Egypt awards helicopter contract 7/19, p. 25

Europe
Easing of lead times facilitates acceleration of Airbus production rates 1/11, p. 73
U.S. companies challenging EEC proposed liability law 2/22, p. 18
Status of major U.S., European defense, aerospace programs 3/8, p. 10
Buy America Act concerns allies 3/22, p. 27
Introduction of robotics gains European usage 8/2, p. 94
New funding sources sought 9/6, p. 80
Falklands war expected to boost sales 9/6, p. 106
Bankers revising financing methods 9/6, p. 191
Financial aid in France threatened by economy 9/6, p. 194
Design teams propose new fighter concepts 9/6, p. 227

France
Ariane 4 in French 1982 budget 1/11, p. 93
French government names new Snecma chief 3/1, p. 19
France reports rise in aerospace exports 3/8, p. 279
French aerospace companies working to strengthen military exports 3/22, p. 64
French agree on Matra nationalization 4/26, p. 151
Panavia offers greek offsets on tornado 5/10, p. 20
French begin industrial improvements 5/17, p. 53
Aerospatiale investing in Toulouse facility 5/17, p. 126
Aerospatiale plans updated line 6/7, p. 24
France to build propfan model 6/28, p. 91
Ariane's success spurs further activity 6/28, p. 137
French study advanced Ariane launcher versions 6/28, p. 141
France considers early warning aircraft 9/20, p. 25
French propose reduced defense spending 9/27, p. 22
French propose $405 million for civil aviation 10/4, p. 32
Mitterand facing fight on defense cuts 11/8, p. 19

Germany
Germans use new production methods 5/17, p. 51
Germany to continue arms export limits 6/21, p. 46
AEG-Telefunken goes into receivership 8/16, p. 23
MBB bids for AEG-Telefunken technology 9/6, p. 46
German industry faces funding cuts 9/6, p. 221

Great Britain
NDN Aircraft, Ltd. plant location for producing NDN-6 Fieldmaster discussed 1/25, p. 74
British Aerospace Jetstream 31 sales to focus on middle management 2/8, p. 66
British Aerospace expects to expand Prestwick, Scotland facility for production of Jetstream 31 2/8, p. 67
Growth trends: British aerospace industry 3/8, p. 233
British Aerospace reports 1981 profit 4/5, p. 26
Rolls net loss 4/12, p. 22
British stress antisubmarine warfare 4/26, p. 149
Avionics firms expand markets outside Britain 9/6, p. 112
Aircraft sales hold firm despite British economy 9/6, p. 163
Development of financial packages changing 9/6, p. 193
De Havilland sales rise 25% in 1982 9/6, p. 194
Scuttling of L-1011 may cost Rolls revenue of $450 million 9/13, p. 96

Greece
Franco/Greek agreement 5/3, p. 15
Pace of Greek fighter competition intensifies 10/25, p. 16

Hungary
Soviet bloc nations seek ventures, sales with west 5/31, p. 19

India
Indonesia starts commuter transport production 4/19, p. 68
France India complete Mirage 2000 buy 4/26, p. 24

Indonesia
U.S., Indonesia agree on joint development 8/9, p. 26

International
Airbus studying alternative delivery methods for A300/A310 aircraft to Libyan Arab Airlines to avoid problems from U.S. Libyan trade embargo 2/22, p. 31
150-seat transport production go-ahead expected at Airbus 2/22, p. 45

Israel
Israelis develop digital control system 6/28, p. 107

Italy
Funding spurs growth in Italian Industry 9/6, p. 183
Italy to develop upper stage for U.S. orbiter 9/6, p. 241
Italy forming new aerospace group 9/6, p. 243

Japan
Japan's budget gives defense largest share of any agency 1/4, p. 21
Japanese working on new defense budget 1/25, p. 57
Kawasaki has completed assembly of the first of four U.S. manufactured but unassembled Lockheed P-3C Orion antisubmarine aircraft 2/8, p. 18
Kawasaki proposes improved version of Boeing Vertol V-107-2 to be designated KV-107-X for the Japanese Air Self-Defense Force 2/8, p. 47
Japanese Defense Agency procurement 2/15, p. 139
Growth trends: Japanese aerospace industry 3/8, p. 73
New purchases double Japan's combat capability 3/8, p. 73
Japan space effort moves into operational phase 3/8, p. 107
Growth of space development budget of Japan 3/8, p. 214
Japan's military airlift procurement 3/22, p. 64
Japan's defense budget 3/22, p. 65
Japanese defense contracts listed 4/19, p. 20
Traffic guides Japanese plans 4/26, p. 28
Benevolent policies prevail in Japan 5/17, p. 163
Japanese industry shows new S-trength, versatility 5/17, p. 163
Japanese results 6/14, p. 33
Japan pushing industry to design new engines 6/28, p. 207
Japanese reluctant to continue licensing 6/28, p. 208
Japan defense bid 7/12, p. 27
Japan reevaluating space policy 7/12, p. 72
Japanese production runs limit robotic investment 8/2, p. 91
Japanese aviation procurement 8/9, p. 96
Japanese defense council approves five-year plan 8/9, p. 96
Japanese pact 8/30, p. 22
Martin Marietta, Nissan parleys center on technology exchange 9/6, p. 46
Japanese defense budget seeks $10.86 million 9/27, p. 61
Joint venture 11/29, p. 80

Korea
Administration seeks Korean aid hike 5/3, p. 18

Netherlands
Fokker undertakes sweeping company reorganization in effort to improve production, sales and earnings 2/8, p. 51
Netherlands to pay MDF 100 R&D costs 3/8, p. 268
Fokker sales rise 4/26, p. 34
Holland cutting defense outlays 8/9, p. 94
Dutch, Swedes use innovative financing 9/6, p. 171
Fokker cutting back on its work force 11/29, p. 44

Poland
Poland seeks subcontract work from west 5/31, p. 18
Soviet bloc nations seek ventures, sales with west 5/31, p. 19

Romania
Soviet bloc nations seek ventures, sales with west 5/31, p. 19

Saudi Arabia
Khashoggi settlement 6/28, p. 26

South Africa
Airline schedules reengining of its 747s 6/7, p. 34
Navy moving to missile attack craft 6/21, p. 44
Helicopter operator expands, diversifies 7/5, p. 54
Air Force reassessing needs in light of inventory 7/19, p. 132

Spain
U.S. lifts Spanish firm's export privileges 3/15, p. 19
Spain weighs fighter purchase decision between F/A-18 and F-16 3/22, p. 27
NATO union key to Spanish defense 6/21, p. 46

Sweden
MiG-23s participate in show at air force base in Sweden 2/1, p. 18
Soviet Flogger Gs shown in Sweden 2/8, p. 20
Sweden facing long-term defense force decisions 3/8, p. 36
Dutch, Swedes use innovative financing 9/6, p. 171

Taiwan
Republic seeks to develop its own weapons systems 4/12, p. 46

U.S.
Defense Dept. attempting to assess impact of National Semiconductor Corp.'s suspension of component and integrated circuit shipments 1/4, p. 21
Manufacturers study aircraft in C-140 replacement project 1/4, p. 25
Boeing aircraft orders and sales announced 1/4, p. 29
Delivery lead times for aerospace materials have shrunk since shortages problem peaked in 1979 1/4, p. 38
New Lockheed subsidiary Cadam, Inc. scheduled to begin operation as a separate organization 1/4, p. 40
Used corporate aircraft sales parallel new ones 1/4, p. 56
Industrial lead times: Manufacturers facing surpluses in materials 1/11, p. 64
Peaks in lead times for equipment General Dynamics has ordered to support F-16 production have varied 1/11, p. 64
Lead time trends for avionics and subsystems experienced by General Dynamics depicted 1/11, p. 65
Hardware lead times experienced by General Dynamics depicted 1/11, p. 69
Northrop minimizes the loss of the potential Chinese purchase of F-5Gs that the White House has blocked 1/18, p. 18
U.S. eyes Egypt as market for F-5G 1/18, p. 18
Boeing stretching derivatives of 737 and 757 for 150-seat market 1/18, p. 26
Economic factors meld to cut aircraft buying 1/18, p. 26
Industrial lead times: soft aerospace market cuts shortages 1/18, p. 53
Suppliers cite increase in raw materials 1/18, p. 55
Industrial lead times: system producers experiencing familiar situations in supplies 1/18, p. 57
China export policy takes final form 1/25, p. 57
Northrop reorganizing managerial structure to aid growth 2/1, p. 26
Commerce Dept. forecasts decrease in exports 2/8, p. 16
General aviation trade balance shifts, value of imports expected to exceed value of exports 2/8, p. 17
National Semiconductor meets with Defense agency and agrees on measures to reverse decertification of the company's facilities for producing components for defense and space systems 2/8, p. 18
The big bet on Reaganomics 2/15, p. 11
FAA budget uses trust fund for ATC plan 2/15, p. 16
Terminology used in Fiscal 1983 budget 2/15, p. 17
Fiscal 1983 Defense Dept. budget 2/15, p. 18
Multiyear procurement, accelerated production of weapons systems and increased funding for research highlight Defense Dept's Fiscal 1983 budget request 2/15, p. 18
Increases in Fiscal 1983 budget by individual aircraft and missiles 2/15, p. 19
USAF Fiscal 1983 budget request encompasses modernization of strategic nuclear weapons programs 2/15, p. 19
Army budget request reflects growth, evolution toward new division 2/15, p. 20
Emphasis in Navy budget shifts toward expansion 2/15, p. 22
Reagan administration submits supplemental defense request to Congress 2/15, p. 23
NASA request rises 11%, reflects gains in space science, shuttle 2/15, p. 24
Exim's direct loans reduced $570 million 2/15, p. 26
NASA budget summary 2/15, p. 26
Congressional critics of Fiscal 1983 defense spending have limited alternatives 2/15, p. 27
Defense program's share of GNP 2/15, p. 27
McDonnell Douglas was part of consortium that financed Laker's DC-10s and provided for pretax loss in anticipation of default 2/15, p. 30
McDonnell Douglas seeking new international partner to produce 150-seat transport following termination of its agreement with Fokker for MDF 100 2/15, p. 34
Rate of civil aircraft accidents rise 2/15, p. 143
Deliveries of general aviation aircraft to shrink in 1982 as billings rise 2/15, p. 144
General aviation unit shipments 2/15, p. 145
General aviation factory billings 2/15, p. 147
Top ten military contractors named 2/22, p. 18
U.S. companies challenging EEC proposed liability law 2/22, p. 18
Space Services, Inc. exploring lease of federal launch facilities for privately financed space launches 2/22, p. 21
Senate economists find support increasing for cuts in defense 2/22, p. 22
Senate proposes defense budget cuts 2/22, p. 22
Fiscal 1983 aerospace budget: Defense research request rises 14% 2/22, p. 53
Fiscal 1983 major weapons systems spending detailed by service 2/22, p. 54
Fiscal 1982 supplemental to Fiscal 1983 defense budget 2/22, p. 58
Fiscal 1983 budget increases associated with acquisition initiatives 2/22, p. 59
Defense Dept. budget financial summary 2/22, p. 60
U.S. Coast Guard seeks Fiscal 1983 helicopter funds 2/22, p. 60
Pentagon planning industrial surge capability to increase production of selected weapons systems 3/1, p. 16
Layoffs at Beech could mark the beginning of new round in reduction of personnel among general aviation industry manufacturers 3/1, p. 25
Senators attack Fiscal 1983 NASA budget cuts 3/1, p. 26
Outlook: Military market acceleration paces aerospace gains 3/8, p. 8
Status of major U.S., European defense, aerospace programs 3/8, p. 10

Growth trends: U.S. aerospace industry 3/8, p. 16
U.S. tactical weapons receive system updates 3/8, p. 37
Growth trends: U.S. military aircraft 3/8, p. 39
Growth trends: U.S. missile sales 3/8, p. 44
Engineer supply found matching demand 3/8, p. 67
Sen. John Glenn criticizes U.S. technology leadership loss 3/8, p. 67
Growth trends: U.S. space sales 3/8, p. 79
Economy key to long-term outlook for U.S. manufacturers of large commercial transports 3/8, p. 163
Growth trends: U.S. scheduled airline traffic and U.S. transport sales 3/8, p. 191
Growth trends: avionics sales 3/8, p. 217
U.S. aerospace exports 3/8, p. 219
Defense electronics market to pace rising defense budget 3/8, p. 231
Business aviation sales backlogs drop 3/8, p. 253
Growth trends: business flying 3/8, p. 253
Turboprop and jet deliveries; single and multi-engine piston deliveries 3/8, p. 254
Growth trends: helicopters 3/8, p. 259
Industrial uses expected to spur helicopter sales 3/8, p. 259
American Airlines eyes used aircraft after 757 cancellation 3/15, p. 28
IEEE president makes proposals to develop a more coherent U.S. technology policy and retain U.S. technology leadership 3/15, p. 69
Buy America Act concerns allies 3/22, p. 27
Business, labor, states form coalition to support Exim Bank 3/22, p. 32
Boeing officials calls outlook cloudy for short-term sales 3/22, p. 33
Cessna restructures marketing and support organizations 3/22, p. 58
Aerospace exports expected to drop 3/22, p. 61
Value of all aerospace products including military sales in 1982 3/22, p. 61
Defense spending will have to increase throughout the decade in order to avoid falling farther behind the Soviet Union 3/22, p. 62
Quantities, inflation indices boost costs of weapons 4/12, p. 64
New order dip threatens airframe makers' future 5/3, p. 16
Chief of shuttle program hits industry preparation 5/10, p. 49
Gates learjet loss 5/17, p. 150
Aerospace industry value of shipments: basecase projections 5/31, p. 71
Latin aviation needs offer challenge to U.S. industry 6/21, p. 35
Funding decrease raises concern over ramjet propulsion future 6/28, p. 190
Aerospace firms seeking shuttle systems contract 7/12, p. 62
Top Beech officers retire 7/12, p. 63
Trustee appointed 7/26, p. 29
Move to integrated facilities planned 8/2, p. 45
Boeing Co's earnings drop 8/9, p. 36
U.S. seeking stronger standards role 8/23, p. 25
Martin Marietta stock traded briskly 9/6, p. 45
Martin pushes rejection of Bendix bid 9/6, p. 45
United Technologies bids for Bendix 9/13, p. 29
Rocket launched 9/13, p. 31
Computer graphics offers 3-D hardware prototypes 10/11, p. 137
Boeing has lower third-quarter earnings 11/8, p. 21
National research policy aimed to bolster aviation 11/15, p. 22
Aeronautics wins a round 11/22, p. 11
Joint venture 11/29, p. 80
Defense electronics spending rise predicted 11/29, p. 93

USSR
Reagan suspends Aeroflot flights to U.S. and curbs exports to Soviet Union of high technology materials in reaction to imposition of martial law in Poland 1/4, p. 20
Soviets outspending U.S. on space by $3-4 billion 7/19, p. 28
Soviet defense engineers study automation 8/2, p. 101
Soviet interest 9/13, p. 20

AFTI
See AIRCRAFT-U.S., General Dynamics F-16

AIR CARGO AND AIR MAIL
Emery nears decision on international operations 2/1, p. 40
Flying Tigers offers door-to-door cargo shipment service 2/1, p. 44
Air freight traffic and revenues 3/8, p. 171
Air freight, transport competition increasing 3/8, p. 203
New computer-to-computer electronic service is threat to airlines' mail revenue services 3/22, p. 29
Orion Air 727-100 operated for United Parcel Service 3/22, p. 41
SAS to stress discounts in economy class freight 5/3, p. 34
Air freight drops 5/10, p. 30
New York airports expand cargo facilities 5/24, p. 29
Miami eyes overseas markets, studies air freight trends 5/24, p. 38
Freight decrease 8/2, p. 28
Postal Service readies new air mail role 8/30, p. 29
UPS plans overnight package delivery by air 8/30, p. 29
Pan Am, Federal Express link services 9/27, p. 31
Hong Kong increases air cargo service 10/11, p. 39
Australian airline plans to become all-freight carrier 10/18, p. 33
Lockheed offers tax aid to purchasers 11/8, p. 135
U.S. carriers mark drop in freight 11/8, p. 135
U.S. scheduled airlines total cargo revenues 11/8, p. 144
UPS refiying on Boeing 727-100QC in expansion of its next-day service 11/22, p. 39
727s used as freighters 11/29, p. 41

AIR INSURANCE
Proponents push to bring Montreal protocol to vote 9/20, p. 41

AIR NATIONAL GUARD
Support grows for national guard reform 5/17, p. 173

AIR SHOWS
See also ASSOCIATIONS; CONFERENCES, CONVENTIONS, MEETINGS, SYMPOSIUMS

Europe
Increased interval between European shows recommended 9/13, p. 28

Farnborough
Farnborough air show dates, exhibition plans determined 2/1, p. 64
McDonnell Douglas drops Farnborough air show 3/1, p. 18
B-1 Appearance expected at Farnborough 4/26, p. 25
Varied display expected to highlight air show 8/30, p. 22
Rumblings of change 9/13, p. 13
Flying displays showcase new transports 9/13, p. 18
Soviet interest 9/13, p. 20
B-1 display tests flight performance 9/13, p. 21
European industry group exhibits fighter mockup 9/13, p. 22
Sea Harrier escapes mat damage at show 9/27, p. 67
British Royal Air Force Red Arrows 10/25, p. 49
Commuter aircraft that flew at Farnborough 10/25, p. 51

Hanover
Hanover air show to be held May 18-25 2/1, p. 65
Fokker withdraws from Hanover air show this year 3/8, p. 270
Leftist groups threatening air show disruption 3/29, p. 20
German show stresses general aviation 5/17, p. 23
Hanover show opening marred 5/24, p. 16
Air show sponsors pledge to keep the event at Hanover 5/31, p. 18
Large French presence at Hanover show 5/31, p. 19

Paris
France has set dates May 26-June 5, 1983 for next Paris air show 2/1, p. 17
Lockheed examining role in Paris air show 3/8, p. 280
Paris show recruiting outpaces last year 8/30, p. 15
Firm to bypass Paris air show 10/18, p. 20

Reading
Reading Aviation Service has canceled what would have been 32nd Reading air show 2/1, p. 20

Texas
Texas planning aerospace exposition 2/8, p. 24

U.S.
European attitude wary toward U.S. air show 2/1, p. 16
McGraw-Hill weighing decision on air show 2/1, p. 16
Orlando International Airport may be offered as site for International Aerospace Exhibition 2/1, p. 20
Air show deferred 5/31, p. 24
The end of an air show 6/7, p. 9

USAFE
Air shows canceled 4/5, p. 27

AIR TRAFFIC
Airline results in June show gains in traffic, load factor 7/12, p. 34
American airlines expanding Dallas facilities 8/2, p. 34
Deregulation effects vary among travelers, airlines 8/16, p. 34
Traffic increases by 5.5% in August 9/20, p. 29

AIR TRAFFIC CONTROL
FAA to assume partial ATC equipment liability 1/4, p. 32
ATC trainee failure rate high 1/4, p. 37
Consolidation of 20 existing air route traffic control centers is proposed by FAA in new system 1/11, p. 28
New and innovative FAA national airspace system plan set 1/11, p. 28
Sharp reduction in number of flight service stations is part of FAA new system plan 1/11, p. 29
PATCO chief anticipates long fight for solution 1/11, p. 38
FAA plans to increase ATC capacity 2/8, p. 31
Indifference, opposition mark reaction to FAA proposed ATC plan 2/8, p. 34
FAA budget uses trust fund for ATC plan 2/15, p. 16
CAB reports drop in consumer complaints about airlines despite air traffic control situation 2/15, p. 34
ICAO identifies China's ATC needs 3/1, p. 39
Transportation Dept task force finds controller morale drop 3/22, p. 34
Military controllers 6/14, p. 32
FAA Continues to weigh peak-hour ATC staffing 7/26, p. 42
Controlling the system 8/16, p. 11
Training strains controller morale 10/25, p. 28
Controller coverage 10/25, p. 29
FAA school spurs pace to bolster ATC force 11/1, p. 28
Veteran controllers weighing early retirement 11/1, p. 28
Controller coverage 11/1, p. 29
Traffic control changes urged to cut fuel costs 11/1, p. 30
ATC training drive continues 11/8, p. 149
FAA chief acknowledges difficulties of controllers 11/15, p. 42
Controller coverage 11/15, p. 43
FAA pushes to increase quality of traffic controller trainees 11/22, p. 40
Eurocontrol criticized 11/22, p. 41

AIRBORNE WARNING AND CONTROL SYSTEMS
NATO's early warning force activated; program on schedule 7/12, p. 52
E-3 designation shift 8/30, p. 51
France considers early warning aircraft 9/20, p. 25

AIRBORNE WARNING AND CONTROL SYSTEM
Air Force prepares new aerostat for launch 6/14, p. 94
Air Force prepares new aerostate for launch 6/14, p. 94

AIRCRAFT CAPACITY
Boeing studying derivatives of 737 and 757 for 150-seat market 1/18, p. 26
Delta evaluating Airbus A320 as 150-seat transport 1/18, p. 27
McDonnell Douglas seeking new international partner to produce 150-seat transport following termination of its agreement with Fokker 2/15, p. 34
McDonnell Douglas/Fokker cancel MDF 100 150-seat aircraft 2/15, p. 34
150-seat transport production go-ahead expected at Airbus 2/22, p. 45

AIRCRAFT CARRIERS, SHIPS, SUBMARINES
Soviet Delta 2, Alfa-class submarines have long range, high submerged speed 1/4, p. 20
Soviet intelligence-gathering ship intrudes on Trident test 1/25, p. 20
Sikorsky CH-3 hovers over Soviet intelligence-gathering ship prior to test launch of Trident missile from USS Ohio nuclear submarine 1/25, p. 21
Egyptian navy Whiskey-class attack submarine provided by Soviet Union tied up at dock of Alexandria, Egypt naval base 2/8, p. 61
Soviet carrier Kiev, VTOL aircraft support Baltic Sea exercises 3/15, p. 58
British stress antisubmarine warfare 4/26, p. 149
Germand push diesel-electric sub sale 5/10, p. 59
Grumman to deliver hydrofoil to Israel 6/21, p. 47
Invincible sale offer withdrawn 7/19, p. 19
Orion avionics systems being updated 9/13, p. 101
Bermuda area considered pivotal 9/13, p. 103
Submarine laser program 10/18, p. 55
Surface effect ship to be tested in variety of roles 11/29, p. 60

AIRCRAFT CERTIFICATION
Two-man cockpit still an issue despite Garuda's A300 delivery 1/25, p. 34
Boeing flight testing 757 and 767 at same time to meet certification goal 2/15, p. 42
Boeing 757 tested before certification 7/26, p. 39
Boeing 767 wins FAA type certificate 8/9, p. 28
Lear fan 2100 aircraft nearing FAA certification 8/9, p. 85
LearAvia in discussions on financing 8/16, p. 20
FAA certification 8/23, p. 71
Airbus A310 certification effort grows 11/8, p. 133
British Airways 757 shown in test flight prior to certification 11/15, p. 29

AIRCRAFT EQUIPMENT AND INTERIORS
Commuter transport interior designed by British Aerospace will be standard on all commuter aircraft 2/8, p. 69
Northwest plans to add seats to 747s and DC-10s and refurbish interiors 3/8, p. 271

AIRCRAFT LEASING
Atlantic City casino leasing DC-9-30 operated by American International Airways 1/25, p. 54
Leasing companies support rollback 4/19, p. 30
Carriers diverge on safe harbor continuance 5/3, p. 16
Vertol 234 operator 5/17, p. 113
DC-10 Lease 5/31, p. 30
Airlines sell $100 million in safe harbor benefits 7/26, p. 30
Cutback eased on safe harbor 8/2, p. 29
Safe Harbor amendment clears Eastern 757 buy 8/30, p. 26
Corporate operators turning to leasing 9/13, p. 93
American to lease new DC-9-80s 10/4, p. 28
Airline views lease deal as short term 10/4, p. 29
Services modify business aircraft acquisition 10/11, p. 20
Trans World intends to lease 15 DC-9-80s 10/18, p. 22
Company wins marketing rights to Boeing 767s 10/18, p. 24
World, Greyhound settlement 10/18, p. 27
TWA board approves DC-9-80 leasing 11/1, p. 36
European airlines leasing more than buying 11/8, p. 55
Airline using DC-9-80 leasing to cut funding 11/8, p. 117

AIRCRAFT THEFT
General aviation aircraft theft numbers drop in 1981 1/18, p. 23

AIRCRAFT-INTERNATIONAL

Belgium
Belgium to reduce Air Force pilots' flight time 3/29, p. 21

Brazil
Embraer redesignates newest version of Xingu line of corporate aircraft as Xingu 3. Xingu 1A now called Xingu 2 1/4, p. 57
Embraer negotiations 10/11, p. 22
Fairchild seeks Bandeirante certification data 10/25, p. 24
Mid-South Airlines' fleet includes Embraer Bandeirante commuter transports 11/8, p. 113

Canada
Canadair CL-215 amphibious aircraft delivered to Yugoslavia 1/4, p. 56
Pilgrim Airlines de Havilland of Canada DHC-6 Twin Otter crash lands on frozen reservoir in Rhode Island 3/1, p. 32
Canadair's No. 5 Challenger demonstrator aircraft flies over southern California 3/8, p. 251
Canadair Challenger corporate jet aircraft rolled out of Montreal plant 9/6, p. 50
New commuter aircraft planned 9/13, p. 32

China
Prototype of Y-10 124-passengar transport shown on takeoff for first flight 1/4, p. 27
Chinese Y-10 transport resembles Boeing 707 2/1, p. 49

Czechoslavakia
Czechoslavakian company testing turbine-powered agricultural aircraft 7/5, p. 69

Egypt
Prototype Cairo HA-300 supersonic fighter aircraft displayed at Helwan Aircraft Factory 1/4, p. 41
Supersonic fighter prototype that has reached speeds of Mach 1.5 housed at Helwan Aircraft Factory 1/4, p. 42
Delta wing supersonic aircraft Cairo HA-300 at Helwan facility 1/4, p. 43
Helwan Aircraft Factory produced HA-200 jet-engine-powered trainers for the Egyptian air force 1/4, p. 44
Tail section of HA-300 delta-wing supersonic fighter prototype in Helwan factory 1/18, p. 61
Fatigue testing accomplished at Helwan factory on an external fuel tank 1/18, p. 63
Technicians assemble turbojet components for HA-200 and HA-300 at Helwan factory 1/18, p. 63
Skilled Egyptian metal workers operate lathes in the research and development facility at Helwan factory 1/18, p. 66

Finland
Valmet Pik-23 Towmaster shown in its first flight 8/9, p. 83

France
Egypt to buy Mirage 2000 fighters 1/11, p. 27
Matra Magic 550 air-to-air missiles for Mirage 5 fighters operated by Egyptian air force at Tanta air force base in Egypt 2/1, p. 61
Tanta, Egypt principal site for Mirage training 2/1, p. 61
Manufacture of Dassault-Breguet Super Etendard will end this year 3/15, p. 52
Second Dassault-Breguet New Generation Atlantic maritime patrol aircraft tested 3/15, p. 52
French push Mirage 2000 export sales 3/22, p. 44
Coast Guard reviews aviations needs (Dassault-Breguet/Falcon Jet HU-25A) 3/29, p. 49
Airbus Industrie ground tests its A310 in airline markings 4/5, p. 31
Airbus begins A310 flight tests 4/12, p. 26
Mirage F1-CR in flight test 4/19, p. 19
Super etenard fighters shown in operation 4/19, p. 21
France, India complete mirage 2000 buy 4/26, p. 24
Advanced attack trainer starts flight tests 4/26, p. 26
Work begins on preproduction microjet 200B 4/26, p. 161
Belgian Mirage 5B engine problems studied 5/10, p. 22
Weapons usage limited by Argentine experience 5/17, p. 26
Airbus tests show A310 outperforms guarantees 5/17, p. 39
Titanium in A310 5/17, p. 78
French Mirage 2000 participating in payload developmental flight tests 5/24, p. 20
Mock combat preceded British deployment 6/14, p. 24
Tunis Air A300 6/14, p. 32
HU-25A increases coast guard mission capabilities 7/26, p. 112
French testing new Atlantic patrol aircraft 9/6, p. 111
Fly-by-wire Mirage 3 version built 9/13, p. 26
France mulling fighter production extension 11/1, p. 26
Mirages for India 11/1, p. 27
European, U.S. fighters dispayed 11/1, p. 78
Mirage 3NG starts final ground checks 11/22, p. 52
Production Mirage 2000 to make its first flight 11/22, p. 52
Reconnaisance Mirage undergoes checkout 11/22, p. 53

Germany
Transair prepares Bo. 105s for Iraqi medical missions 5/17, p. 171
Two-seat (G-110) composite aircraft proposed 5/24, p. 69
Thai air force orders Fantrainers 9/13, p. 28
Europeans mull need for new fighter 9/20, p. 95

Great Britain
Flight test program for the NDN Aircraft Ltd., NDN-6 Fieldmaster agricultural aircraft to be moved to Farnborough, England 1/4, p. 25
Second British Aerospace 146 readied for flight 1/4, p. 32
NDN Aircraft, Ltd. plant location for producing NDN-6 Fieldmaster discussed 1/25, p. 74
British Aerospace Jetstream 31 rolled out in Scotland 2/1, p. 36
Second British Aerospace 146 makes first flight 2/8, p. 34
Fuselage sections of No. 5 Jetstream 31 shown at production facility in Prestwick, Scotland 2/8, p. 66
Jetstream 31 sales to focus on middle management 2/8, p. 66
Commuter transport interior designed by British Aerospace will be standard on all commuter aircraft 2/8, p. 69
Flight testing accomplished in modified Jetstream 31 2/8, p. 71
New cockpit arrangement for Jetstream 31 shown 2/8, p. 71
British Aerospace designs new technology fighter P-110 2/15, p. 109
Jaguar testbed aircraft modified to have quadruplex fly-by-wire flight control system in flight test program 2/15, p. 109
Wind tunnel model of modified Jaguar shows airflow 2/15, p. 110
Flight control computers located in fuselage bays of Jaguar fly-by-wire testbed shown 2/15, p. 111
NDN-6 Fieldmaster agricultural aircraft in flight test 3/1, p. 25
Two British Aerospace 146 transports in test program 3/22, p. 33
Accidents involving AV-8A Harriers operated by U.S. Marines cut number of operable aircraft from 110 to 68 3/22, p. 75
British Aerospace Scottish Jetstream 31 makes its first flight 4/5, p. 38
Hunting JP233 flight tests begin on tornado 4/19, p. 17
British aerospace 146-200 readied for engine installation 4/19, p. 27
Agricultural aircraft being evaluated 5/10, p. 67
Air activity burgeons for Ascension Island 5/17, p. 24
Lynx 3 helicopter 5/24, p. 16
Lynx 3 helicopter 5/24, p. 16
British staging military forces at Wideawake 5/24, p. 18
British Aerospace 146 enters final assembly 5/24, p. 30
Argentine aircraft attacking British (English Electric Canberra) 5/31, p. 21
Laker A300s 5/31, p. 27
Mock combat preceded British deployment 6/14, p. 24
BAC 111 sales 6/14, p. 30
Lockheed studies marketing British trainer 6/14, p. 107
Lockheed studies marketing british trainer 6/14, p. 107
Stretched British Aerospace 146-200 rolled out 7/12, p. 30
British Harriers averaged six sorties per day 7/19, p. 20
Converted Vickers VC-10 tanker starts flight tests 7/19, p. 22
Light observation aircraft planned 8/9, p. 77
British force active in South Atlantic 8/16, p. 19
British Aerospace 146-200 makes first flight 8/16, p. 32
Advanced turboprop transport concept developed by British aerospace 9/6, p. 55
Thirteen British Aerospace 146 aircraft nearing completion 9/6, p. 165
Turboprop trainer 9/13, p. 21
New commuter aircraft planned 9/13, p. 32
Transport shown prior to Far East trip 9/20, p. 33
British display advanced turboprop 9/20, p. 49
Commuter aircraft to be built in U.S. 10/11, p. 49
Dragon microlight aircraft nears completion of flight evaluation 10/25, p. 77
Wings Airways using Pilatus Britten-Norman BN-2 Islander, BN-2A Mk. 3 Trislander 11/8, p. 117
British Aerospace 146 transport tours pacific areas 11/15, p. 34
British commuter Genair joins British Caledonian commuter services organization 11/29, p. 43

Israel
IAI Westwind 2 can be distinguished from predecessors by winglets on tip tanks 1/25, p. 74
IAI Westwind 2 offers increase in range 1/25, p. 74
Standard interior configuration for Westwind 2 provides seating for seven passengers and a crew of two 1/25, p. 75
Westwind specifications compared 1/25, p. 76
Part of the difference in price between Westwind 1 and Westwind 2 is the newer aircraft's standard avionics package 1/25, p. 77
Airspur increases service to San Diego using Israeli Arava 101B 3/29, p. 38
Argentine aircraft attacking British (Mirage 3 Nesher) 5/31, p. 21

Italy
Italy's aerobatic team being equipped with MB 339A trainers 4/12, p. 53
SIAI Marchetti plans amphibious aircraft 6/21, p. 40
Proposed Italian aircraft would be land/sea operable 8/9, p. 78

Japan
Diamond 1 contract 5/17, p. 27
Mitsubishi geared to deliver Diamond 1 5/24, p. 70
Diamond 1 performance matches goals 9/6, p. 229

Netherlands
Fokker considering new engines for F-27 transport RB.510-0 for PW100 2/8, p. 55
F-27 maritime operational in Antilles 8/30, p. 57
Fokker approves updating of F-27, F-28 aircraft 9/6, p. 278
Thai F-27 order 10/4, p. 28
Altair operating Fokker F-28 transports in regional service 11/8, p. 106

Romania
Romanian-built BAC 111-560 flight test begins 9/13, p. 26

Spain
American CASA has reached agreement with CASA Spanish airframe manufacturer, to produce C-212 transports in the U.S. 3/1, p. 36
Pacific island nation takes delivery of CASA C-212 transport 4/12, p. 39

Sweden
Sweden evaluates powerplant proposals for JAS fighter 1/25, p. 24
Latest version of Saab-Scania 2105 proposed for new JAS fighter shown in artist's concept 1/25, p. 25
Rockwell wing option for JAS fighter 5/17, p. 27
Automation aids new 340 production 5/17, p. 61
First Saab-Fairchild 340 aircraft under construction in Sweden 5/17, p. 76
340 training center 5/31, p. 65
JAS funding approved by Swedes 6/14, p. 29
Sales royalty to help finance transport 9/6, p. 171
Rockwell to manufacture first JAS wings 9/13, p. 27
Rockwell to manufacture first JAS wings 9/13, p. 27
Multiple roles planned for JAS 39 10/11, p. 128
F-16s, JA37s fly together 11/22, p. 58
British Aerospace to help produce JAS wings 11/29, p. 28

Switzerland
First Pilatus PC-7 turbo trainer delivered to Swiss Aviation School 9/6, p. 228

USSR
MiG-23s participate in show at air force base in Sweden 2/1, p. 18
Soviet Backfire with AS-4 Kitchen missile 2/8, cover
Second unit of MiG-23s identified in Cuban hands 2/8, p. 17
Soviet Flogger Gs shown in Sweden 2/8, p. 20
Soviet MiG-23 Flogger G with wings swept, climbing 2/22, cover
Soviet air force MiG-23 Flogger G fighters join Swedish air force fighters for joint demonstration 2/22, p. 74
Tupolev Tu-95 Bear D intercepted by U.S. Navy McDonnell Douglas F-4 off U.S. coast 3/1, p. 45
Iraq operating Soviet-built transports 4/12, p. 54
Air North F-27s 4/19, p. 31
USSR-France IL-86 Service to Begin 4/19, p. 32
Norwegian F-16 escorts Soviet Tu-26 backfire in international airspace 4/26, p. 19
Soviets test attack aircraft in Afghanistan 4/26, p. 21
Hormones line deck of minsk for Pacific Cruise 5/3, p. 21
Marine unit determines infrared signature of Soviet transport aircraft 5/3, p. 75
Soviet Tu-16 encountered off Japan 5/10, p. 18
Transair prepares BO. 105s for Iraqi medical missions 5/17, p. 171
Scheduled IL-86 service links Paris-Moscow Route 5/24, p. 31
Vulcan strike 6/7, p. 17
Aeroflot IL-86 shown during Paris stopover 6/7, p. 29
Soviets deploy updated MiG-25 Foxbat fighter 6/7, p. 54
Aeroflot expanding international service 6/28, p. 32
Tu-95 Bear Ds fly from Angola to Cuba 7/26, p. 106
Flogger B 8/2, p. 23
Il-62 accident 10/4, p. 31
Swedish Air Force photographs Soviet Tu-126 10/11, p. 21
Soviet Tupolev bomber photographed while observing NATO exercises 11/22, p. 55

People Express plans to increase its fleet of 737s 11/8, p. 163
Chinese airline orders Boeing 737s 11/29, p. 31

Boeing 737-200
Automatic landing system evaluated 7/5, p. 57
USAir takes delivery of its first Boeing 737-200 transport 11/22, p. 41

Boeing 737-300
737-300 receiving laser-gyro inertial reference equipment 7/5, p. 62
Orion airways purchases Boeing 737-300 transport 7/5, p. 65

Boeing 747
Boeing studying appeal of 747 transport options 2/8, p. 35
Mockup of Boeing 747 stretched upper deck equipped with overhead stowage bins for carry-on items 2/8, p. 35
Boeing believes appeal of 747 Combi with mixed passenger/cargo capability on main deck will be intensified with addition of stretched upper deck 2/8, p. 36
Senate backs 747 over C-5 transport 5/24, p. 21
Braniff fleet may depress prices of used aircraft 5/24, p. 29
Airline schedules reengining of its 747s 6/7, p. 34
Defense officials prefer improving CRAF to 747 6/14, p. 26
Rocket Propulsion Laboratory studying space sortie system 6/14, p. 28
USAF to keep 747s out of inventory 6/21, p. 23
Boeing 747 extended upper deck sections joined 7/19, p. 31
United sets Japan flight plans 10/25, p. 28
Eastern plans 757 test at Washington 11/1, p. 30
Swissair to sell two 747s after receiving its new 747-300 aircraft 11/8, p. 65
Boeing planning 747 freighter upgrades 11/8, p. 136
Air Canada 747, Air Florida CASA 212-200 Share Miami taxiway 11/8, p. 178
British Airways 757 shown in test flight prior to certification 11/15, p. 29

Boeing 747-200
Full Boeing aircraft line featured on Seattle ramp 6/21, p. 29

Boeing 747-300
Boeing rolls out its 747-300 transport 9/27, p. 28
Swissair's Boeing 747-300 makes its first flight 10/11, p. 31
Swissair to sell two 747s after receiving its new 747-300 aircraft 11/8, p. 65

Boeing 747F
Saudia considering A300 passenger/freight 11/8, p. 143

Boeing 747SP
Full Boeing aircraft line featured on Seattle ramp 6/21, p. 29

Boeing 757
757 twinjet painted in same distinctive colors as 767 wide-body rolls out of Renton, Wash. plant 1/18, p. 24
Boeing rolls out its 757 twinjet 1/18, p. 24
757 static test airframe installed to determine structural strength of new 757 twinjet 1/18, p. 25
Boeing studying derivatives of 737 and 757 for 150-seat market 1/18, p. 26
A spirited rollout 1/25, p. 13
No. 1 757 fueled for the first time in preparation for initial runs of RB.211-535C engines 1/25, p. 33
757 rollout ceremony given Hollywood style treatment 1/25, p. 40
Boeing flight testing 757 and 767 at same time to meet certification goal 2/15, p. 42
First test runs of Boeing 757 accomplished 2/15, p. 50
Boeing 757 completes taxi tests 2/22, p. 33
757 effort involves 1,300 companies 2/22, p. 44
757 in first flight 3/1, p. 34
Boeing 757 engine changed after first flight 3/1, p. 34
757 engine stall examined by Boeing 3/8, p. 275
American Airlines cancels plans to buy 757, delays delivery on 767 3/8, p. 280
Boeing 757 and 767 being tested 3/15, p. 25
757 flutter test 3/29, p. 27
Boeing sales 4/12, p. 29
Flutter tests completed on No. 1 757 transport 4/19, p. 30
Boeing refines 757/767 digital avionics 4/19, p. 57
Anti-skid fix 5/24, p. 32
Boeing terminates Rockwell's 757 work 6/21, p. 28
Brakes selected 7/12, p. 32
Boeing studies new versions of 757, 767 7/12, p. 47
European center 7/12, p. 52
Boeing 757 tested before certification 7/26, p. 39
757 undergoes minimum speed test at Edwards AFB 8/2, p. 30
Boeing Co.'s earnings drop 8/9, p. 36
757 systems key to route flexibility 8/30, p. 36
767/757 crew training stresses performance 8/30, p. 46
Britain studies 757 tanker proposal 9/20, p. 23
Carriers weigh spare parts pool 10/18, p. 21

Boeing 757-200
Transport corporate conversions rise 11/1, p. 81

Boeing 767
American Airlines reconsidering order for 767s 1/4, p. 28
767 twinjet transport evaluated in takeoff tests at Edwards AFB 2/8, p. 28
Boeing flight testing 757 and 767 at same time to meet certification goal 2/15, p. 42
Boeing's second-generation airborne data analysis and monitoring system (ADAMS 2) shown on board 767 2/15, p. 43
Reels near aft end of cabin of 767 used for pressure and altitude measurements 2/15, p. 43
Major elements of Boeing flight test data system illustrated schematically 2/15, p. 49
Third 767 for United Airlines in test flight over Pacific Northwest 3/8, p. 161
767 powered by CF6-80A makes first flight 3/8, p. 203
American Airlines cancels plans to buy 757, delays delivery on 767 3/8, p. 280
Boeing 757 and 767 being tested 3/15, p. 25
Five aircraft of 767 test fleet shown 3/15, p. 37
Two-pilot 767 transport scheduled for first flight 3/15, p. 37
Workers strip flight deck of first American Airlines 767 as part of modification effort 3/15, p. 38
United asks Boeing to halt work on 767s 4/5, p. 28
United's 767 decision impact studied 4/5, p. 28
Boeing tests 767 airframe 4/12, p. 41
Boeing 767 4/19, p. 34
Boeing 767 4/19, p. 37
Boeing refines 757/767 digital avionics 4/19, p. 57
Boeing's 767s prepared for airline customers 4/26, p. 33
Air Canada's first 767 transport enters final assembly stage 5/3, p. 24
Spray tests clear 767 for wet runway 5/10, p. 26
United to negotiate cancellation or delay of 20 Boeing 767s 5/31, p. 26
Two-pilot 767 enters flight-test program 6/7, p. 26
767 Flies demonstration route segment 6/21, p. 28
Full Boeing aircraft line featured on Seattle ramp 6/21, p. 29
Boeing 767 demonstrated with two-man cockpit crew 7/5, p. 36
European center 7/12, p. 52
Certification for 767 transport on schedule, expected July 30 7/26, p. 32
United schedules 767 flights 8/2, p. 29
Boeing 767 wins FAA type certificate 8/9, p. 28
Boeing 767 transports ready for delivery to airlines 8/23, p. 29
Boeing's new 767 eases crew workload 8/23, p. 41
767/757 crew training stresses performance 8/30, p. 46
Airline gears to business traveler 9/20, p. 36
Canadian 767 service to start 10/4, p. 39
Thai Airways 767 order breaks year-long hiatus 10/11, p. 33
Carriers weigh spare parts pool 10/18, p. 21
American Airlines' first Boeing 767 transport makes its initial flight 10/18, p. 23
Company wins marketing rights to Boeing 767s 10/18, p. 24
Observer pilot to fly initially in 767 11/8, p. 31
Boeing 767 transport being prepared for delivery to Air Canada 11/8, p. 76
767 production schedules 11/29, p. 35
Trans World Airlines 767 begins pre-delivery flight tests 11/29, p. 51

Boeing 767-300
Stretched aircraft 6/21, p. 29

Boeing B-52
B-52s in Europe 6/7, p. 73

Boeing B-52G
B-52/Harpoon changes set 8/16, p. 25

Boeing C-135
Reengined C-135 delivered to USAF 2/1, p. 21

Boeing E-3
Delivery of NATO AWACS held up by Luxembourg 2/8, p. 24

Boeing E-3A
Boeing E-3A aircraft play important role 6/7, p. 79

Boeing E-3A 707-320B
Boeing E-3A 707320B airborne warning and control system 7/12, p. 53

Boeing E-4
General Electric CF6-50E engines for E-4s undergo modification 2/22, p. 77

Boeing KC-135
KC-135 refuels B-1A 11/22, p. 75

Boeing KC-135A
Tanker Reengining 4/19, p. 72

Boeing KC-135R
Reengined KC-135R 8/16, p. 17
Reengined KC-135R evaluated in flight 9/20, p. 105

Boeing KC-B5R
Modified KC-135 rolls out with updated turbofans 6/28, p. 28

Boeing Vertol 234
Vertol 234 operator 5/17, p. 113

British Aerospace Sea Harrier
Sea Harrier escapes mat damage at show 9/27, p. 67

CX
Decision on C-5 reversing C-17 and KC-10 recommendation sparks military and congressional opposition 1/25, p. 18

Canadair CL-215
Spray system allows Canadair CL-215 to be used in dispersing oil spills 10/11, p. 109

Canadair CL-600 Challenger
Stall strip removal 8/30, p. 50

Canadair Challenger 601
First flight of challenger 601 aimed at certification in 1983 4/19, p. 22
Challenger tests 5/17, p. 22

Canadair Challenger CL-600
Challenger tests 5/17, p. 22

Cessna 182
Aircraft dismantled after private field landing 11/22, p. 67

Cessna 210
FAA restricts certain 210s from IFR flight operations 3/29, p. 22

Cessna 402
Gull Air using Cessna 402 on New England routes 11/8, p. 51

Cessna CE-421C
Cessnas modified with PT6 turboprops 11/29, p. 61

Cessna Citation 2
Color displays evaluated in Citation 2 4/19, p. 62
Cessna offers Citation service as replacement for CT-39s 8/9, p. 26
University of North Dakota researching weather modification 10/25, p. 59

Cessna Citation 3
Cessna develops Citation 3 performance data 8/30, p. 18
Citation 3 rollout 9/20, p. 24

Cessna P-210
Cessnas modified with PT6 turboprops 11/29, p. 61

Douglas A-4B
Argentine aircraft attacking British 5/31, p. 21

Douglas DC-3
Reengined DC-3 to start taxi tests 5/31, p. 23

Fairchild Republic A-10
A-10 close support aircraft positioned at Egyptian air force base for Bright Star missions 2/1, p. 55
USAF/Fairchild A-10 to test night attack avionics 2/1, p. 83
Fix found for A-10 residue problem caused by gun gas ingestion from GAU-8/A 2/8, p. 47
USAF to evaluate Northrop turbine engine monitoring systems (TEMS) on a squadron of A-10s 2/15, p. 140
A-10 tactical units integrating with NATO ground operations 6/7, p. 79
Congress votes to terminate A-10 production 8/23, p. 16

Fairchild Republic T-46A
Control stressed in trainer production 10/18, p. 63

Fairchild Swearingen Merlin
FAA directive prohibits flights of Metro 3 and Merlin 3C and 4C in icing conditions 3/22, p. 56

Fairchild Swearingen Metro
Metro 3A enters flight tests 1/18, p. 34

FAA directive prohibits flights of Metro 3 and Merlin 3C and 4C in icing conditions 3/22, p. 56

Fairchild Swearingen Metro 3
Swearingen boosts Metro performance 9/27, p. 35

Fairchild-Republic Trainer
Air Force chooses Fairchild Republic Trainer 7/19, p. 117

Fokker FXX
100-passenger aircraft 5/31, p. 25

Gates Learjet
Gates Learjet expanding product line 10/11, p. 103
Two firms modifying executive jet for use in tactical training 10/11, p. 111

Gates Learjet 20
Gates suspends Model 20, 30 series assembly 8/9, p. 78
NTSB asks pilot transition changes 10/11, p. 23

Gates Learjet 24
Calspan learjet provides training aid 5/3, p. 39

Gates Learjet 30
Gates suspends Model 20, 30 series assembly 8/9, p. 78

Gates Learjet 35A
Congress may scrutinize Iraq aircraft sale 9/20, p. 21
First special mission Gates Learjet 35A readied for Finland 9/27, p. 54

Gates Learjet TF25
Gates Learjet TF25 added to modification program 9/27, p. 51

General
Manufacturers study aircraft in C-140 replacement project 1/4, p. 25

General Dynamics AFT1/F-16
AFT1/F16 Tests 8/9, p. 25

General Dynamics F-111
F-111D fighter crashes near Woodlin, Calif. during check flight 2/8, p. 22
USAF studying wing adaptable in flight 3/29, p. 50
Pave Mover surveillance radar tested on F-111 7/19, p. 141

General Dynamics F-111C
Guided-weapon system 7/5, p. 17

General Dynamics F-111F
Pave Tack target system demonstrated 9/6, p. 200

General Dynamics F-16
Hughes AMRAAM evaluated in flight 1/4, p. 48
First of 40 F-16 Fighting Falcons for the Egyptian air force is test flown 1/18, p. 16
Belgium plans buy of F-16 long-lead production items 1/25, p. 26
F-16 flight control changes demonstrated 1/25, p. 26
One of eight F-16s lands in Egypt during Bright Star war games 2/1, p. 53
F-16 multiyear procurement to begin 2/1, p. 64
F-16A tested with General Electric GPU-5/A (GEPOD-30) gun 2/8, p. 16
Egyptian F-16A climbs vertically 2/15, cover
Egypt prepares to accept delivery of additional F-16s 2/15, p. 141
AFTI/F-16 advanced fighter technology testbed readied for flight 2/22, p. 27
APG-66 fire control radar tested in flight on F-16 3/22, p. 21
U.S. to sell 40 more F-16 fighters to Egypt 3/22, p. 26
Spain weighs fighter purchase decision between F/A-18 and F-16 3/22, p. 27
Utah test range being upgraded to provide air combat maneuvering instrumentation (ACMI) capability for F-16 aircrew training 3/22, p. 73
Belgium to make decision on ECM system for its F-16s 4/5, p. 24
Norwegian F-16 escorts Soviet Tu-26 backfire in international airspace 4/26, p. 19
F-16s grounded 4/26, p. 23
Updates begin on multinational F-16 4/26, p. 157
F-16 procurement buy offers incentives 5/24, p. 46
Noise controlled facility services F-16 engines 7/12, p. 57
F-16 demonstrator to test new combat technology 7/19, p. 23
Peru seeks letter of offer on F-16s 8/2, p. 21
Thunderbirds training in F-16 fighters 10/4, p. 55
F-16s to Japan 10/11, p. 21
F-16 Delivery 10/18, p. 15
European, U.S. fighters displayed 11/1, p. 78
F-16s, JA37s fly together 11/22, p. 58

General Dynamics F-16/79
Services ordered to push export fighters 8/9, p. 26

General Dynamics F-16B
F-16 computer control 5/31, p. 24
F-16B tested prior to delivery to Pakistan in December 10/11, p. 124

General Dynamics F-16E
F-16E Prototype model tested in Langley wind tunnel 4/26, p. 152

General Dynamics F-16XL
F-16XL readied for flight testing 7/5, p. 15
F-16XL enters flight test program 7/12, p. 19
F-16XL drops bombs in flight demonstration 9/6, p. 52
F-16XL flight tests resume at Edwards 10/11, p. 121
F101 Powered General Dynamics F-16XL makes first flight 11/8, p. 16

Grumman C-2
Tests set on C-2 flutter fixes 8/23, p. 18

Grumman C-2A
C-2A production planning based on multiyear funds 5/24, p. 48

Grumman E-2
E-2Cs to be used in drug detection 2/22, p. 26

Lockheed EP-3B Orion external equipment pod developed 3/8, p. 239

Lockheed Georgia C-140
Air Force seeking non-Combat aircraft 5/24, p. 24

Lockheed L-100
Kuwait signs contract for four L-100-30 Super Hercules transports 1/25, p. 19

Lockheed L-100-30
Lockheed plans corporate role for its super hercules 5/10, p. 59

Lockheed L-1011
Pan Am would prefer production continuation of L-1011 to purchase of 757s or 767s 1/18, p. 27
Sperry electronic flight instruments being tested on L-1011 2/8, p. 74
L-1011 production 4/26, p. 34
Scuttling of L-1011 may cost Rolls revenue of $450 million 9/13, p. 96

Lockheed L-1011-500
Pan American plans to sell L-1011 fleet 7/26, p. 31

Lockheed P-3
Defense Dept. restores Navy P-3C funding to budget 2/1, p. 26
Kawasaki has completed assembly of the first of four U.S. manufactured but unassembled P-3C Orion antisubmarine aircraft 2/8, p. 18

Lockheed P-3C Orion
Australian P-3C buy 5/10, p. 18

Lockheed S-3 Viking
Reopening of S-3 production line studied 8/23, p. 19

Lockheed SR-71
Reconnaissance drone carried on lockheed SR-71 5/10, p. 25

Lockheed TR-1
Hardened shelter 6/7, p. 78
Relocating TR-1 expected to double force potential 6/7, p. 78
Lockheed awarded export license for TR-1 aircraft 9/13, p. 22

Lockheed-Georgia Multi-body Transport
Lower cost operations goal of aircraft conceptual studies 8/30, p. 62

McDonnell Douglas A-4
Decision near on contractor to refurbish A-4s 6/14, p. 108
Decision near on contractor to refurbish A-4s 6/14, p. 108
Aerial refueling system undergoes flight test 9/20, p. 22

McDonnell Douglas AV-8B
GAO raises questions about F/A-18, AV-8B 3/22, p. 28
McDonnell Douglas testing airframe of AV-8B 5/31, p. 65
AV-8B offer 8/30, p. 13

McDonnell Douglas AV-8B Harrier 2
AV-8B simulator designed for combat missions 11/1, p. 86

McDonnell Douglas C-17
C-17 designed for the USAF CX program is compared with other transports in the Air Force fleet 1/25, p. 18
Decision on C-5 reversing C-17 and KC-10 recommendation sparks military and congressional opposition 1/25, p. 18
USAF seeks continued development of C-17 transport for airlift requirements 2/1, p. 24
Fallout from the C-17 decision 3/1, p. 11
C-17 contract 8/9, p. 68

McDonnell Douglas CF-18
Canadian CF-18 fighter makes its first flight 8/9, p. 25

McDonnell Douglas CF-18 Hornet
CF-18 Fighters for Canada nearing final assembly 6/14, p. 114
CF-18 fighters for Canada nearing final assembly 6/14, p. 114

McDonnell Douglas DC-10
Changes planned to avert slat asymmetry on DC-10 1/11, p. 30
DC-10 slat actuation system shown in drawing 1/11, p. 30
Before and after photos of DC-10 outboard slat actuation mechanism 1/11, p. 31
Switch malfunction cited in flight attendant's death in World Airways DC-10 galley elevator 1/18, p. 31
Japan Air Lines orders DC-10s, USAF orders KC-10s 1/18, p. 34
NTSB focusing on condition of runway in its investigation of World Airways DC-10 accident at Logan Airport 2/1, p. 30
FAA directs operators to modify DC-10 slats 2/1, p. 32
NTSB investigation into reasons for World Airways DC-10 accident at Logan narrows to pilot's actions and runway conditions 2/8, p. 27
United Airlines DC-10 overruns runway at Philadelphia International Airport after takeoff abort 2/8, p. 29
DC-10 winglip extensions studied as alternative to winglets 2/8, p. 30
Laker owes Exim Bank $147.1 million used to purchase five DC-10-30 aircraft 2/15, p. 30
First of two new DC-10-30ERs delivered to Swissair 3/15, p. 26
Douglas price freeze 5/24, p. 32
Northwest Airlines using DC-10s powered by JT9D-59A powerplants 11/8, p. 167

McDonnell Douglas DC-10-10
Pan Am weighs adding range to its DC-10-10 transport 5/3, p. 30

McDonnell Douglas DC-10-30
American buying DC-10s for overseas service 5/24, p. 25
DC-10 sale 6/21, p. 36

McDonnell Douglas DC-8
Capitol Airways contracts with Cammacorp to reengine DC-8s with CFM56 turbofan engines 1/18, p. 30
Japan Air Lines DC-8 crashes into Tokyo Bay 2/15, p. 32
Pilot focus continues in interim report of crash of Japan Air Lines DC-8 in Tokyo Bay 3/1, p. 30
Reengined Delta DC-8 assigned short-haul service 3/22, p. 33
Reengined DC-8s scheduled for delivery to United and Delta 3/22, p. 39
Douglas price freeze 5/24, p. 32
Starter problems delay CFM56-equipped DC-8s 7/26, p. 32

McDonnell Douglas DC-8-61
Reengined DC-8 returns to service 5/3, p. 25

McDonnell Douglas DC-8-71
Delta reengined DC-8-71 transport enters service 6/21, p. 36
Overseas National Airways management considering additional DC-8-71 buys 11/8, p. 103

McDonnell Douglas DC-9
Jet America orders DC-9 Super 80 1/4, p. 29
Henson Aviation, Maryland-based commuter airline, to begin operating first DC-9-15 between Atlanta and Newport News 1/11, p. 29
Muse Air to triple DC-9 fleet by summer 1/25, p. 29
Atlantic City casino leasing DC-9-30 operated by American International Airways 1/25, p. 54
Air one and Delta sign option for purchase of DC-9-32s 3/8, p. 194
Aeromexico updates paint scheme on DC-9-80 3/15, p. 42
Douglas price freeze 5/24, p. 32
Navy perparing to purchase used DC-9s 10/4, p. 31

McDonnell Douglas DC-9 Super 90
DC-9 Super 80 derivative design nears completion 11/15, p. 28
McDonnell Douglas completing design of DC-9 Super 90 transport 11/29, p. 30

McDonnell Douglas DC-9-30
Altair accepts DC-9-30 transport after refurbishment 9/6, p. 77

McDonnell Douglas DC-9-80
DC-9-80 options 5/31, p. 26
ALM Antillean Airlines mulls expansion 8/30, p. 35
DC-9-80 certified 9/13, p. 41
Super 80 buy 9/27, p. 27
American to lease new DC-9-80s 10/4, p. 28
Aeromexico postpones Super 80 delivery 10/11, p. 34
Trans World intends to lease 15 DC-9-80s 10/18, p. 22
TWA board approves DC-9-80 leasing 11/1, p. 36
Alitalia options 30 DC-9 Super 80 transports 11/8, p. 28
Airline using DC-9-80 leasing to cut funding 11/8, p. 117
Finnair orders three DC-9 Super 80 aircraft 11/15, p. 28

McDonnell Douglas F-14
F/A-18, F-14 fighter aircraft participate in aerial refueling tests 11/1, p. 71

McDonnell Douglas F-15
Hughes AMRAAM evaluated in flight 1/4, p. 48
Launch pylon designed to mate antisatellite system with F-15 tested 1/18, p. 19
ASAT fitted to F-15 at Boeing facility 2/8, p. 23
F-15 digital electronic engine control (DEEC) flying testbed 3/8, p. 209
Conformal fuel tanks increase range of F-15 4/26, p. 27
F-15 Fighter abilities evaluated 4/26, p. 39
Engine control boosts performance 5/31, p. 67
F-15s used for air defense intercepts 6/7, p. 68

McDonnell Douglas F-15C
F-15C returned to protective shelter 6/7, p. 75

McDonnell Douglas F-18
F-18 Ends technical evaluation 5/10, p. 61
Navy, manufacturer concur on fiscal 1982 F-18 price 10/11, p. 29
F-18 meets 17 goals, misses 3 11/22, p. 30

McDonnell Douglas F-4EJ
Japan awards F-4EJ retrofit contract 4/12, p. 50

McDonnell Douglas F-4G
Wild Weasel aircraft being upgraded 6/14, p. 115

McDonnell Douglas F-4G Weasel
Ramstein F-4Es used in air intercepts 6/7, p. 73

McDonnell Douglas F/A-15
New nozzle design aimed at F-15, F-16 aircraft 9/13, p. 67

McDonnell Douglas F/A-16
New nozzle design aimed at F-15, F-16 aircraft 9/13, p. 67

McDonnell Douglas F/A-18
Northrop selects Sunstrand fuel boost pump for F-18 1/11, p. 69

Viewpoint: Questioning the F-18 1/18, p. 10
CF-18A fuselage sections prepared for shipping to Canadian forces 3/15, p. 55
Spain weighs fighter purchase decision between F/A-18 and F-16 3/22, p. 27
GAO raises questions about F/A-18, AV-8B 3/22, p. 28
Budget cuts curtail flir pod testing 5/10, p. 68
Navy to test F-18 recon modification 7/19, p. 125
Spain plans buy of F/A-18s; deliveries to begin in 1986 8/2, p. 22
Spain delays proceedings in F-18 purchase 8/30, p. 22
HUD tested in F/A-18 8/30, p. 70
Navy inspecting F-18 horizontal stabilizers 9/13, p. 29
Spanish assured on F-18 sale legality 9/13, p. 29
F/A-18, F-14 fighter aircraft participate in aerial refueling tests 11/1, p. 71
F/A-18 procurement 11/15, p. 17
Report finds F-18 boosts tanker need 11/15, p. 17

McDonnell Douglas F/A-18A Hornet
Pilot feedback, test data shaped F/A-18A software 4/26, p. 169

McDonnell Douglas KC-10
Japan Air Lines orders DC-10s, USAF order KC-10s 1/18, p. 34
Decision on C-5 reversing C-17 and KC-10 recommendation sparks military and congressional opposition 1/25, p. 18
USAF disputes Congress' findings about KC-10 tankers 3/15, p. 21

McDonnell Douglas MD-100
DC-10 derivative offered to JAL 11/29, p. 29

NASA AD-1
Aircraft displayed 8/9, p. 68
NASA studying behavior of airflow 9/13, p. 74

North American Rockwell Aero Commander 680W
Liquid-cooled, aluminum alloy engine undergoes flight tests 6/21, p. 60

Northrop F-5
Reagan's F-5G decision pleases no one 1/18, p. 16
Northrop executives minimize the loss of the potential Chinese purchase of F-5Gs that White House has blocked 1/18, p. 18
U.S. eyes Egypt as market for F-5G 1/18, p. 18
Defense Dept proposes F-5 sale to Saudis 3/8, p. 278

Northrop F-5E
Nationalist chinese pilot 4/12, p. 47
Taiwanese arms accord clears F-5E production 8/23, p. 20

Northrop F-5G
Jordanian officials turn down F-5G proposal 4/19, p. 16
F-5G Success linked to U.S. support 4/26, p. 23
F-5 export fighter fuselage mated 6/21, p. 19
Northrop development center aids F-5G production effort 6/21, p. 38
Northrop cutting costs on F-5G line 7/5, p. 24
Northrop rolls out first F-5G export fighter 8/9, p. 19
Services ordered to push both export fighters 8/9, p. 26
General Electric developing multimode radar for F-5G 8/23, p. 73
Northrop F-5G completes test series preparatory to first flight 8/30, p. 13
Northrop F-5G makes its first flight 9/6, p. 48
Northrop F-5G attains Mach 1.04 on its first flight 9/13, p. 59
F-5G tests 9/20, p. 22
Defense Dept. offers F-5G to Bahrain in first sale 9/27, p. 19
F-5G funding continues despite slowdown 11/1; p. 24

Northrop RF-5E
Northrop rolls out RF-5E tactical reconnaissance aircraft 11/8, p. 18

Northrop T-38
Four members of Air Force Thunderbirds aerobatic tea killed in crash of T-38 trainers 1/25, p. 22
Thunderbird crash laid to control jam 4/5, p. 26
Flameout delays Mattingly's arrival at Kennedy 7/5, p. 20
NASA curtail astronaut T-38 flights 11/8, p. 26

Northrup X-29A
Forward-swept-wing aircraft advances 4/5, p. 49

OMAC-1
OMAC 1 business aircraft makes its second flight 7/5, p. 70

Pilatus Britten-Norman Trislander
U.S. distribution buys Trislander Rights 9/6, p. 78

Pilatus PC-7
PC-7 delivery 4/12, p. 61

Piper Cheyenne 4
NBAA site for unveiling new Cheyenne aircraft 9/20, p. 23

Piper PA-48 Enforcer
Piper to market, test PA-48 Enforcer 9/27, p. 59

Quickie Aircraft Free Enterprise
Round-the-world flight planned without refueling 3/22, p. 58
Round-the-world nonstop flight attempt delayed 6/21, p. 61
Free Enterprise crash 7/12, p. 29

Rockwell B-1
Rockwell signs $2.2 billion contract with USAF for development of B-1B bomber 1/25, p. 19
Harris 800 computers for B-1B being delivered 2/15, p. 154
B-1 Appearance expected at Farnborough 4/26, p. 25
B-1 to be displayed at Farnborough 7/12, p. 27
B-1 flight 8/2, p. 23
B-1 display tests flight performance 9/13, p. 21

Rockwell B-1A
KC-135 refuels B-1A 11/22, p. 75

Rockwell B-1B
Sanders Associates awarded contract for development of electronic display for B1-B 1/25, p. 67
USAF reaffirms B-1B costs in face of GAO disclosures 6/28, p. 29
Automatic machining center aids B-1B productivity effort 8/2, p. 46
B-1B Subcontract 8/16, p. 23
Rockwell proposes B-1B subcontract changes 10/18, p. 35

Rockwell OV-10D
Marine Corps considers OV-10D buy 5/31, p. 63

Rutan Grizzly
All-composite, canard/tandem-wing aircraft designated Grizzly will be evaluated in amphibious, STOL applications 1/25, p. 27
Amphibious/STOL research aircraft designated Grizzly designed by Rutan 2/15, p. 150

Rutan Predator
Joined-wing aircraft designed by Rutan called Predator planned for agricultural applications 2/15, p. 144
Predator is all-composite agricultural aircraft designed by Rutan 2/15, p. 144
First wind tunnel model of Predator shown 2/15, p. 145

Schapel SA-981 Swat
Inexpensive aircraft designed to meet Mideast environment 5/10, p. 60

Sikorsky SH-3 Sea King
Canadian forces evaluate acoustic analysis system 5/3, p. 76

Smith Prop-Jet
Prototype Smith Prop-Jet has carbon graphite epoxy fuselage 9/6, p. 271

U.S. Aircraft/Douglas DC-3
Flight program of reengined DC-3 turboprop begins 8/2, p. 32

Vought TA-7C
Funding key to Vought TA-7C reengining 5/24, p. 23

AIRLIFT
Congressional units to review Pentagon's selection of C-5N instead of C-17 2/1, p. 24
USAF seeks continued development on C-17 transport for airlift requirements 2/1, p. 24
Comparison of U.S. airlift availability 1984—1992 2/1, p. 25
Fallout from the C-17 decision 3/1, p. 11
Japan's military airlift procurement 3/22, p. 64

AIRLINE BAGGAGE
CAB considering variety of options for new more-limited baggage liability rules 3/1, p. 43

AIRLINE CHARTERS
British Airways Concorde charter flights increased sharply last year 1/11, p. 34

AIRLINE DEREGULATION
Failure of Air New England initiates labor protection review 3/1, p. 43
Legislation introduced to require major airlines to continue offering joint fares with commuter airlines even after full deregulation 3/15, p. 26
OMB approves CAB regulations for processing applications for labor protection from airline employees who, blame loss of job on deregulation 3/15, p. 38
Senator urges airline-Government summit 5/3, p. 23
Deregulation: crucible for airline management 6/21, p. 11
Flying the deregulated airlines 7/5, p. 9
Upper Midwest mulls service options 7/12, p. 35
Deregulation alters upper midwest service 7/12, p. 37
Deregulation effects vary among travelers, airlines 8/16, p. 34
Overseas view of deregulation 8/30, p. 7
Europeans urged to deregulate airlines 9/6, p. 54
ALPA criticizes airline deregulation 10/11, p. 41
A decisive winter 11/8, p. 11
Frontier expands routes after deregulation 11/8, p. 53
Freedom eyed cautiously by carriers 11/8, p. 81
People Express rebuilding network based at Newark 11/8, p. 82
Deregulation key to Southeast plans 11/8, p. 87
American Airlines plans further expansion 11/8, p. 92
Modest growth recorded in Hawaii-mainland market 11/8, p. 101
Alaska enjoying expansion of service 11/8, p. 103
Western carriers tightening operations 11/8, p. 107
Airline using DC-9-80 leasing to cut funding 11/8, p. 117
Japan opposes deregulation despite bilateral agreement 11/8, p. 146
U.S. deregulation proceeds despite concerns 11/8, p. 146
Deregulation spurs maintenance shift 11/8, p. 155
Commuters growing with deregulation 11/8, p. 159
Deregulation a mixed blessing for travel agents 11/29, p. 49

AIRLINE FARES, RATES, TARIFFS
Discounts, tour packages spur improvement in Florida traffic 1/18, p. 34
Delta sets policy of meeting competitor fares 2/8, p. 30
New international air tariff agreement drafted by U.S. and European Civil Aviation Conference participants 2/8, p. 32
CAB permits increase in Pacific fares 2/8, p. 37
Air Florida announces new fares 2/15, p. 31
Laker collapse facilitates North Atlantic fare rises 2/15, p. 31
Laker collapse, recession slow moves to lower European fares 3/8, p. 185
Pressure of discounts clouds outlook for yields of major airlines 3/8, p. 186
Air France, SAS fares dispute settled 3/8, p. 205
Legislation introduced to require major airlines to continue offering joint fares with commuter airlines even after full deregulation 3/15, p. 26
World Airways urges CAB to end fare wars 3/15, p. 27
Airlines opposed to customs user fees 3/15, p. 41

APPOINTMENTS
Western Airlines reorganizes management 1/18, p. 32
Heinz Ruhnau to become Lufthansa's chief executive in July despite protests from the majority of the airline's employees 2/1, p. 31
French government names new Snecma chief 3/1, p. 19

ASIA
Administration seeks Korean aid hike 5/3, p. 18

ASSOCIATIONS
IATA members seeks boost in air fares 8/2, p. 25
Airlines marshall support against labor protection 8/2, p. 30
Helicopter Assn. International
Helicopter Assn. International show exhibitors anticipate sales upswing 3/1, p. 22
ICAO
ICAO identifies China's ATC needs 3/1, p. 39
IEEE
IEEE president makes proposals to develop more coherent U.S. technology policy and retain U.S. technology leadership 3/15, p. 69
PATCO
PATCO chief anticipates long fight for solution 1/11, p. 38
FAA denies authority on PATCO union issue 1/25, p. 28
PATCO expects rehearing on decertification 2/22, p. 32

AVIONICS
Electro-optical scoring system for missile testing and training being developed by Hughes for U.S. Navy and USAF 1/4, p. 63
Lead time trends for avionics and subsystems experienced by General Dynamics depicted 1/11, p. 65
Special software augments readability of instruction manuals for military weapon systems 1/11, p. 106

Industrial lead times: System producers experiencing familiar situations in supplies 1/18, p. 57
Jetpower aircraft ground power system that converts normal electrical power to 400 Hz. for aircraft use has been developed by Abex-Jetway 1/18, p. 69
Holographic head-up display by Pilkington P. E. Ltd. uses diffractive optics 2/1, p. 77
USAF/Fairchild A-10 to test night attack avionics 2/1, p. 83
Sperry electronic flight instruments being tested on L-1011 2/8, p. 74
New microprocessor-based visual system for commercial flight simulators designed by Singer Co.'s Link Div. 2/8, p. 75
Typical airport landing approach scene created by new Image 2 visual system developed by Singer Co.'s Link Div. for commercial flight simulators 2/8, p. 75
Aspect angle gunsight technique developed by General Electric is candidate for retrofit on F-15 and F-16 2/15, p. 154
Advanced concepts for military cockpit displays and controls being investigated 3/8, p. 217
Growth trends: Avionics sales 3/8, p. 217
Control Data Corp proposed creation of jointly owned Microelectronics and Computer Technology Enterprise to compete with Japanese technology 3/8, p. 226
Defense electronics market to pace rising defense budget 3/8, p. 231
New digital display for F-14 undergoes tests 3/8, p. 234
Principal new equipment purchase required for new FAA airspace system is Mode S radar transponder 3/8, p. 246
Evaluation of radiation hardening techniques used on military satellites conducted by Defense Nuclear Agency 3/15, p. 71
Radiation hardening in military satellite electronic equipment found effective 3/15, p. 71
Skeet "smart" antitank submunition developed for Assault Breaker program controlled by microprocessors 3/22, p. 66
U.S. to launch Insat satellite for India 4/5, p. 56
Firm develops large space antennas 4/12, p. 105
Operators face digital challenge 4/19, p. 49
PSA gains digital experience on DC-9-80 transport fleet 4/19, p. 51
New avionic systems offer efficiency, safety benefits 4/19, p. 52
Boeing refines 757/767 digital avionics 4/19, p. 57
Digital expertise grows with A300 cockpit 4/19, p. 58
Hardware trends surface in military systems 4/19, p. 61
New Avionics Enhance USAF Inventory Reliability 4/19, p. 61
Suppliers attempt to ease transition 4/19, p. 63
Missile defense keyed to technology 4/19, p. 79
NASA studies business aircraft avionics 4/26, p. 119
Automation keyed to core technology 4/26, p. 163
Sensor monitors aircraft's systems 5/3, p. 67
Budget cuts curtail flir pod testing 5/10, p. 68
Industry plans semiconductor efforts 5/17, p. 181
Air Force seeking non-combat aircraft 5/24, p. 24
Airship studied for maritime patrol use 5/24, p. 71
Engine control boosts performance 5/31, p. 67
Wild Weasel aircraft being upgraded 6/14, p. 115
Airborne jammer enters production 6/21, p. 68
Edwards contract 6/28, p. 27
Sensor displays low helicopter speeds 7/5, p. 74
Studies envision 'common core' radar 7/19, p. 141
Flexible maintenance possible with new monitors 7/26, p. 120
Next-generation multiplexer defined 8/23, p. 77
Interest rises in infrared search, track 8/30, p. 68
Wireless entertainment system being developed 9/6, p. 78
Avionics firms expand markets outside Britain 9/6, p. 112
Tests find new uses for laser gyros 9/6, p. 281
Orion avionics systems being updated 9/13, p. 101
Lantirn system flight testing begins 9/20, p. 117
Countermeasure tested 9/20, p. 125
Computer image system advances 9/27, p. 73
Israel demonstrates mini-RPV utility 10/4, p. 59
The cockpit revolution 10/11, p. 15
Technique benefits novice technicians 10/11, p. 133
Battlefield radar competition widens 10/18, p. 70
Deico makes low-cost gyro prototype 10/25, p. 64
Infrared jammer 10/25, p. 71
Av-8B simulator designed for combat missions 11/1, p. 86
Air Force to consolidate programs 11/15, p. 51
Common armed forces links sought 11/15, p. 51
FAA alters its collision avoidance plan 11/15, p. 95
Computer-aided engineering use gains 11/22, p. 81
Facility aids in microelectronics effort 11/29, p. 89

AWARDS AND HONORS
Laurels for 1981 1/4, p. 13
Collier Trophy awarded to team that proved the concept of the reusable spacecraft and space shuttle system 3/8, p. 271
Wright winner 9/13, p. 31
Aviation Week/John Curtis sword awarded to Peter Hearne 10/4, p. 54
Aviation celebration 11/1, p. 27

BEAM WEAPONS
Martin Marietta stresses technology development for high-energy weapons and systems that will permit deployment of new facilities in space from shuttle 2/22, p. 66
Lockheed awarded contract for space-based laser system in Talon Gold DARPA program 3/8, p. 226
Lockheed awarded contract for space-based laser system in Talon Gold DARPA program 3/8, p. 272
Studies weigh approaches in blue-green laser use 6/21, p. 70
Defense Dept. backs space-based missile defense 9/27, p. 14

BUSINESS FLYING
Used corporate aircraft sales parallel new ones 1/4, p. 56
Business and utility aircraft shipments—November 1981 1/4, p. 59
General aviation aircraft theft numbers drop in 1981 1/18, p. 23
IAI Westwind 2 offers increase in range 1/25, p. 74
General aviation trade balance shifts, value of imports expected to exceed value of exports 2/8, p. 17
British Aerospace Jetstream 31 sales to focus on middle management 2/8, p. 66
Commuter transport interior designed by British Aerospace will be standard on all commuter aircraft 2/8, p. 69
Flight testing accomplished in modified Jetstream 31 2/8, p. 71
New cockpit arrangement for Jetstream 31 shown 2/8, p. 71
Deliveries of general aviation aircraft to shrink in 1982 as billings rise 2/15, p. 144
Joined-wing aircraft designed by Rutan called Predator planned for agricultural applications 2/15, p. 144
General aviation unit shipments 2/15, p. 145
General aviation factory billings 2/15, p. 147
Business and utility aircraft shipments—December, 1981 2/15, p. 152
Layoffs at Beech could mark the beginning of new round in reduction of personnel among general aviation industry manufacturers 3/1, p. 25
NDN-6 Fieldmaster agricultural aircraft in flight test 3/1, p. 25
Business aviation sales backlogs drop 3/8, p. 253
Growth trends: business flying 3/8, p. 253
Turboprop and jet deliveries; single and multi-engine piston deliveries 3/8, p. 254
U.S. business flying exports 3/8, p. 255
Growth trends: helicopters 3/8, p. 259
Industrial uses expected to spur helicopter sales 3/8, p. 259
Business & utility aircraft shipments—January, 1982 3/15, p. 79
General aviation deliveries decrease in first quarter 4/19, p. 22
Reliability spurs single-turboprop use 4/19, p. 76
NASA Studies Business aircraft avionics 4/26, p. 119
Business & Utility aircraft shipments, March, 1982 4/26, p. 139
New Turboprop aircraft being developed 5/3, p. 15
General aviation aircraft deliveries drop in April 5/17, p. 27
Two-seat composite aircraft proposed 5/24, p. 69
Gates to lay off 25% at two plants 5/31, p. 23
Business & utility aircraft shipments, April, 1982 6/7; p. 93
Prices sag on used corporate aircraft 6/21, p. 21
Laminar flow tests pass expectations 6/21, p. 56
Business & utility aircraft shipments 6/21, p. 59
NBAA official cites aviation opportunities 6/21, p. 60
Small manufacturers see market gains 7/5, p. 69
Six-month deliveries sag almost 50% 8/9, p. 77
Business & utility aircraft shipments 8/9, p. 91
Fairchild eyes market share increase 9/6, p. 271
Corporate operators turning to leasing 9/13, p. 93
NBAA site for unveiling new Cheyenne aircraft 9/20, p. 23
Import duties on Bandeirane weighed 9/20, p. 115
Manufacturers seek to stem sales dip 9/27, p. 17
Business and utility aircraft shipments 9/27, p. 45
Business and utility aircraft shipments 9/27, p. 46
Delay forecast in civil sales upswing 10/4, p. 57
NTSB asks pilot transition changes 10/11, p. 23
Gates Learjet expanding product line 10/11, p. 103
Engine makers stress research effort 10/25, p. 59
Business & utility aircraft shipments 10/25, p. 63
Civil aircraft exports drop in second quarter 11/1, p. 23
Transport corporate conversions rise 11/1, p. 81
Helicopter performance gains sought 11/22, p. 64
Cessnas modified with PT6 turboprops 11/29, p. 61

CANADA
Canadians drafting new jet fuel tax 7/12, p. 32
1983 Canadian airline recovery seen 11/8, p. 30
Difference in government role debated 11/8, p. 30

CARIBBEAN
Cuban military forces being upgraded 5/3, p. 62

CHINA
China purchasing Landsat ground station 3/15, p. 16
Crossroads for China 5/10, p. 9
Mainland China's Air Force said to be weak 8/23, p. 20
U.S., China to amend bilateral 8/23, p. 27
Hong Kong increases air cargo service 10/11, p. 39
Chinese airline orders Boeing 737s 11/29, p. 31

COCKPITS
New cockpit arrangement for Jetstream 31 shown 2/8, p. 71
Sperry electronic flight instruments being tested on L-1011 2/8, p. 74
Sperry develops flight management system trainer for digital cockpits 2/15, p. 156
Advanced concepts for military cockpit displays and controls being investigated 3/8, p. 217
The cockpit revolution 10/11, p. 15

COLLISION AVOIDANCE SYSTEMS
Collision avoidance tests of T-CAS encouraging 1/11, p. 36

COMETS
General configuration of ESA's Giotto spacecraft for Halley's Comet mission shown 2/15, p. 133
Two-spacecraft Venus, Halley mission planned by USSR 3/8, p. 278
NASA to study diverting satellite to meet comet 3/22, p. 22
Cost, gimbal difficulties threaten Halley mission 8/16, p. 26
NASA will divert satellite for comet interception 10/11, p. 26
Halley's comet detected by hale telescope 11/1, p. 22

COMMAND AND CONTROL
Hughes/ITT team awarded contract from Navy for development of JTIDS communications terminals 2/1, p. 28

COMMUNICATION SYSTEMS
Soviets develop experimental Mode S Discrete Address Beacon System (DABS) transponder 1/25, p. 82
In-flight telephone offers direct dialing nationally 2/22, p. 48
Defense Dept. proposes transmitter sale 9/20, p. 20

COMPUTERS AND DATA PROCESSING
Vought awarded contract to head modernization study of aerospace "factory of the future" 1/25, p. 67
Control Data Corp proposes creation of jointly owned Microelectronics and Computer Technology Enterprise to compete with Japanese technology 3/8, p. 226
Pilot feedback, test data shaped F/A-18A software 4/26, p. 169
Data transfer unit prepared for tests 5/17, p. 188
Edwards contract 6/28, p. 27
Engine monitor 6/28, p. 98
Computers expedite production effort 6/28, p. 176
Boeing's Wichita facility plans plant modernization 8/2, p. 48
Plan under way for government investment 8/2, p. 66
Computers link numerical control shop equipment 8/2, p. 86
Marriott joins TWA computer reservation link 8/9, p. 33
Two teams to bid on FAA computers 8/16, p. 29
Los Alamos boosts computer capacity 8/23, p. 72
Next-generation multiplexer defined 8/23, p. 77
Fuel management computer offers savings in civil use 9/6, p. 76
New software to focus on meeting USAF needs 9/6, p. 284
Control data forms new operating unit 9/13, p. 95
Computer image system advances 9/27, p. 73
Computer graphics offers 3-D hardware prototypes 10/11, p. 137
FAA evaluates electronic tabular display subsystem 11/8, p. 166
Computer chip threatened launch schedule 11/15, p. 19
Computer-aided engineering use gains 11/22, p. 81
New data available to travel agents 11/29, p. 48

CONFERENCES, CONVENTIONS, MEETINGS, SYMPOSIUMS
State Dept. has approved U.S. participation in U.N. space technology conference in Vienna next August 1/11, p. 27
Helicopter Assn. International show exhibitors anticipate sales upswing 3/1, p. 22

CONTRACTS, AWARDS, PROPOSALS
Grumand wins contract from DARPA to build X-29A forward-swept-wing fighter 1/4, p. 19
ESA approves L-Sat communications satellite program and awards $285-million contract to British Aerospace for first satellite 1/4, p. 23
Navy awards contract to Bell Helicopter Textron for 55 advanced instrument trainers designated TH-57 1/18, p. 71
Boeing contract for SRB-X project 1/25, p. 66
Sanders Associates awarded contract for development of electronic display for B1-B 1/25, p. 67
Vought awarded contract to head modernization study of aerospace "factory of the future" 1/25, p. 67
Hughes/ITT team awarded contract from NAvy for development of JTIDS communications terminals 2/1, p. 28
Ball, Martin Marietta will vie for space shuttle tether contract 2/8, p. 18
TRW receives USAF contract for FleetSatCom 2/8, p. 22
Northrop receives contract for closed-circuit television systems for F-14s 2/8, p. 55
Aerojet Strategic Propulsion Co. studying new ways to reduce missile weight 3/8, p. 71
Lockheed awarded contract for space-based laser system in Talon Gold DARPA program 3/8, p. 226
New multilayer ballistic missile defense concept proposed by Heritage Foundations's High Frontier study 3/8, p. 269
Diamond 1 contract 5/17, p. 27
Contract awarded 5/31, p. 57
Fairchild wins trainer award 7/12, p. 18
Northrop contract 7/19, p. 22
Egypt awards helicopter contract 7/19, p. 25
Saudi air force contract 7/26, p. 21
Single contractor to process shuttles 8/9, p. 21
Boeing awarded contract for study of spacecraft 8/16, p. 16
Vertical launch award 8/16, p. 21
B-1B Subcontract 8/16, p. 23
Two teams to bid on FAA computers 8/16, p. 29
Litton wins control system contract 8/23, p. 73
Contract competition bill endorsed 9/6, p. 266
Firms jockeying for shuttle contracts 9/13, p. 77
Bell, Boeing Vertol awarded blade contract 9/20, p. 25
Bell contracts 10/11, p. 124
Army awards air cushion vehicle contract 10/18, p. 42
NATO awards surveillance radar contract 10/18, p. 72
Boeing contracts 10/25, p. 61
Industry teams to bid on shuttle processing 11/29, p. 77

CORPORATE TECHNICAL COOPERATION
Aerospatiale, Renault exchange technical data 6/21, p. 40

CORRECTION
House bill to bar sponsorship of military precision flying teams by Defense Dept introduced by Rep. Marks not Rep. Addabbo as reported in 2/15/82, p28 3/1, p. 27
American Airlines' unaudited 1981 net earnings were $47.4 million, not $7.4 million as reported in AW&ST 1/25/82, p36 3/8, p. 280

Ariane first flight slips to September 5/24, p. 22

EXPORTS AND IMPORTS
Reagan suspends Aeroflot flights to U.S. and curbs exports to Soviet Union of high technology materials in reaction to imposition of martial law in Poland 1/4, p. 20
Congress kills ceiling on commercial exports 1/4, p. 40
Reagan administration plans authorizing $300 million more in Foreign Military Sales for Israel 1/11, p. 24
Reagan's F-5G decision pleases no one 1/18, p. 16
Reagan administration plans new attempt at reducing Exim Bank funds 1/25, p. 24
China export policy takes final form 1/25, p. 57
U.S. pressures two unidentified countries to tighten the control of their technology exports to the East 2/1, p. 27
Exim Bank declines Laker stock offer 2/1, p. 32
Coordination urged among Western allies on arms sales 2/1, p. 62
U.S. pressing Western industrialized nations to tighten restrictions on exports of strategic goods to USSR 2/1, p. 63
Commerce Dept. forecasts decrease in exports 2/8, p. 16
General aviation trade balance shifts, value of imports expected to exceed value of exports 2/8, p. 17
Exim's direct loans reduced $570 million 2/15, p. 26
Laker owes Exim Bank $147.1 million used to purchase five DC-10-30 aircraft 2/15, p. 30
Competition may control Exim's funds 3/8, p. 191
U.S. aerospace exports 3/8, p. 219
U.S. business flying exports 3/8, p. 255
U.S. lifts Spanish firm's export privileges 3/15, p. 19
Export controls eased for Syria, South Yemen 3/15, p. 21
Seven men charged by U.S. district court with conspiring to export 15 armed Bell AH-1 Cobra helicopters in violation of U.S. neutrality act 3/22, p. 19
Business, labor, states form coalition to support Exim Bank 3/22, p. 32
Aerospace exports expected to drop 3/22, p. 61
Resolution urges full Exim Bank authority 5/17, p. 31
U.S. approves CFM56 export to China 5/17, p. 32
Germany modifies policy restricting arms exports 5/17, p. 147
GAO urges end to licensing for low-technology exports 6/7, p. 19
Turbine engine exports, imports rise 6/7, p. 23
Exim Yen guarantee 7/5, p. 29
Export curbs ease for South Africa 7/19, p. 137
Exim alters application fee policy 7/26, p. 119
U.S. engine parts exports rise in first quarter 8/23, p. 22
Bill proposes independent export agency 8/23, p. 24
Bill would establish export review agency 8/30, p. 55
Inspection's report urges more export control aids 8/30, p. 55
U.S. exports to continue decline 9/6, p. 51
Boeing-led group lobbying to increase export subsidies 9/6, p. 58
U.S. urges OECD to adopt common export credit plan 9/6, p. 142
Selenia seeks to increase exports 9/6, p. 145
Export credit guarantees near expiration 9/6, p. 191
GAMA predicts low aircraft export levels 10/4, p. 24
U.S. agrees to lengthen pact on export subsidies 10/4, p. 36
U.S. urges tighter controls on exports 10/11, p. 24
Exim Bank starts program on medium-term lending 10/18, p. 16
Export control office opens in Los Angeles 11/1, p. 21
Civil aircraft exports drop in second quarter 11/1, p. 23
Aim of abolishing export credit subsidies distant 11/8, p. 61
Exim near Alitalia transport commitment 11/8, p. 71
Fairchild appeals ITC's denial of Bandeirante import duties 11/22, p. 64

FACILITIES, CONSTRUCTION
Work begun on construction of fourth passenger terminal at Heathrow Airport 1/25, p. 48
British Aerospace expects to expand Prestwick, Scotland facility for production of Jetstream 31 2/8, p. 67
New production facilities for composite materials fabrication will be ready for operation by British Aerospace this summer at Salmsbury, England 2/15, p. 109
New MX facilities developed at Vandenberg AFB 3/8, p. 46
Western shuttle facilities at Vandenberg being improved 3/15, p. 63
Construction at Kennedy Space Center aimed to support space shuttle launch schedule 3/15, p. 68
Soviet aerospace manufacturing facility severly damaged by fire 3/22, p. 19
Utah test range being upgraded to provide air combat maneuvering instrumentation (ACMI) capability for training F-16 aircrews 3/22, p. 73

FALKLANDS WAR
Britain reacts swiftly to Falkland takeover 4/12, p. 25
NATO Assesses loss of ship near Falklands 5/10, p. 23
Exocet missile sinks ship 5/10, p. 25
Air activity burgeons for Ascension Island 5/17, p. 24
British prove capability of new missile 5/17, p. 25
Weapons usage limited by Argentine experience 5/17, p. 26
NATO ministers condemn Argentina 5/24, p. 21
Britons, Argentines weigh Falkland Islands losses 5/31, p. 20
Soviets again boost Falklands reconnaissance 5/31, p. 20
Argentine aircraft attacking British 5/31, p. 21
Exocet missiles hit British container ship 5/31, p. 22
Wideawake Airport air traffic increases 6/7, p. 14
Surprise key to Exocet strikes 6/7, p. 15
Britain to improve forces based on conflict lesson 6/7, p. 16
Marconi Stingray antisubmarine torpedo 6/7, p. 17
Vulcan strike 6/7, p. 17
Mock combat preceded British deployment 6/14, p. 24
Argentine strike 6/14, p. 25
British to establish military presence on Falklands 6/21, p. 20
Britain using captured Argentine equipment 6/28, p. 29
New lessons from combat 7/19, p. 13
Countermeasures aided British fleet 7/19, p. 18
British Harriers averaged six sorties per day 7/19, p. 20
War spurs NATO analysis of combat techniques 7/19, p. 20
Air defense missiles limited tactics of Argentine aircraft 7/19, p. 21
Need seen for tactical reconnaissance aircraft 7/26, p. 24
British force active in South Atlantic 8/16, p. 19
French investigate role of team in Argentina 8/16, p. 52
Argentina looks at the Falklands 8/23, p. 9
Post-Falklands briefings spurring British missile system interest 8/23, p. 22
Falklands war expected to boost sales 9/6, p. 106

FIRE CONTROL SYSTEMS
New foam, Vonar 3, aids fire evacuation time 3/1, p. 76
APG-66 fire control radar tested in flight on F-16 3/22, p. 21

FLIGHT CONTROL SYSTEMS
Sperry electronic flight instruments being tested on L-1011 2/8, p. 74
Sperry digital attitude and heading reference system certified on Airbus A300 for Garuda 2/15, p. 56
Flight control computers located in fuselage bays of Jaguar fly-by-wire testbed shown 2/15, p. 111
Operators face digital challenge 4/19, p. 49
Boeing cockpit trainers ordered by Delta 4/19, p. 52
New avionic systems offer efficiency safety benefits 4/19, p. 52
Color displays evaluated in citation 2 4/19, p. 62
Automation keyed to core technology 4/26, p. 163
Fighter control system to be tested 9/13, p. 61

FLIGHT MANAGEMENT SYSTEMS
Sperry develops flight management system trainer for digital cockpits 2/15, p. 156

FLYING EYE HOSPITAL
DC-8 becomes flying eye hospital 3/22, p. 56

FLYING PLATFORMS
Wasp pilot training begins 5/31, p. 66

FOREIGN POLICY
Reagan administration plans authorizing $300 million more in Foreign Military Sales for Israel 1/11, p. 24
Reagan's F-5G decision pleases no one 1/18, p. 16
NATO allies' stand on Poland falls short of U.S. position 1/18, p. 20
Coordination urged among Western allies on arms sales 2/1, p. 63
U.S. pressing Western industrialized nations to tighten restrictions on exports of strategic goods to USSR 2/1, p. 63
Nailing down the threat 3/22, p. 13
U.S. expects Israel aid boost to stimulate larger purchases 3/29, p. 22
Bogus press release quotes Weinberger 7/26, p. 106
Forgery becomes foreign policy tool 7/26, p. 106
Soviets outpace U.S. in arms supplies 8/16, p. 44
U.S. foreign military sales total $130 billion 8/16, p. 44

FORWARD-SWEPT WING
Forward-swept wing aircraft advances 4/5, p. 49
High angle of attack characteristics studied 7/12, p. 63
Grumman/DARPA X-29A engineering mockup nears completion 8/23, p. 21
Swept wing parts shown in cutaway 10/18, p. 47
British study fighter ideas 11/22, p. 63

FUEL
FAA delays alternative antimisting effort 2/22, p. 36
Jet A fuel price increases expected to hit 7% annually 3/8, p. 176
Conformal fuel tanks increase range of F-15 4/26, p. 27
Imported oil surcharge worries carrier officials 4/26, p. 30
Cyrogenic fuel tanks being built at Vandenberg 4/26, p. 167
Eased push for synthetic fuel worries researchers 6/28, p. 97
Fuel consumption, reliability key to outlook for general aviation 6/28, p. 213
Airline fuel burn 8/16, p. 40
FAA mulls extending approval for automobile gasoline use 8/30, p. 18
Martin Marietta, Nissan parleys center on technology exchange 9/6, p. 46
Fuel management computer offers savings in civil use 9/6, p. 76
Aerial refueling system undergoes flight test 9/20, p. 22
A310 fuel requirements lower than estimated 10/11, p. 53
Fuel suppliers tightening credit policies 10/18, p. 21
Traffic control changes urged to cut fuel costs 11/1, p. 30
Stability forecast for jet fuel prices 11/8, p. 170
Agencies' dispute delays power effort 11/15, p. 24
Satellite refueling cited as EVA goal 11/29, p. 69

GERMANY
German subsidies 11/1, p. 41

GROUND HANDLING
Jetpower aircraft ground power system that converts normal electrical power to 400 Hz. for aircraft use has been developed by Abex-Jetway 1/18, p. 69

GUN SYSTEMS
Egypt's industry has designed and is now producing an air defense gun based on the Soviet ZSU-23-4 Shilka gun system 1/4, p. 44
F-16A tested with General Electric GPU-5A (GEPOD-30) gun 2/8, p. 16
Fix found for A-10 residue problem caused by gun gas ingestion from GAU-8/A Gatling-type gun 2/8, p. 47
Aspect angle gunsight technique developed by General Electric is candidate for retrofit on F-15 and F-16 2/15, p. 154
Army tests Divad gun system 3/1, p. 64

HEAD-UP DISPLAY
Holographic head-up display by Pilkington P.E. Ltd. uses diffractive optics 2/1, p. 77
Boeing cockpit trainers order by Delta 4/19, p. 52
New avionic systems offer efficiency, safety benefits 4/19, p. 52
Boeing refines 757/767 digital avionics 4/19, p. 57
FAA, industry formalize software design process 4/19, p. 66
HUD tested in F/A-18 8/30, p. 70
The cockpit revolution 10/11, p. 15

HELICOPTERS-INTERNATIONAL
Europe
Economy hits helicopter development 9/6, p. 149
France
Aerospatiale modifying HH-65A Dolphin to compensate for increase in gross weight 1/11, p. 26
35 Aerospatiale Super Puma helicopters ordered by England 2/39, p. 25
Aerospatiale delivers first Dauphin SA 365N helicopter to China 3/1, p. 19
10 Aerospatiale Super Puma AS 332L ordered by Norway 3/29, p. 25
Helicopter buy 9/6, p. 265
French affiliates gain U.S. foothold 10/18, p. 53
General
Helicopter Assn. International show exhibitors anticipate sales upswing 3/1, p. 22
Oil market spurs civil helicopter reengining 9/13, p. 24
Germany
MBB BO. 105CBS-2 helicopter demonstrates rear-loading feature 3/8, p. 262
New helicopters displayed at show 9/20, p. 52
Great Britain
First Westland WG.30 helicopter delivered to British Airways 2/15, p. 39
British display mockup of Westland Lynx 3 helicopter 8/2, p. 21
British develop Lynx 3 helicopter for military 8/9, p. 75
Sea King helicopter flies with composite blades 10/11, p. 104
Second Westland 30 delivered to British Airways 11/8, p. 32
Observation sight installed on British Gazelle helicopter 11/15, p. 52
Italy
Medical evacuation version of Agusta 109A 3/8, p. 263
Agusta producing shorter S-61N 3/22, p. 51
Japan
Japanese evaluating new longer-range helicopter 4/5, p. 53
South Africa
Helicopter operator expands, diversifies 7/5, p. 54
USSR
Soviet-built Mil Mi-8 Hip twin-turbine helicopter of the Egyptian air force operating from Cairo West air force base 2/1, p. 62
New version of Kamov KA-25 Hormone antisubmarine warfare helicopter, NATO code-named Helix, tested in the Baltic Sea 2/22, p. 19
Cuba takes delivery of Soviet Mi-24 Hind D attack helicopter 3/1, p. 16
Soviet Mil Mi-24 Hind D helicopter photographed at Soviet base 3/8, p. 275
Soviet carrier Kiev equipped with Kamov Ka-25 Hormone helicopter in Baltic Sea 3/15, p. 58
Hormones line deck of minsk for Pacific Cruise 5/3, p. 21
Hind versions expand to E, F 5/10, p. 19
Helicopters aid Soviets in Siberian operations 8/30, p. 20
Soviets fight forest fires with Ka-26s 9/6, p. 280

HELICOPTERS-INTERNATIONAL-CONSORTIUM
Anglo/Italian EH-101
Anglo/Italian EH-101 ASW helicopter go-ahead expected 7/26, p. 21
EH-101
Production of Westland/Agusta EH-101 weighed 3/22, p. 49
Hughes AH-64
Army/Hughes AH-64 displays maneuverability 9/13, p. 25
Kawasaki-Boeing Vertol KV-107-2A
Suadi helicopter order 9/6, p. 43
Westland/Sikorsky Sea King
British staging military forces at Wideawake 5/24, p. 18

HELICOPTERS-U.S.
See SIMULATORS AND TRAINERS

ACAP
Bell gets go-ahead on composite airframe 10/18, p. 36
Bell 206
Weight limitations of 206L-1 affects rescue capability at crash of Air Florida 737 1/25, p. 31
Bell 222
Pan American offering New York helicopter service 6/14, p. 43
Bell AH-1
Seven men charged by U.S. district court with conspiring to export 15 armed AH-1 Cobras in violation of U.S. neutrality act 3/22, p. 18
Bell AH-1 Cobra
AH-1 Cobra taking part in Egyptian-U.S. training exercises 2/1, p. 60
Bell Model 222
London police operating TV-equipped helicopter 9/13, p. 93
Bell TH-57A
Naval air training command receives first of Bell TH-57A trainers 11/29, p. 26
Bell Textron 214ST
Okanagan takes delivery of first of two Bell 214ST helicopters 11/22, p. 65
Bell XV-15
First NASA/Army/Bell XV-15 tilt-rotor research aircraft hovers during test flight 1/11, p. 74
Flexibility is offered by XV-15 tilt-rotor concept 1/11, p. 74
Rudders and elevators of XV-15 shown 1/11, p. 75
XV-15 right engine nacelle and rotor shown 1/11, p. 75
Instrument panel in XV-15 relatively conventional 1/11, p. 83
Box at top of power control lever in XV-15 holds switches for converting from helicopter to airplane mode of flight 1/11, p. 85
Relative efficiency of tilt-rotor aircraft shown in chart comparing lift-to-drag ratio 1/11, p. 85
Bell/Textron/Boeing Vertol JVX
Bell, Boeing Vertol form tilt-rotor team 6/14, p. 20
Boeing 414 Chinook
Boeing Vertol delivers Model 414 Chinook helicopters to Spain 8/9, p. 86
Boeing CH-47
Some helicopters returning to service 10/4, p. 26
Inspected CH-47s resume operations 10/18, p. 12
Boeing CH-47 Chinook
Chinook simulator receives British certification 11/22, p. 81
Boeing CH-47C Chinook
U.S. Army grounds Chinooks following crash 9/20, p. 16
Boeing Vertol KV-107-X
Kawasaki proposes improved version of V-107-2 to be designated the KV-107-X for the Japanese Air Self-Defense Force 2/8, p. 47
Boeing Vertol Model 234
Two Boeing Vertol Model 234 helicopters ordered by Norway 3/29, p. 25
Boeing Vertol V-107-2
Kawasaki proposes improved version of V-107-2 to be designated the KV-107-X for the Japanese Air Self-Defense Force 2/8, p. 47
General
U.S. helicopters taking part in Egyptian-U.S. Bright Star missions 2/1, p. 57
FAA readies helicopter rule revisions 2/15, p. 139
U.S. Coast Guard seeks Fiscal 1983 helicopter funds 2/22, p. 60
Growth trends: helicopters 3/8, p. 259
Industrial uses expected to spur helicopter sales 3/8, p. 259
CorpAir drops plans for private helicopter taxi service 3/15, p. 28
U.S. helicopter firms cutting work force 6/14, p. 23
Company evaluates bearingless helicopter main rotor system 8/23, p. 63
Oil market spurs civil helicopter reengining 9/13, p. 24
Texas cities develop disaster plan 9/27, p. 54
Delay forecast in civil sales upswing 10/4, p. 57
Hiller FH-1100
Hiller Aviation to begin FH-1100 production 2/15, p. 147
Hillman 360
Three-seat Hillman 360 undergoing tests 1/4, p. 57
Hughes 500E
Hughes introduced new 500E model at recent Helicopter Assn. International exposition 3/1, p. 23
Hughes 530E
Hughes model 530E, designed for high altitudes/hot temperatures, makes its first flight 11/1, p. 20
Hughes AH-64
Army to increase AH-64 funding 3/15, p. 23
AH-64 survivability tested 3/29, p. 51
AH-64 Alternative proposed by Bell 4/26, p. 153
AH-64 to start european tour 6/14, p. 23
Martin readies for TADS production 8/9, p. 101
Cost, reliability effort mounted for TADS 9/6, p. 43
Hughes Apache demonstrated in England 9/6, p. 152
Rotor vibrations 9/6, p. 152
Apache to provide night/bad weather capability 9/13, p. 42
Hughes AH-64 Apache
Germans complete tests of AH-64 Apache 7/19, p. 28
Hughes Model 500E
Hughes Model 500E begins flight tests 10/11, p. 24
Hughes OH-6
Perforated wing saves fuel 5/24, p. 60
Hughes OH-6A
No-tail-rotor helicopter tests continue 5/24, p. 57
Perforated wing saves fuel 5/24, p. 60
Hughes tests higher harmonic control system to reduce vibrations on helicopters 10/11, p. 111
Hughes TH-55
Beech to modify TH-55 for methane fuel 6/28, p. 20
Kaman Aerospace SH-2
Naval Air Rework Facility has machined replacement main landing gear for SH-2F Lamps Mk.1 helicopters 2/15, p. 112
Robinson R22
R22s to receive rotor blade modification 5/3, p. 17
Sikorsky CH-3
Navy/Sikorsky CH-53E Super Stallion minesweeping version begins flight tests 1/18, p. 53
CH-3 hovers over Soviet intelligence-gathering ship prior to test launch of Trident missile from USS Ohio nuclear submarine 1/25, p. 21
Sikorsky HH-60D Nighthawk
Air Force seeking non-combat aircraft 5/24, p. 24
Sikorsky MH-53E
Navy/Sikorsky MH-53E minesweeping helicopter during early hover tests 3/8, p. 25
Sikorsky RSRA
NASA test flies compound vehicle 7/26, p. 105
Sikorsky S-76
S-76 sets new records 3/22, p. 59
Sikorsky completes weapons demonstration on military S-76 helicopter 5/24, p. 17
Armed S-76 helicopter provides low vibration, good stability 11/22, p. 42
Sikorsky S-76 Mk.2
Sikorsky to offer higher-powered S-76 11/8, p. 19
Sikorsky SH-60B
Sikorsky nears completion of fuselage of first SH-60B Seahawk helicopter 11/29, p. 81
Sikorsky UH-60
Air force seeking non-combat aircraft 5/24, p. 24
Black Hawk helicopter cmpletes feasibility firing 7/26, p. 109
Sikorsky XH-59A
Advancing blade flight data gathered 3/29, p. 42
Sikorsky XH-59B
Sikorsky seeks ABC helicopter changes 7/5, p. 67
Sikorsky YEH-60A
Army/Sikorsky YEH-60A helicopter tested with special electronics equipment 11/22, p. 86

HONG KONG
Hong Kong increases air cargo service 10/11, p. 39

HOVERCRAFT
Hovercraft to replace British World War 2 landing vehicles 9/6, p. 166
Hovercraft trials under way in Britain 10/18, p. 48

INERTIAL UPPER STAGE
First large solid rocket motor for USAF/Boeing IUS flight vehicle shipped by United Technologies to Kennedy Space Center 3/22, p. 21

INFRARED
See AVIONICS;SENSORS;TRACKING AND SCANNING

JAMMERS
Airborne jammer enters production 6/21, p. 68

JAPAN
Four seating classes 11/29, p. 32

JOINT CHIEFS OF STAFF
Jones appeals for Joint Chiefs reform 6/21, p. 18
Reorganizing the chiefs 11/1, p. 11

JUPITER
Deployment problem forces Galileo test reschedule 9/20, p. 106

LABOR, EMPLOYMENT, WAGES
World Airways facing furloughs, plans legal action against teamsters 1/11, p. 36
Federal court rules that United Airlines must rehire flight attendants forced to resign between 1965-1968 for violating rules against marriage 1/18, p. 32
FAA denies authority on PATCO union issue 1/25, p. 28
Laker layoff notices issued 1/25, p. 32

Continental Airlines furloughing employees, reevaluating route structure in effort to cut losses 2/1, p. 36
Pratt & Whitney lays off workers 2/8, p. 21
Ground handling workers disrupt British Airways flights 2/15, p. 29
PATCO expects rehearing on decertification 2/22, p. 32
Defense Dept employment outlook 2/22, p. 59
Layoffs at Beech could mark beginning of new round in reduction of personnel among general aviation industry manufacturers 3/1, p. 25
Pension costs clouding profits for U.S. airlines 3/1, p. 28
British groundcrews strike at Heathrow 3/1, p. 29
Failure of Air New England initiates labor protection review. 3/1, p. 43
Engineer supply found matching demand 3/8, p. 67
Braniff hold half of each employee's pay 3/8, p. 273
Cessna lays off 1,000, suspends turboprop work 3/15, p. 24
OMB approves CAB regulations for processing applications for labor protection benefits from airline employees who blame loss of job on deregulation 3/15, p. 38
Sabena Belgian World Airlines employees asked to take cuts in pay 3/22, p. 34
UAW strikes GE evendale plant 3/29, p. 24
U.S. plans drive on airline discrimination 5/3, p. 30
Braniff developing plan to reorganize, fly again 5/24, p. 28
Gates to lay off 25% at two plants 5/31, p. 23
Western cuts wages 5/31, p. 28
Gulfstream schedules layoffs at Bethany 6/7, p. 20
Senate passes controller pay boost, conflict likely in house 6/14, p. 31
Northwest contract 6/21, p. 27
Aircraft makers increase vacations, layoffs 7/5, p. 25
Airlines marshall support against labor protection 8/2, p. 30
Robots to fill worker shortage 8/2, p. 80
Braniff files to terminate pension plan 8/30, p. 26
Continued depressed sales force new round of layoffs 9/6, p. 50
El Al board threatens to shut carrier down 9/27, p. 30
Labor concerns cited in merger failure 10/4, p. 32
Bell to lay off 550 more by year's end 10/11, p. 23
Traffic controllers voted pay increase 10/11, p. 32
El Al liquidated 10/25, p. 34
Veteran controllers weighing early retirement 11/1, p. 28

LANDING AIDS AND SYSTEMS

Naval Air Rework Facility has machined replacement main landing gear for SH-2F Lamps Mk.1 helicopters 2/15, p. 112
Runway surface sensors draw divergent 5/10, p. 28
Simultaneous instrument approach plan readied 6/7, p. 31
USAFE improving its runway damage repair capabilities 6/7, p. 62
Automatic landing system evaluated 7/5, p. 57
New dual-mode DME to give 10-fold increase in accuracy 8/23, p. 77
Instrument landing system demonstrates accuracy 9/6, p. 66
Landing aids in Dakar remain unassembled 11/15, p. 20

LASERS

Singer Co. Link Div. tactical simulator uses laser imagery 1/18, p. 67
Experimental laser protection visor developed 3/8, p. 237
GAO pushing accelerated laser program 4/12, p. 16
Short-wavelength laser effort urged 4/12, p. 19
The great laser battle 4/26, p. 13
House unit alters laser goals 4/26, p. 18
Burke assesses Soviet laser capability 5/3, p. 13
Agency selects low-cost laser process 5/17, p. 181
USAF studies high-energy laser use 5/24, p. 24
Laser gyro tested 5/31, p. 26
Laser beam used in turbine blade manufacture 5/31, p. 74
The great laser battle—continued 6/14, p. 13
Studies weigh approaches in blue-green laser use 6/21, p. 70
Suspended laser effort to be restarted 8/9, p. 93
Congress boosts space laser funding 8/23, p. 16
Spacelab program cost rise threatens gimbal 8/23, p. 54
Laser communications project deferred by USAF fund cut 8/30, p. 19
Stabilizer for hand-held laser rangefinders demonstrated 9/6, p. 219
Test find new uses for laser gyros 9/6, p. 281
Defense Dept. backs space-based missile defense 9/27, p. 14
Laser funding 9/27, p. 16
Portable laser target marker ranger used on helicopter 10/18, p. 20
Submarine laser program 10/18, p. 55
Damage assessment 11/8, p. 20

LATIN AMERICA

France to supply Sandinista government of Nicaragua with military equipment 1/18, p. 21
Nailing down the threat 3/22, p. 13

LAUNCH FACILITIES

Space Services, Inc. exploring lease of federal launch facilities for privately financed space launches 2/22, p. 21
NASA chief assesses private booster operation and leasing of launch facilities 3/22, p. 54

LAUNCH SITES, GROUND STATIONS, SILOS, BASES

Shuttle facility completion at Vandenberg postponed 9/20, p. 108

LAUNCH VEHICLES

Inertial upper stage shipped to Kennedy 7/12, p. 69
Soviet Soyuz T-6 launch photographed 7/19, p. 42
Landsat launch confirms new Delta 3920 capability 7/26, p. 17
Timing of explosive bolts cited in loss of boosters 8/9, p. 20
French evaluate Ariane 3 launcher 9/6, p. 183
Rocket launched 9/13, p. 31
Delta 3920 second stage unit being assembled 9/13, p. 83
Ariane 3 tested 9/13, p. 86
Ariane transition plans receive setback 9/20, p. 20
Ariane launcher versions compared 9/20, p. 54
Investigation of Ariane's launch failure continues 9/27, p. 20
Otrag to market sounding rockets 10/4, p. 21
USAF to ask for proposals on launcher 10/18, p. 17
Change in Ariane's payload considered 10/18, p. 68
Commercial booster, satellite projects expanding 10/25, p. 22
Study shows space sortie concept viable by 1990 11/1, p. 69
Thiokol tests high-performance shuttle booster 11/8, p. 18
Media coverage 11/8, p. 24
Titan 34D orbits two defense relay satellites 11/8, p. 24

Ariane
ESA's Ariane enters operational phase 1/4, p. 51
Second stage for fourth Ariane test launcher prepared for assembly at Kourou launch site 1/4, p. 51
Technicians work on the Ariane data capsule 1/4, p. 52
Payload for the fourth Ariane consisted of the Marecs A communications satellite 1/4, p. 53
Arianespace markets launch service 1/11, p. 87
Configurations of three international expendable Ariane launcher systems shown 1/11, p. 90
Sales goals projected for Ariane 1/11, p. 91
Ariane 4 in French 1982 budget 1/11, p. 93
Ariane contractors listed 1/11, p. 95
Potential Ariane launcher family follow-on configuration 2/1, p. 51
France developing new cyrogenic Vega engine for Ariane 2/15, p. 139
Ariane launcher will carry European weather satellite Sirio 2 3/22, p. 54

Boeing SRB-X
Unmanned solid propellant launch vehicle utilizing space shuttle solid rocket booster components in artist's concept 1/25, p. 66

China
Chinese prepare FB-1 space launch vehicle in Gobi Desert 3/8, p. 89

Delta
Canadian satellite to use delta launch vehicle 4/26, p. 63

Europe
Europe studies future space launch systems concepts 2/1, p. 50

Japan
Japan developing new H-1 launcher 1/11, p. 91

McDonnell Douglas Upper Stage
McDonnell Douglas evaluating wobble in upper stage system occurring when satellite separates from payload assist module 1/25, p. 23

SRB-X
NASA studying shuttle-derived launch vehicles 3/8, p. 81

Shuttle
Space shuttle booster lands in atlantic 5/10, p. 47

USSR
Soviets launch atmospheric data payload designated Vertical 10 from Kapustin Yar 1/18, p. 51

LEGAL ACTIONS

New Zealand court intervenes in investigation of Air New Zealand DC-10 crash in Antartica in 1979 1/4, p. 31
World Airways facing furloughs, plans legal action against teamsters 1/11, p. 36
Federal court rules that United Airlines must rehire flight attendants forced to resign between 1965-1968 for violating rules against marriage 1/18, p. 32
Major airlines charging new entrants for use of their reservation systems is called a legal violation by Muse Air chairman 1/25, p. 29
Carrier refusal to pay higher landing fees taken to courts 2/8, p. 28
PATCO expects rehearing on decertification 2/22, p. 32
Court of Military Appeals reverses Cooke decision on espionage charges 3/1, p. 24
London court ruling on Laker licenses sought 3/1, p. 36
Seven men charged by U.S. district court with conspiring to export 15 armed AH-1 Cobras in violation of U.S. neutrality act 3/22, p. 18
U.S. may join noise restriction litigation against Santa Monica 3/22, p. 23
Aluminum supplier files suit against Lockheed 4/12, p. 23
Restrint of competition charged 5/31, p. 67
Khashoggi settlement 6/28, p. 26
Boeing pleads guilty on disclosure failure 7/5, p. 29
Settlement near in continental suit 7/5, p. 30
Company investigated 7/12, p. 26
U.S. to open Kwajalein range parley 7/12, p. 61
Crash lawsuits 8/9, p. 43
Parts indictment 8/9, p. 94
Court invalidates perimeter rule 8/30, p. 32
Braniff pensions 9/6, p. 57
Eastern pays sum for animal death 9/13, p. 41
Import duties on Bandeirante weighed 9/20, p. 115
ITC drops Embraer subsidy investigation 9/27, p. 24
SAS denied U.S. service extension request 9/27, p. 29
Misuse of military aircraft claimed 10/4, p. 30
Braniff reorganization period lengthened 10/18, p. 27
Pratt & Whitney pricing investigated by Air Force 10/25, p. 26
Defense Dept. tightens lobbying cost rules 11/1, p. 21
Braniff court date 11/8, p. 34
Noise fee appeal 11/8, p. 71
Concessions, court cloud airport financial planning 11/8, p. 164
Smoke fine upheld 11/22, p. 32
Fairchild appeals ITC's denial of Bandeirante import duties 11/22, p. 64
Parachute cord supplier indicted 11/22, p. 89
Suit settlement 11/22, p. 91

LUNAR

Europe considers restarting lunar program Polo (polar orbiting lunar observatory) 3/8, p. 93

MAINTENANCE, OVERHAUL, REPAIR

Computer video animation and simulation techniques being applied to aircraft maintenance training system being developed by Lockheed 1/11, p. 58
Battery-powered support equipment shows savings 4/5, p. 55
Boeing cockpit trainers ordered by Delta 4/19, p. 52
Sensor monitors aircraft's systems 5/3, p. 67
Boeing alters approach to new aircraft training 5/31, p. 40
USAF studying automated engine inspection, repair 6/28, p. 100
Nonaligned firms vie for engine work 6/28, p. 107
Flexible maintenance possible with new monitors 7/26, p. 120
Navy pushes aircraft repair automation 8/2, p. 84
Bangkok repair center 8/9, p. 94
Canadian mechanics to service U.S. aircraft 10/4, p. 39
Technique benefits novice technicians 10/11, p. 133
Deregulation spurs maintenance shift 11/8, p. 155

MANAGEMENT

Nachman Perel named acting chairman of El Al 1/4, p. 33
New Lockheed subsidiary Cadam, Inc. scheduled to begin operation as a separate organization 1/4, p. 40
Western Airlines reorganizes management 1/18, p. 32
Lufthansa employees sign petition opposing the removal of the Chairman by the government and his replacement by a Ministry of Transport official 1/25, p. 27
Northrop reorganizing managerial structure to aid growth 2/1, p. 26
Heinz Ruhnau to become Lufthansa's chief executive in July despite protests from the majority of the airline's employees 2/1, p. 31
Braniff continues paring costs by eliminating some management positions and shutting down some ticket offices 2/8, p. 28
Fokker undertakes sweeping company reorganization in effort to improve production, sales and earnings 2/8, p. 51
New board of directors nominated at Continental 3/15, p. 30
Braniff board chairman resigns to join Pan Am 3/22, p. 29
Cessna restructures marketing and support organizations 3/22, p. 58
JPL chief plans to leave 4/12, p. 20
Kraft to leave Johnson Space Center 4/19, p. 25
Lear fan reorganization 5/3, p. 16
General Electric realigns engine group 5/31, p. 23
Swissair president 5/31, p. 28
Braniff creditors form committees 5/31, p. 29
Pierce moves 6/7, p. 24
Quality draws key focus at productivity seminar 6/14, p. 109
Quality draws key focus at productivity seminar 6/14, p. 109
De Ferranti post 6/14, p. 114
RCA directors 6/14, p. 116
RCA directors 6/14, p. 116
Page promoted 6/28, p. 21
Pratt & Whitney names management team 7/5, p. 27
Skantze assignment 7/12, p. 19
Abrahamson promoted 7/12, p. 24
New York Air changes high-level management 7/19, p. 36
Allen named new JPL head 7/26, p. 20
Curtis sword 7/26, p. 25
Publisher named 7/26, p. 25
British aerospace reorganizes management structure of firm 8/2, p. 21
Western president 8/2, p. 27
Two executives leaving British Airways 8/9, p. 34
Hotz nominated to ACDA Advisory Committee 8/23, p. 26
Continental realigns management prior to October integration 9/13, p. 36
French affiliates gain U.S. foothold 10/18, p. 53
Executive disappears 10/25, p. 25
Engine makers stress research effort 10/25, p. 59
Lear Fan management shifts 11/15, p. 91
World Airways names Cooke President 11/22, p. 34

MANUFACTURING TECHNOLOGY

Industrial lead times: Soft aerospace market cuts shortages 1/18, p. 53
Garrett testing new alloy of aluminum 1/25, p. 67
Vought awarded contract to head modernization study of aerospace "factory of the future" 1/25, p. 67
Garrett adopts modular manufacturing concept and new production techniques for turbine engines 2/1, p. 67
Naval Air Rework Facility has machined replacement main landing gear for Kaman Aerospace SH-2F Lamps Mk.1 helicopters 2/15, p. 112
Pentagon planning industrial surge capability to increase production of selected weapons systems 3/1, p. 16
USAF Materials Laboratory seeks increased robot precision 3/1, p. 69
General Electric develops management system to improve productivity of aerospace batch manufacturing 3/1, p. 72
Glass containers used in metals consolidation 4/19, p. 71
Technique predicts composite strength 5/10, p. 55
Sharpening Europe's thrust 5/17, p. 13
Aerospace companies emphasize progress 5/17, p. 42
Germans use new production methods 5/17, p. 51
French begin industrial improvements 5/17, p. 53
Automation aids new 340 production 5/17, p. 61
French firm uses composites in commercial applications 5/17, p. 75
British aerospace begins update effort 5/17, p. 76
Sammie says 5/17, p. 85
Pitfalls face engineers in new technologies 5/17, p. 89
Rolls Royce implementing new production system 5/17, p. 91
Rolled bar used in blade manufacture 5/17, p. 102
Cost control big factor in AMX plan 5/17, p. 105
Computer system used in MBB augsburg facility 5/17, p. 111
Ceramics tested for bearings 5/17, p. 115
Aerospatiale plans for doubled output 5/17, p. 117
Automated methods fill growing aerospatiale role 5/17, p. 123
Dornier stretches 228's service time 5/17, p. 131

Fokker boosts metal bonding area at plant 5/17, p. 134
Layup system boosts output 5/17, p. 153
Agency selects Low-Cost process 5/17, p. 181
Strategic material production increase sought 5/31, p. 70
Laser beam used in turbine beam manufacture 5/31, p. 74
Quality draws key focus at productivity seminar 6/14, p. 109
Contrast in new vs. old strain gauge technology illustrated 6/28, p. 97
Suppliers press technology advances 6/28, p. 108
Computers expedite production effort 6/28, p. 176
Automation, costs and new business 8/2, p. 11
Productivity growth is key goal 8/2, p. 40
Move to integrated facilities planned 8/2, p. 45
Vought heads future factory coalition 8/2, p. 45
Automatic machining center aids B-1B productivity effort 8/2, p. 46
Boeing's Wichita facility plans plant modernization 8/2, p. 48
C-5A wing modification using advanced methods 8/2, p. 51
Robotic spraying examined in external tank applications 8/2, p. 52
Boeing approaching use of robots cautiously 8/2, p. 53
USAF installs blade inspection system 8/2, p. 63
Circuit board assembly plant to test systems 8/2, p. 66
Plan under way for government investment 8/2, p. 66
F-18 drill eliminates hand tooling 8/2, p. 74
Grumman reduces sheet fabrication costs 8/2, p. 74
Bell installs continuous wire routing 8/2, p. 76
Robots enhance drilling productivity 8/2, p. 77
Automatic spray painting device in operation at Fairchild Republic 8/2, p. 78
New methods create composite parts 8/2, p. 80
Robots to fill worker shortage 8/2, p. 80
Northrop material center provides automatic cutting 8/2, p. 83
Airframe makers utilize new composite methods 8/2, p. 84
Accurate measurement sought 8/2, p. 86
Computers link numerical control shop equipment 8/2, p. 87
Japanese production runs limit robotic investment 8/2, p. 91
British Aerospace installs new drilling, fastening equipment 8/2, p. 93
Rolls-Royce to use robot-aided production line 8/2, p. 94
Mitsubishi uses fixed-aircraft, moving crew 9/6, p. 239
Production capabilities expanded 9/6, p. 254
Forge expected to assist in engine production 9/6, p. 255
Laboratory reviews forging aid software 9/6, p. 269

MAPPING
See SPACE IMAGERY

MARS
Storm on Mars imaged in timed sequence from Viking 1 3/8, p. 82
Voyager photos provide clues to martian past 5/31, p. 58
Viking 1 spacecraft transmitting images of Mars 8/16, p. 53
Device failure mars mission processing 11/1, p. 19
Analysis points to meteorite coming from Mars 11/29, p. 18

MATERIALS
Bill in Congress proposes strategic stockpile commission 1/4, p. 18
Delivery lead times for aerospace materials have shrunk since shortages problem peaked in 1979 1/4, p. 38
Raw materials lead times 1/4, p. 38
Castings and forgings lead times 1/4, p. 39
Industrial lead times: Manufacturers facing surpluses in materials 1/11, p. 64
Industrial lead times: Soft aerospace market cuts shortages 1/18, p. 53
Suppliers cite increase in raw materials 1/18, p. 55
Garrett testing new alloy of aluminum 1/25, p. 67
New production facility for composite materials fabrication will be ready for operation by British Aerospace this summer at Salmsbury, England 2/15, p. 109
Creation of alloys in space investigated 4/5, p. 62
Glass containers used in metals consolidation 4/19, p. 71
Lightweight material studied for shuttle 5/10, p. 56
Titanium in A310 5/17, p. 76
Commerce forecasts materials requirements 5/31, p. 70
Strategic material production increase sought 5/31, p. 70
Composites evaluated for use in rocket motor 5/31, p. 75
Company completes manufacture of shuttle tiles 6/7, p. 86
German firm studies ceramics, composites 6/28, p. 58
Suppliers press technology advances 6/28, p. 108
Pratt & Whitney testing aircraft engine alloys 6/28, p. 123
Pratt & Whitney studying stress effects on powerplants 6/28, p. 133
Synthetic fibers tested as insulation 7/26, p. 103
Fokker expanding composites production 9/6, p. 89
Joint venture 11/29, p. 80

MERGERS AND ACQUISITIONS
General Dynamics meeting with Chrysler to discuss purchase of Chrysler Defense, Inc. subsidiary 2/8, p. 19
Lear Siegler has agreed to buy Conrac Avionics Systems Corp., subsidiary of Conrac Corp. 2/8, p. 25
Air Florida takeover of Western Airlines cleared by CAB 2/8, p. 32
Signal Corp. possibly to acquire turbine engine portion of General Motors' Detroit Diesel Allison Div. 3/1, p. 22
Few benefits of merging Texas International and Continental will show up until after the two are merged financially later this year 3/1, p. 32
RCA resists acquisitions by Bendix 3/15, p. 24
New company formed 5/17, p. 25
Law judge approves Wien, Western merger 6/21, p. 30
Merger guides reflect recent practice 6/21, p. 32
Morton, Thiokol merge 7/26, p. 18
Western wins approval to acquire Wien 8/2, p. 26
Bendix seeks to acquire Martin Marietta 8/30, p. 23
Champion production 9/6, p. 50
Another Bendix bid made by United Technologies 9/20, p. 22
Bendix/Allied merger complicates takeover 9/27, p. 16
Allied takes over Bendix; Martin stays independent 10/4, p. 23
Labor concerns cited in merger failure 10/4, p. 32
Continental, Texas taking steps to complete merger 10/11, p. 36
GTE to acquire Southern Pacific units 10/25, p. 58
Western/Wien merger effort stopped; curb by CAB cited 11/8, p. 34

MEXICO
State ownership gives Mexicana influx of cash 7/26, p. 32

MICROCIRCUITS
Facility aids in microelectronics effort 11/29, p. 89
Facility aids in microelectronics effort 11/29, p. 89
Universities chosen for microelectronic grants 11/29, p. 92
Universities chosen for microelectronic grants 11/29, p. 92

MICROELECTRONICS
Control Data Corp proposes creation of jointly owned Microelectronics and Computer Technology Enterprise to compete with Japanese technology 3/8, p. 226
Industry plans semiconductor efforts 5/17, p. 181

MICROPROCESSORS
Skeet "smart" antitank submunition developed for Assault Breaker program controlled by microprocessors 3/22, p. 66

MIDDLE EAST
Egypt's technology shift: nation seeks larger production base 1/4, p. 41
Reagan administration plans authorizing $300 million more in Foreign Military Sales for Israel 1/11, p. 24
Egypt to buy Mirage 2000 fighters 1/11, p. 27
Egypt's technology shift 1/11, p. 44
First of 40 F-16 Fighting Falcons for the Egyptian air force test flown 1/18, p. 16
U.S. eyes Egypt as market for F-5G 1/18, p. 18
Egypt's technology shift: Factories tool for Alpha Jet program 1/18, p. 61
Iran seen gaining edge on Iraq in War , p. 24
Iran seen gaining edge on Iraq in war 1/25, p. 24
Air France Concorde undergoes major overhaul 1/25, p. 70
Map of Egypt and other Middle East nations shows location of Egyptian air fields 2/1, p. 56
Egypt's technology shift: Egyptian navy gives priority to procurement of missiles and aircraft 2/8, p. 61
Egypt prepares to accept delivery of additional F-16s 2/15, p. 141
Airbus studying alternative delivery methods for A300/A310 aircraft to Libyan Arab Airlines to avoid problems from U.S. Libyan trade embargo 2/22, p. 31
Export controls eased for Syria, South Yemen 3/15, p. 21
Export controls eased for Syria, South Yemen 3/15, p. 21
House unit backs Middle East aid boost 5/3, p. 18
Arms sales proposed to Middle East 5/17, p. 22
Syrian action spurs massive air battle 6/14, p. 29
Surveillance integration pivotal in Israeli successes 7/5, p. 16
Ras Banas funding 10/11, p. 29
Egypt to ease controls affecting airline assets 11/22, p. 40
El Al seeks receiver 11/29, p. 32

MILITARY AID
U.S. expects Israel aid boost to stimulate larger purchases 3/29, p. 22
Soviets outpace U.S. in arms supplies 8/16, p. 44
U.S. foreign military sales total $130 billion 8/16, p. 44

MILITARY PREPAREDNESS
Cuba
Cuba takes delivery of second squadron of Soviet MiG-23s 2/8, p. 17
Egypt
Egypt's technology shift 1/11, p. 44
U.S. helps to update Soviet-built weaponry 1/11, p. 44
Improved Hawk missile to bolster air defense 1/11, p. 52
SA-6 aids air defense of western approaches 1/11, p. 53
Decoy counterpart backs SA-3 battery in Egypt 1/11, p. 63
Egypt's technology shift: Diverse factors mold air force future 2/1, p. 52
Map of Egypt and other Middle East nations shows location of Egyptian air fields 2/1, p. 56
U.S. helicopters taking part in Egyptian-U.S. Bright Star missions 2/1, p. 57
U.S. Army and Egyptian paratroopers jump from C-141B transport as part of Bright Star mission 2/1, p. 58
Egypt's technology shift: Nation's F-4Es operate from Cairo West base 2/1, p. 59
Egypt's technology shift: Egyptian navy gives priority to procurement of missiles and aircraft 2/8, p. 61
Japan
New purchases double Japan's combat capability 3/8, p. 73
Japan's military airlift procurement 3/22, p. 64
Japanese buildup targets 3/22, p. 65
Nicaragua
Aerial photos show Soviet/Cuban military build-up in Nicaragua 3/15, p. 22
Sweden
Sweden facing long-term defense force decisions 3/8, p. 36
U.S.
Defense Dept. places higher priority on air defense than on modernizing ICBMs 1/11, p. 23
DARPA military official stresses need for survivable space systems 1/18, p. 22
USAF reassessment of requirements for its tactical air forces has prompted expansion of its European logistics capability with new distribution system 3/1, p. 26
Emphasis grows on nuclear defense 3/8, p. 27
U.S. and Soviet outlays and estimated dollar costs of defense activities 3/8, p. 27
U.S. and Soviet outlays and estimated dollar costs of intercontinental attack forces 3/8, p. 28
U.S. and USSR strategic forces pre-attack ratio comparison 3/8, p. 28
Comparison of U.S. and USSR major missions and general purpose forces costs 3/8, p. 29
Comparison of U.S. and USSR long-range nuclear systems costs 3/8, p. 30
U.S. tactical weapons receive system updates 3/8, p. 37
Navy stressing survival of fleet in nuclear war 3/8, p. 50
U.S. and Soviet naval aircraft trends 3/8, p. 50
USSR
Soviet force investment shifting strategic balance 2/22, p. 23
U.S. and Soviet outlays and estimated dollar costs of defense activities 3/8, p. 27
U.S. and Soviet outlays and estimated dollar costs of intercontinental attack forces 3/8, p. 28
U.S. and USSR strategic forces pre-attack ratio comparison 3/8, p. 28
Comparison of U.S. and USSR major missions and general purpose forces costs 3/8, p. 29
Comparison of U.S. and USSR long-range nuclear systems costs 3/8, p. 30
U.S. and Soviet naval aircraft trends 3/8, p. 50
Soviet military programs in space move forward 3/8, p. 106
Aerial photos show Soviet/Cuban military build-up in Nicaragua 3/15, p. 22

MISSILES-INTERNATIONAL
China
Chinese launch ballistic missile from submarine 10/25, p. 17
Egypt
Sakr factory schedules three missile projects 1/4, p. 45
Sakr-produced air-to-surface rocket system for Mikoyan MiG fighters shown 1/4, p. 45
122-mm. light artillery rocket system is based on Soviet design 1/4, p. 46
Production of 132-mm. artillery rocket system is taking place at Sakr factory 1/4, p. 47
France
Matra Magic 550 air-to-air missiles for Mirage 5 fighters operated by Egyptian air force at Tanta air force base in Egypt 2/1, p. 61
First submarine test lanch of M-4 set 3/1, p. 21
Missiles used in Falklands conflict 5/10, p. 22
Exocet missile sinks ship 5/10, p. 25
Weapons usage limited by Argentine experience 5/17, p. 26
Exocet missiles hit British container ship 5/31, p. 22
Exocet hits ship 6/21, p. 20
Antimissile Crotale produced 6/21, p. 55
Exocet, Roland combat performance rated high 11/1, p. 25
French test fire antiship missile 11/15, p. 63
Flight guidance systems tested in launch 11/15, p. 67
France develops antiship weaponry for export 11/29, p. 84
Great Britain
Missile launch system 4/12, p. 99
British prove capability of new missiles 5/17, p. 25
Rapier defense 6/7, p. 78
Mock combat preceded British deployment 6/14, p. 24
British developing new version of VM40 Seawolf missile 6/21, p. 21
Britain projects Trident D5 cost overrun 6/21, p. 53
Post-Falklands briefings spurring British missile interest 8/23, p. 22
British aerospace VM40 vertical launch Seawolf missile tested 9/6, p. 139
British Aerospace Seawolf missile fired from Seacat launcher 9/27, p. 21
Italy
Saudi Arabia evaluates Italian missile 10/25, p. 18
Norway
Norwegian antiship missile tested by Navy 9/6, p. 47
USSR
Soviet missile tests conducted with reentry vehicles targeted for Pacific Ocean impact areas 1/4, p. 20
Egyptian SA-3 Goa missile unit 1/11, cover
Soviets test new, improved SLBMs, SS-N-20, SS-N-19, SS-N-21 1/11, p. 26
Soviet-built SA-3 Goa surface-to-air missiles positioned on launcher near Cairo 1/11, p. 44
Egyptian Air Defense Force crew moves SA-3 Goa surface-to-air missile into firing position 1/11, p. 45
Goa air defense missiles of Egyptian military moved from loading trailer 1/11, p. 48
Each Egyptian SA-6 surface-to-air missile battery operates its SA-6 Straight Flush radar for training each day 1/11, p. 53
SA-6 aids air defense of western approaches to Egypt 1/11, p. 53
SA-6 missile travels at speed of 600 meters per sec. 1/11, p. 55
Egyptian Air Defense Force Soviet-built SA-6 Gainful operates atop a desert plateau 1/11, p. 58
Decoy counterpart backs SA-3 battery in Egypt 1/11, p. 63
Egyptian update Soviet missiles, SA-2B Guideline shown 1/25, p. 64
Soviet Backfire with AS-4 Kitchen missile 2/8, cover
Area of SS-20 intermediate range ballistic missile coverage shows that Europe, Asia and some areas of North America are vulnerable 2/22, p. 24
Soviet SS-20 deployment estimated at 280 3/8, p. 62
Soviet SS-20 deployment reaches 300 3/22, p. 18
Syrian action spurs massive air battle 6/14, p. 29
Syrian action spurs massive air battle 6/14, p. 29
Soviets order SA-8s into action in Bekaa after Israeli successes 8/9, p. 18

MISSILES-INTERNATIONAL-CONSORTIUM
Rapier
Rapier Agreement 4/12, p. 83
TMPS
Missile system 6/7, p. 79

Vought/Hunting Law 80
Weapon agreement 6/28, p. 29

MISSILES-U.S.
See MISSILES-U.S., Defense Pack

ABM
Low-cost ABM radar given emphasis by Army's Ballistic Missile Defense Program Office 3/1, p. 74
AGM-65E Maverick
Laser-guided missile tested on runway 7/26, p. 111
Laser Maverick tests 8/23, p. 18
AIM-54C
Missile demonstration planned 7/26, p. 111
AIM-9L Sidewinder
USAF names Raytheon second missile source 5/31, p. 17
Sidewinder deliveries 5/31, p. 20
ALCM
USAF/Boeing AGM-86B ALCM tested 2/8, p. 17
AMRAAM
F-14 with Hughes AMRAAM 1/4, cover
Hughes AMRAAM evaluated in flight 1/4, p. 48
USAF names Raytheon second missile source 5/31, p. 17
Missile technology focuses on standoff capability 6/28, p. 190
Hughes missile tested by simulator 9/27, p. 71
Antitank
Wind tunnel model of Hughes Tank Breaker man-carried antitank missile 3/8, p. 37
Centaur
Reagan backs Centaur funding 7/26, p. 16
Cruise
Subsonic cruise missile engine needed 6/28, p. 201
U.S. Navy moves to boost missile protection 7/12, p. 61
Cruise missile crash 8/16, p. 23
Navy removes cruise missile project director 8/23, p. 22
U.S. holds to missile deployment plan in Europe 10/25, p. 26
General
Electro-optical scoring system for missile testing and training being developed by Hughes for U.S. Navy and USAF 1/4, p. 63
Vector Scoring System (VSS) designed for Navy missile testing uses radiation sent by target 1/18, p. 75
Aerojet Strategic Propulsion Co. studying new ways to reduce missile weight 3/8, p. 71
Progressive weapon cuts proposed in Congress 4/12, p. 93
Missile defense keyed to technology 4/19, p. 79
General Dynamics BGM-109
Antenna deployed on GLCM unit 4/5, p. 48
General Dynamics MRASM
Missile design review 6/14, p. 107
General Dynamics Standard Missile 2S
Missile launch system tested 5/17, p. 18
HARM
HARM Missile contracts awarded 5/17, p. 192
Harpoon
Harpoon test planned on B-52 8/9, p. 23
B-52/Harpoon changes set 8/16, p. 25
Missile storage units 11/22, p. 87
Hawk
Egyptian Raytheon Improved Hawk missile is fired in training exercise 1/11, p. 52
Norwegian team to seek improved Hawk data 4/5, p. 22
Hawks for Israel 4/12, p. 83
Lockheed Axe
Surface-to-surface missile recommended for NATO 6/7, p. 64
MLRS
Senate bill clouds coproduction talks 10/25, p. 18
Defense Dept., Army push multiyear rocket program 10/25, p. 20
Production rate increase planned for MLRS system 11/15, p. 70
MRASM
Tomahawk to use larger submunitions 8/23, p. 65
MX
MX missiles based beneath mesas in southwestern U.S. is one of several basing plans being studied 1/11, p. 20
Pentagon drops superhardened silo basing 1/11, p. 20
Deployment of MX in existing Minuteman missile fields depicted in artist's concept 1/11, p. 21
MX missile milestones completed successfully 1/11, p. 22
Major components of the upper portion of MX fit-checked at Avco Systems Div. 1/11, p. 22
Instrumentation flight and safety system (IFSS) will replace simulated reentry vehicle during MX flight test program 1/11, p. 23
Support for MX basing at many facilities gains within Congress and Defense Dept. 1/11, p. 24
MX missile separation 1/18, cover
Vandenberg gears to January, 1983, MX test launch 1/18, p. 58
Prototype MX missile fourth stage utilized in recent development testing at Avco 1/18, p. 59
Simulated MX utilized for canister ejection test to evaluate missile's cold launch system 2/1, p. 23
MX exterior color to be black 2/8, p. 59
Vandenberg gears for MX test flights 2/8, p. 59
MX missile model to be tested 3/1, p. 17
New MX facilities developed at Vandenberg AFB 3/8, p. 46
USAF halts study on continuous patrol aircraft for MX missile basing 3/8, p. 275
Congress questioning viability of MX ICBM 3/22, p. 17
USAF presses survivable MX basing 3/29, p. 20
MX production runs into opposition 4/5, p. 22
Simulated MX missile in canister ejection tests 4/12, p. 21
Funding mix-up portends strong conference debate 4/12, p. 22
USAF restudies orbital basing of MX 4/12, p. 83
Solid-staged combustion demonstrated 4/12, p. 99
MX first stage undergoes all-up test firing 4/19, p. 17
MX Guidance platform 4/26, p. 27
Study finds MX deep basing problems 5/17, p. 191
U.S. to Press MX deployment during START talks 6/14, p. 24
MX basing plan readied for delivery to Congress 6/28, p. 21
USAF reevaluating MX missile sites 6/28, p. 26
MX stage may aid in shuttle developments 6/28, p. 138
MX assembled for testing 7/19, p. 129
House votes partial MX fund witholding 7/26, p. 22
Missile defense linked to MX 8/9, p. 18
Defense authorization passed by Congress 8/23, p. 14
Defense decision hikes strategic funds 8/23, p. 17
MX basing concept assessed 9/20, p. 16
Conestoga lifts off from Matagorda Island 9/20, p. 17
MX delays force test reschedule 9/27, p. 23
MX basing funds 10/4, p. 24
Administration pushes ICBM defense 10/11, p. 113
Tunneling test set on MX deep basing 11/1, p. 20
Defense Dept. expects start on missile defense program 11/8, p. 20
MX funding 11/15, p. 16
President gets Defense Dept. MX basing options, recommendation 11/22, p. 16
Air Force, industry teams ready first MX flight 11/22, p. 20
House appropriations group votes full funding for MX 11/22, p. 20
Funding delay may slip MX capability 11/22, p. 22
MX backers, opponents plot strategy 11/22, p. 22
Reagan picks dense pack MX missile basing mode 11/29, p. 22
BMD prospect 11/29, p. 24
House MX division nearly equal 11/29, p. 24
Basing found to meet treaties 11/29, p. 25
Maverick
USAF seeking options on production funding of Maverick 3/1, p. 27
IR Maverick testing improves 6/21, p. 24
Maverick production opposed by GAO 7/19, p. 143
Laser Maverick tests 8/23, p. 18
IR Maverick leads weapon price increase 8/30, p. 51
Maverick funding 10/11, p. 114
McDonnell Douglas/Thiokol Star 30
Exit cone failure 8/30, p. 12
Pershing 2
Helionetics to develop and manufacture regulated power supplies for Pershing 2 missile launchers 3/8, p. 270
Pershing 2 test firing slips to July 6/14, p. 18
Pershing explosion 7/26, p. 27
Pershing 2 reentry vehicle located 8/2, p. 20
Pershing missile's destruction shown 8/9, p. 63
Extensive review planned for Pershing 2 8/23, p. 17
Pershing test 10/18, p. 17
Pershing tests 11/1, p. 25
Army reschedules Pershing 2 test 11/22, p. 29
Pershing launch 11/29, p. 27
ROLAND
Roland Replacement 4/12, p. 99
SRAM
Missile technology focuses on standoff capability 6/28, p. 190
Sidearm
Sidearm program 5/31, p. 17
Standard Missiles 1 and 2
Missile storage units 11/22, p. 87
Stealth Cruise Missile
USAF planning stealth cruise missile 11/8, p. 18
Stinger
Army Roland fire unit launches Stinger missile in test 5/31, p. 17
TOW
TOW Missile undergoing improvements 4/12, p. 93
TOW missile sight system evaluated 8/16, p. 49
Titan 34D
Titan 34D readied for October launch 10/4, p. 19
Tomahawk
Boosters for Tomahawk to be improved 1/25, p. 58
Ground-launched Tomahawks delivered to USAF by General Dynamics 3/1, p. 63
Tomahawk launched from transporter-erector-launcher at Utah site 3/15, p. 20
Manufacturers to share Tomahawk missile data 4/5, p. 27
Tomahawk ground control evaluated by Air Force 6/21, p. 48
Tomahawk missile dispensing technique changed 8/9, p. 99
Tomahawk tube-launched off California 8/16, p. 24
Tomahawk to use larger submunitions 8/23, p. 65
Chemical Systems Div. test fires solid rocket booster motor for Tomahawk missile 11/22, p. 71
Missile storage units 11/22, p. 87
Tomahawk GLCM
Antenna deployed on GLCM unit 4/5, p. 48
Trident
Soviet intelligence-gathering ship intrudes on Trident test 1/25, p. 20
Sikorsky CH-3 hovers over Soviet intelligence-gathering ship prior to test launch of Trident missile from USS Ohio nuclear submarine 1/25, p. 21
Trident missile launched by USS Ohio 3/8, cover
Britain, U.S. to discuss roles in Trident program 3/22, p. 20
Trident tested in launch from submarine 4/26, p. 154
Trident 2
Geosat Data to Aid Trident 2 Accuracy 7/19, p. 26
Graphite chamber developed for Trident 2 8/30, p. 52
Vought hypervelocity missile
Hypervelocity missile undergoes evaluations 10/18, p. 18
Wasp
Flight tests under way on Wasp missile program 4/19, p. 23
Wasp antiarmor weapon tests slated 5/10, p. 63

MOON
NASA studies potential lunar meteorite 11/29, p. 21
Unit sets goal of manned lunar base 11/29, p. 21

NAMES
Embraer redesignates newest version of Xingu line of corporate aircraft as Xingu 3; Xingu 1A now called Xingu 2 1/4, p. 57

NAVIGATION AND GUIDANCE
Laser gyro tested 5/31, p. 26
Apache to provide night/bad weather capability 9/13, p. 42
F-16 gyro 9/20, p. 129
Delco makes low-cost gyro prototype 10/25, p. 64

NICARAGUA
Aerial photos show Soviet/Cuban military build-up in Nicaragua 3/15, p. 22

NO-TAIL-ROTOR AIRCRAFT
No-tail-rotor helicopter tests continue 5/24, p. 57
Perforated wing saves fuel 5/24, p. 60

NOISE CONTROL
Agreement reached on Westchester County Airport curfew 1/25, p. 54
Lockheed studies aircraft noise reduction 2/22, p. 85
FAA's noise curfew plan termed "trial balloon" 3/8, p. 205
U.S. may join noise restriction litigation against Santa Monica 3/22, p. 23
Noise controlled facility services F-16 engines 7/12, p. 57
Noise fee appeal 11/8, p. 71

NORTH ATLANTIC TREATY ORGANIZATION
Defense expenditures of NATO countries 1/4, p. 22
NATO allies' stand on Poland falls short of U.S. position 1/18, p. 20
Delivery of NATO AWACS held up by Luxembourg 2/8, p. 24
NATO Seeks stronger U.S. leadership 3/8, p. 57
Europeans study alternative to NATO 3/8, p. 62
Buy America Act concerns allies 3/22, p. 27
NATO withdrawal threatened 5/10, p. 15
Soviet weapons procurement increases 5/10, p. 16
NATO's Qualitative edge over warsaw pact slips 5/10, p. 17
Senators propose agency to select NATO's arms 5/10, p. 20
NATO assesses loss of ship near Falklands 5/10, p. 23
NATO ministers condemn Argentina 5/24, p. 21
Gaps appearing in NATO forces 5/31, p. 22
Alert system pact 6/7, p. 19
Spain joins NATO 6/7, p. 24
Allied air units plan move to more updated aircraft 6/7, p. 57
Surface-to-surface missile recommended for NATO 6/7, p. 64
Mock combat preceded British deployment 6/14, p. 24
Survivability, capability pivotal to tactical operations center 6/14, p. 100
Host nation support agreement hikes troop strength in crisis 6/14, p. 106
Host nation support agreement hikes troop strength in crisis 6/14, p. 106
USAFE must meet political, economic attacks 6/14, p. 106
USAFE must meet political, economic attacks 6/14, p. 106
NATO union key to Spanish defense 6/21, p. 46
British reaffirm pledge to NATO of 3% growth 6/28, p. 30
NATO's early warning force activated; program on schedule 7/12, p. 52
War spurs NATO analysis of combat techniques 7/19, p. 20
Bundestag member urges conventional force change 7/19, p. 117
Ban adopted on foreign-made defense items 8/23, p. 14
NATO begins autumn Forge 82 Exercise 9/6, p. 42
NATO facing 'identity crisis' 9/6, p. 42
Survey to scrutinize NATO cooperation 9/13, p. 95
Europeans mull need for new fighter 9/20, p. 95
Straining NATO's seams 9/27, p. 9
NATO awards surveillance radar contract 10/18, p. 72
Spanish socialists may reconsider NATO entry 11/8, p. 17
Missile decision backed 11/22, p. 23

NUCLEAR WEAPONS
Livermore Laboratory to boost research on nuclear weapons 2/22, p. 56
Emphasis grows on nuclear defense 3/8, p. 27
USAF presses survivable basing 3/29, p. 20
Agency selects Low-Cost laser process 5/17, p. 181
Soviets stage integrated test of weapons 6/28, p. 20
Nuclear freeze drive shifts to debate 11/22, p. 23
Burn before reading 11/29, p. 11

OBITUARY
Irving Stone, former AW&ST editor, dies 1/25, p. 26

ORDERS, PURCHASES, DELIVERIES
Canadair CL-215 amphibious aircraft delivered to Yugoslavia 1/4, p. 56
Egypt to buy Mirage 2000 fighters 1/11, p. 27
First of 40 F-16 Fighting Falcons for the Egyptian air force test flown 1/18, p. 16
France to supply Sandinista government of Nicaragua with military equipment 1/18, p. 21
Japan Air Lines orders DC-10s, USAF orders KC-10s 1/18, p. 34
Kuwait signs contract for four L-100-30 Super Hercules transports 1/25, p. 19
Belgium plans buy of F-16 long-lead production items 1/25, p. 26
Reengined Boeing C-135 delivered to USAF 2/1, p. 21
Cuba takes delivery of second squadron of Soviet MiG-23s 2/8, p. 17
Delivery of NATO AWACS held up by Luxembourg 2/8, p. 24
Egypt prepares to accept delivery of additional F-16s 2/15, p. 141
Airbus studying alternative delivery methods for A300/A310 aircraft to Libyan Arab Airlines to avoid problems from U.S. Libyan trade embargo 2/22, p. 31
Cuba takes delivery of Soviet Mi-24 Hind D attack helicopter 3/1, p. 16
Aerospatiale delivers first Dauphin SA 365N helicopter to China 3/1, p. 19
French air force takes delivery of first of new series of advanced Transall C-160s 3/1, p. 48
Defense Dept proposes F-5 sale to Saudis 3/8, p. 278

U.S. to sell 40 more F-16 fighters to Egypt 3/22, p. 26
Spain weighs fighter purchase decision between F/A-18 and F-16 3/22, p. 27
PC-7 delivery 4/12, p. 61
General aviation deliveries decrease in first quarter 4/19, p. 22
France, India complete mirage 2000 buy 4/26, p. 24
Beech Aircraft delivering replacement for C90 aircraft 4/26, p. 142
General aviation aircraft deliveries drop in April 5/17, p. 27
HARM Missile contracts awarded 5/17, p. 192
Small manufacturers see market gains 7/5, p. 69
Transamerica, Mexicana cancel Boeing orders 7/12, p. 32
Australian buy 7/19, p. 23
Boeing orders 7/19, p. 30
British to purchase new military equipment 7/26, p. 24
Aeromexico order 7/26, p. 31
Six-month deliveries sag almost 50% 8/9, p. 77
Boeing Vertol delivers Model 414 Chinook helicopters to Spain 8/9, p. 86
KIM negotiating with Airbus on A310 delivery delay 8/30, p. 24
United assessing safe harbor impact 9/6, p. 54
Delivery postponed 9/6, p. 56
Thai F-27 order 10/4, p. 28
F-16 Delivery 10/18, p. 15
Aircraft delivery 11/1, p. 18
Finnair orders three DC-9 Super 80 aircraft 11/15, p. 28

PAYLOAD
Payload bay excursion set for mission 5 5/3, p. 55
Payload integrator 5/24, p. 63
Payload tied to commercial drug goal 5/31, p. 51
Shuttle flight plan paced by payloads 6/7, p. 82
Defense infrared payload loaded in shuttle orbiter 6/14, p. 20
Defense payload lengthens countdown 6/14, p. 22
Payload incentives 6/21, p. 63
Shuttle mechanical system problem studied 7/5, p. 21
Martin studies shuttle aft cargo unit 7/12, p. 65
Payload specialists for shuttle selected 9/27, p. 23
USAF program urged as model for NASA 10/11, p. 27
Mission 5 insignia depicts payloads 10/18, p. 59
Change in Ariane's payload considered 10/18, p. 68
Device failure mars mission processing 11/1, p. 19

PEOPLE
Schmitt defeat forces chairman search 11/8, p. 22
Cannon defeated for reelection to Senate 11/8, p. 23

PERU
Peru seeks letter of offer on F-16s 8/2, p. 21

PILOT REPORTS
Flexibility is offered by XV-15 tilt-rotor concept 1/11, p. 74
Automatic landing system evaluated 7/5, p. 57
Boeing's new 767 eases crew workload 8/23, p. 41
Diamond 1 performance matches goals 9/6, p. 229
Apache to provide night/bad weather capability 9/13, p. 42
Swearingen boosts Metro performance 9/27, p. 35

PILOTS
Nationalist pilots aim training at countering aircraft of PRC 4/12, p. 46
Navy will seek extension of pilot continuation pay 4/19, p. 20
Pilot feedback, test data shaped F/A-18A software 4/26, p. 169
Belgian Air Force to restrict flying time 6/28, p. 23
Duty time changes drawing fire 7/5, p. 28
Carrier groups support duty time proposals 8/23, p. 35
GAO criticizes use by U.S. Navy or aviator retention incentives 8/30, p. 50
Pilot atmospheric report requirements to change 9/6, p. 56
British pilots assail flight time ruling 9/6, p. 193
Pilot seminars 9/27, p. 38
British Airways plans pilot cutbacks 10/11, p. 33
Navy air combat program gives fleet pilots realistic training 10/18, p. 34

POLAND
In reaction to imposition of martial law in Poland, Reagan suspends Aeroflot flights to U.S. and curbs exports of high technology materials to Soviet Union 1/4, p. 20
Aeroflot employees continue to man U.S. offices in hopes that airline will be allowed to resume service after Reagan's suspension because of Poland 1/11, p. 37
NATO allies' stand on Poland falls short of U.S. position 1/18, p. 20

POWERPLANTS
Alfa Romeo AR. 318
Italian company developing new turboprop powerplant 9/6, p. 184
Alfa Romeo Avio AR. 318
Italian company testing new engine 9/6, p. 221
Allison
Funding key to Vought TA-7C reengining 5/24, p. 23
Avco Lycoming
Engine certificate 4/26, p. 30
Avco tests ALF502 turbine blades 5/31, p. 14
CFM International
Capitol Airways contracts with Cammacorp to reengine DC-8s with CFM56 turbofan engines 1/18, p. 30
GE's joint venture with Snecma will limit offerings to CFM56-2 and CFM56-3 engines and not to an all-new engine for the 150-passenger transport that Delta wants developed 1/25, p. 36
CFM56-3 powerplant undergoing tests in U.S., France 6/28, p. 55
CFM56-2 changed to correct problems 11/1, p. 35
Europe
Multinational engine development talks slowed 11/8, p. 42
European
Engine developers poised for recovery 9/6, p. 157
Fiat FA 150-Argo
Fiat developing power unit for small engine market 9/6, p. 180
France
France developing new cryogenic Vega engine for Ariane 2/15, p. 139
Garrett
Garrett testing new alloy of aluminum 1/25, p. 67
Engineers install ATF3-6 turbofan engine on Dassault-Breguet Falcon 20 testbed 2/1, p. 67
Garrett adopts modular manufacturing concept and new production techniques for turbine engines 2/1, p. 67
Garrett TFE76 turbofan tested 2/1, p. 68
Garrett APU 4/19, p. 19
Derivative turboprop 5/24, p. 23
Garrett TPE331
Engine maintenance 7/5, p. 75
General
Sweden evaluates powerplant proposals for JAS fighter 1/25, p. 24
USAF to evaluate Northrop turbine engine monitoring system (TEMS) on a squadron of A-10s 2/15, p. 140
Digital electronic engine control developed for Pratt & Whitney PW2037 aids engine management, fuel economy 2/22, p. 77
New Pratt & Whitney facility to test turbine fatigue 3/1, p. 44
Propulsion's grip on the future 6/28, p. 15
Engine research, development intensifies 6/28, p. 44
Powerplants of next century studied 6/28, p. 48
Military seeking advanced powerplant 6/28, p. 61
Airframe makers eye new turboprops 6/28, p. 73
Congress' support aids propfan work 6/28, p. 88
Commuter engine efforts aimed at cost cuts 6/28, p. 111
Engine makers improving core sections 6/28, p. 121
Ion propulsion engine tests scheduled 6/28, p. 144
Joint efforts spurring rotary engine advances 6/28, p. 181
Funding decrease raises concern over ramjet propulsion future 6/28, p. 190
Rolls stressing current engine updates 6/28, p. 204
Shift seen to digital electronic control 6/28, p. 221
Marketing rises for reengining, upgrades 7/26, p. 101
Defense Dept. undertakes multiyear ramjet effort 8/16, p. 52
U.S. engine parts exports rise in first quarter 8/23, p. 22
Engine makers stress research effort 10/25, p. 59
General Electric
Flight tests of CF6-80C to be conducted on A300 1/11, p. 33
GE's joint venture with Snecma will limit offerings to CFM56-2 and CFM56-3 engines and will not develop an all-new engine for 150-passenger transport that Delta wants developed 1/25, p. 36
Snecma seeks larger role in GE CFM56 engine project for A320 1/25, p. 36
General Electric CF6-50E engines for E-4s undergo modification 2/22, p. 77
GE inspecting CF6-50 disk fragments 4/5, p. 33
GE tests find inspection missed CF6 disk crack 4/12, p. 34
General Electric testing F404 derivative engine 4/12, p. 59
GE tests supersonic-cruise engine design (GE29) 5/31, p. 15
Company completes composite Nacelle/Reverser tests 6/28, p. 159
General electric CF6-50 engine operates 10,700 hr. without removal 9/6, p. 183
CT7 turboprop test flights begin 9/20, p. 21
Modification design started for TF39-1C 10/18, p. 19
General Electric testing CT7 turboprop powerplant on Gulfstream aircraft 10/18, p. 67
F101 powerplant fit-checked on F-14A fighter 10/25, p. 27
F101 powered General Dynamics F-16XL makes first flight 11/8, p. 16
General Electric/Snecma
U.S. approves CFM56 export to China 5/17, p. 32
General Electric/Snecma CFM56
Starter problems delay CFM56-equipped DC-8s 7/26, p. 32
General Electric/Snecma CFM56-2
Improving current engines draws added resources 6/28, p. 170
General Electric/Snecma CFM56-2B-1
Modified KC-135 rolls out with updated turbofans 6/28, p. 28
MTU Larzac 04C6
New engine being developed for Alpha jet 6/28, p. 115
MTU/Turbomeca MTM 385-1
French, Germans developing new engine 6/28, p. 100
Microturbo TRI 60
Microturbo expands line of turbojet powerplants 6/28, p. 93
Microturbo TRI 80
Microturbo expands line of turbojet powerplants 6/28, p. 93
Microturbo TRS 18
Microturbo expands line of turbojet powerplants 6/28, p. 93

Noel Penny NPT-301
British company manufacturing range of small turbine engines 6/28, p. 136
Pratt & Whitney
Initial PW2037 engine test completed 1/25, p. 48
PW2037 powerplant specifications 1/25, p. 48
PW2037 development engine for Boeing 757 shown 1/25, p. 49
Advanced F100 powerplant program delayed by damage 2/1, p. 28
Digital electronic engine control developed for Pratt & Whitney PW2037 aids engine management, fuel economy 2/22, p. 77
Anglo-Japanese RJ500 engine prototype tested 3/1, p. 31
New Pratt & Whitney facility to test turbine fatigue 3/1, p. 44
First Rolls-Royce and Japanese Aero Engine, Ltd. RJ-500-01 engine moved into test cell at Rolls-Royce facility 3/15, p. 50
RJ-500 engine prototype evaluated by Japanese 3/15, p. 50
Funding key to Vought TA-7C reengining 5/24, p. 23
Air Force intending dual engine purchase 5/31, p. 14
Larger commuter under study 5/31, p. 25
PW100 turboprop mounted on Vickers Viscount testbed 6/21, p. 37
Single-crystal blades produce gains in durability 6/28, p. 158
Engine specific fuel consumption reduced 4% 6/28, p. 176
Noise controlled facility services F-16 engines 7/12, p. 57
New consoles aid engine development 7/19, p. 144
Boeing 727 reengining program halted 11/8, p. 29
Northwest Airlines using DC-10s powered by JT9D-59A powerplants 11/8, p. 167
Pratt & Whitney of Canada PT6B-36
Sikorsky to offer higher-powered S-76 11/8, p. 19
RPM Thunder
Liquid-cooled, aluminum alloy engine undergoes flight tests 6/21, p. 60
Rolls-Royce
Final assembly line for RB.211 engines 1/25, p. 42
Rolls-Royce discussing new version of RB.211-535 1/25, p. 42
Wide-chord fan developed for use on RB211-535E4 and RB.211-535F4 shown 1/25, p. 45
Rolls-Royce seeks U.S. partner for new 150-seat transport powerplant 2/22, p. 30
Rolls-Royce commissions engine test cells for RB.211 5/31, p. 71
New engine studied for Gulfstream 4 8/23, p. 67
Scuttling of L-1011 may cost Rolls revenue of $450 million 9/13, p. 96
Snecma
Snecma seeks larger role in GE CFM56 engine project for A320 1/25, p. 36
Snecma Atar 9C
Belgian Mirage 5B engine problems studied 5/10, p. 22
Snecma M88
Snecma continues M88 engine work 6/28, p. 187
Sweden
Sweden evaluates powerplant proposals for JAS fighter 1/25, p. 24
Turbo-Union RB.199.-34R Mk. 101
Turbo-union improving RB.199 for retrofit on combat aircraft 9/6, p. 174
Turbomach Quick Start APU System
Auxiliary units power light aircraft 6/28, p. 161
APU for reengined KC-135 tested 6/28, p. 164
Turbomeca TM333
French display helicopter engine model 4/26, p. 146
Turbomeca designs new turboshaft 6/28, p. 71
Turboprop
Reliability spurs single turboprop use 4/19, p. 76
Williams F107-WR-103
Subsonic cruise missile engine needed 6/28, p. 201
Williams International
Wasp pilot training begins 5/31, p. 66

PROCUREMENT
See UNITED STATES GOVERNMENT, OMB

PROJECTS
AWACS
Delivery of NATO AWACS held up by Luxembourg 2/8, p. 24
Assault Breaker
Boeing Aerospace Pave Mover concept for Assault Breaker program depicted 1/25, p. 69
Skeet "smart" antitank submunition developed for Assault Breaker program controlled by microprocessors 3/22, p. 66
Cobra Judy
Cobra Judy radar turret presents distinctive profile 3/8, p. 231
High Frontier
New multilayer ballistic missile defense concept proposed by Heritage Foundation's High Frontier study 3/8, p. 269
Pave Mover
Boeing Aerospace Pave Mover concept for Assault Breaker program depicted 1/25, p. 69
Tank Breaker
Wind tunnel model of Hughes Tank Breaker man-carried antitank missile 3/8, p. 37
Viking
Storm on Mars imaged in timed sequence from Viking 1 3/8, p. 82
Voyager
More satellites of Saturn detected by Voyager 2 imagery 2/8, p. 24
Jet propulsion laboratory attempts to revive Venus Orbiting Imaging Radar (VOIR) program with new program called Venus Mapper 3/15, p. 18

PROPULSION
Unied Technologies developing propulsion system for tactical missiles 3/8, p. 45
First large solid rocket motor for USAF/Boeing IUS flight vehicle shipped by United Technologies to Kennedy Space Center 3/22, p. 21
Thiokol developing space motor for programs such as IUS 3/22, p. 53
Spacecraft propulsion systems discussed 9/6, p. 51

RADAR
USAF to award contract for construction of a new phased array to impede radar failures 1/4, p. 60
Low Blow missile control radar antenna emplaced on top of bunkers in Egypt 1/11, p. 49
Soviet-built F radar system used with SA-2 missile system shown in Egypt 1/25, p. 64
Egyptian Straight Flush radar 2/1, cover
Low-cost ABM radar given emphasis by Army's Ballistic Missile Defense Program Office 3/1, p. 74
Cobra Judy radar turret presents distinctive profile 3/8, p. 231
APG-66 fire control radar tested in flight on F-16 3/22, p. 21
Mapping radar offers high resolution images 4/26, p. 42
Falklands reconnaissance improved by Soviet Union 5/24, p. 20
Airship studied for maritime patrol use 5/24, p. 71
Air Force prepares new aerostat for launch 6/14, p. 94

USAFE upgrades air control facility 6/14, p. 97
Wild Weasel aircraft being upgraded 6/14, p. 115
Helicopter AEW 6/21, p. 20
GAO urges suspension of radar warning work 6/21, p. 24
GAO finds ARTS outrages infrequent 6/21, p. 35
Techniques improve terrain avoidance 7/12, p. 73
Soviet tracking ships fitted with monopulse radar 7/19, p. 44
Pave Mover surveillance radar tested on F-111 7/19, p. 141
Studies envision 'common core' radar 7/19, p. 141
Images from space reshape NASA plans 8/2, p. 17
Germans install Hughes antenna for civil, military functions 8/9, p. 102
Tornado radar contract 8/9, p. 105
Backscatter radar unit enters production phase 8/16, p. 68
Tornado contracts insured by government 8/23, p. 24
General Electric developing multimode radar for F-5G 8/23, p. 73
Cossor develops secondary surveillance radar antenna 9/6, p. 212
Radar system 9/6, p. 263
Orion avionics systems being updated 9/13, p. 101
New weather code plan draws broad opposition 10/18, p. 26
Battlefield radar competition widens 10/18, p. 70
NATO awards surveillance radar contract 10/18, p. 72
Ariane radar bid 10/25, p. 69
Technology effort lays advanced radar base 11/15, p. 56

RADIATION
Evaluation of radiation hardening techniques used on military satellites conducted by Defense Nuclear Agency 3/15, p. 71
Radiation hardening in military satellite electronic equipment found effective 3/15, p. 71

RECONNAISSANCE
Soviet military reconnaissance satellite missions accelerate 5/3, p. 22
Falklands reconnaissance improved by Soviet Union 5/24, p. 20
Soviets again boost Falklands reconnaissance 5/31, p. 20
Military assistance 6/14, p. 87
Military assistance 6/14, p. 89
Surveillance integration pivotal in Israeli successes 7/5, p. 16
Need seen for tactical reconnaissance aircraft 7/26, p. 24
Light observation aircraft planned 8/9, p. 77
Chinese space flight 9/20, p. 18
Soviets launch five spacecraft 9/20, p. 18

REMOTE MANIPULATORS
Manipulator arms perform smoothly 3/29, p. 17
Spar Aerospace, Ltd. manipulator arm 4/5, p. 45
Manipulator arm science operations 4/[illegible], p. 71
Manipulator arm testing near goal 4/12, p. 81
Astronaut shown operating manipulator 4/26, p. 171
Manipulator arm used to exchange telescope sensors 8/16, p. 57

RESCUE
Soviet spacecraft aids rescue of Canadian air crash victims 9/20, p. 26

RESEARCH PROGRAMS
Grumman wins contract from DARPA to build X-29A forward-swept-wing fighter 1/4, p. 19
USAF studies use of sunlight as power source for advanced space propulsion system 1/11, p. 93
Livermore Laboratory to boost research on nuclear weapons 2/22, p. 56
Lockheed awarded contract for space-based laser system in Talon Gold DARPA program 3/8, p. 226
Southwest Research Institute developing new medical facility 10/25, p. 75

ROBOTICS
Robotic spraying examined in external tank applications 8/2, p. 52
Boeing approaching use of robots cautiously 8/2, p. 53
USAF installs blade inspection system 8/2, p. 63
Inspection aid 8/2, p. 65
Circuit board assembly plant to test systems 8/2, p. 66
Grumman reduces sheet fabrication costs 8/2, p. 74
Robots enhance drilling productivity 8/2, p. 77
Automatic spray painting device in operation at Fairchild Republic 8/2, p. 78
New methods create composite parts 8/2, p. 80
Robots to fill worker shortage 8/2, p. 80
Airframe makers utilize new composite methods 8/2, p. 84
Japanese production runs limit robotic investment 8/2, p. 91
British Aerospace installs new drilling, fastening equipment 8/2, p. 93
Introduction of robotics gains European usage 8/2, p. 94
Rolls-Royce to use robot-aided production line 8/2, p. 94

ROCKET MOTORS
Early APU shutdown affects No. 3 engine 3/29, p. 18
Shuttle booster in good condition 4/5, p. 47
Solid-staged combustion demonstrated 4/12, p. 99
Company seeking higher performance in solid rocket booster 5/17, p. 147
Company testing ducted rocket engine 5/24, p. 55
Contract awarded 5/31, p. 57
Composites evaluated for use in rocket motor 5/31, p. 75
Hercules to build cases for solid rocket motors 6/7, p. 20
Axial engine cut-away 6/28, p. 139
Shuttle engine power boost studied 6/28, p. 152
Spacecraft propulsion systems discussed 9/6, p. 51
Shuttle's Main Engines Receive Leak Checks after Full Firings 10/18, p. 16
Pump replacement 10/25, p. 20
Performance of solids revised downward 11/15, p. 21

RULES, REGULATIONS, POLICIES, STANDARDS
New entrant airlines complain that FAA regulations issued since controllers strike exceed level of regulation prior to deregulation 1/25, p. 28

SAFETY
Senate committee approved liability protocols for new system for passenger compensation in the event of accident 1/18, p. 28
JAL safety rules 4/5, p. 72
Pilot training scrutinized in Lear crash 5/24, p. 21

Accident Prevention
FAA directs operators to modify DC-10 slats 2/1, p. 32
NTSB urges FAA action with recommendations for 737 operations 2/8, p. 29
New foam, Vonar 3, aids fire evacuation time 3/1, p. 76
New simulators providing safety gains 3/8, p. 225
FAA directive prohibits flights of Fairchild Swearingen Metro 3 and Merlin 3C and 4C in icing conditions 3/22, p. 56
GE tests find inspection missed CF6 disk crack 4/12, p. 34
CF6-50 directive accelerates inspections 4/19, p. 30
Homes posing Vandenberg constraints 4/26, p. 20
Human factors study 4/26, p. 27
NTSB urges recorder improvements 7/19, p. 33
Insurance clouds Alaska plan 7/26, p. 28
House units scrutinize safety 8/16, p. 27
IFFC system tested against moving target 8/30, p. 17
Midair frequency cited 9/6, p. 77
Altimeter survey 9/20, p. 115
FAA proposes safety rule changes 9/27, p. 31
Some helicopters returning to service 10/4, p. 26
Airlines evaluate airborne detection of wind shears 10/11, p. 49
USAF studying techniques to restore windshields 11/15, p. 84
FAA alters its collision avoidance plan 11/15, p. 95
T/CAS spots approach missed by ATC 11/15, p. 98
Air Canada kits 11/29, p. 41
Suit seeks airline carriage of emergency medical gear 11/29, p. 41

Accident Reports
New Zealand court intervenes in investigation of Air New Zealand DC-10 crash in Antarctica in 1979 1/4, p. 31
Switch malfunction cited in flight attendant's death in World Airways DC-10 galley elevator 1/18, p. 31
NTSB evaluates recorder data in Air Florida 737 crash in Washington, D.C. 1/25, p. 30
NTSB focusing on condition of runway in its investigation of World Airways DC-10 accident at Logan Airport 2/1, p. 30
NTSB initial analysis of voice and flight recorders recovered from Air Florida 737 crash indicate weather factor as cause 2/1, p. 31
NTSB investigation into reason for World Airways DC-10 accident at Logan narrows to pilot's actions and runway conditions 2/8, p. 27
Air Force, Navy accident rate to improve 2/15, p. 143
Rate of civil aircraft accidents rise 2/15, p. 143
JAL DC-8-61 crash in Tokyo Bay investigation focuses on pilot 2/22, p. 32
Air Florida 737 voice recorder transcribed 2/22, p. 81
Pilot focus continues in interim report of crash of Japan Air Lines DC-8 in Tokyo Bay 3/1, p. 30
NTSB hearings on Air Florida 737 crash focuses on three areas 3/15, p. 30
NASA investigating the death of Goddard Space Flight Center contractor employee 3/22, p. 26
Military accident rates improve in 1981 3/22, p. 73
Thunderbird crash laid to control jam 4/5, p. 26
Thrust reduction cited in 727 accident 4/5, p. 66
NTSB findings in crash of 727 4/12, p. 117
Pilot training scrutinized in Lear crash 5/24, p. 21
Pan Am cockpit tape examined by NTSB 9/6, p. 288
Navy studies EA-6B crash on Nimitz 9/13, p. 113
Navy cites reasons for EA-6B accident 9/20, p. 133
Crew decisions cited in crash of 737 9/27, p. 78
Factors in Air Florida 737 crash cited 10/4, p. 65
NTSB report raises 737 crash issues 10/18, p. 73
NTSB focuses on deicing procedures 10/25, p. 74
NTSB investigates runway conditions 11/1, p. 92
Safety board issues recommendations 11/22, p. 85

Accidents
Air Florida 737 crashed into northbound span of 14th St. Bridge in Washington, D.C. after takeoff from Washington National 1/18, p. 28
NTSB seeks cause in crash of Air Florida 737 in Washington, D.C. 1/18, p. 28
Four members of Air Force Thunderbirds aerobatic team killed in crash of Northrop T-38 trainers 1/25, p. 22
NTSB evaluates recorder data in Air Florida 737 crash in Washington, D.C. 1/25, p. 30
Tail section of Air Florida 737-200 which crashed into Washington's 14th St. Bridge removed from the Potomac 1/25, p. 30
Weight limitations of Bell 206L-1 helicopter affects rescue capability at crash of Air Florida 737 1/25, p. 31
Cockpit section broke from fuselage of World Airways DC-10 when aircraft overran Logan Airport's runway 2/1, p. 30
F-111D fighter crashes near Woodlin, Calif. during check flight 2/8, p. 22
United Airlines DC-10 overruns runway at Philadelphia International Airport after takeoff abort 2/8, p. 29
Japan Air Lines DC-8 crashes into Tokyo Bay 2/15, p. 32
Pilgrim Airlines de Havilland of Canada DHC-6 Twin Otter crash lands on frozen reservoir in Rhode Island 3/1, p. 32
Soviet aerospace manufacturing facility severely damaged by fire 3/22, p. 19
Military accident rates improve in 1981 3/22, p. 73
Accidents involving AV-8A Harriers operated by Marines cut number of operable aircraft from 110 to 68 3/22, p. 75
FAA restricts certain 210s from IFR flight operations 3/29, p. 22
Two accidents spark hearings on icy, wet runway operations 4/5, p. 66
Foreign material cited in DC-10 incident 4/12, p. 34
Trident crash 5/3, p. 26
USAF reports on Thunderbird crash 5/17, p. 195
Anti-skid fix 5/24, p. 32
Free Enterprise crash 7/12, p. 29
Cargo hold fire cited in Saudia accident 7/12, p. 40
Weather conditions draw focus in Pan Am crash 7/19, p. 32
NTSB says Pan Am crew knew of wind shear 7/26, p. 28
Eruption imaged by NOAA spacecraft 7/26, p. 29
MTSB hearing on 727 crash expected to focus on weather 8/2, p. 32
EA-6B crash on Nimitz attributed to pilot error 8/16, p. 22
NTSB 737 crash conclusions cite passenger rescue efforts 8/16, p. 30
NTSB finds crew error in 737 crash 8/16, p. 30
NTSB disputed 8/16, p. 31
Investigator finds 727's maintenance proper 9/20, p. 30
NTSB hears testimony on Pan Am 727 crash 9/20, p. 30
Controller says no windshear alert given 9/20, p. 31
Crash investigation 9/20, p. 36
NTSB team 9/20, p. 36
Spantax DC-10 crashes after takeoff 9/20, p. 36
Nose gear tire focus of DC-10 inquiry 10/4, p. 33
Thrust reverser cited in Il-62 accident 10/18, p. 22
French government to pay collision damages 10/18, p. 26
FAA rejects findings 11/22, p. 32
Blue impulse crash 11/29, p. 27

SALT
U.S. to press MX deployment during START talks 6/14, p. 24

SATELLITES-INTERNATIONAL
Australia
Hughes satellites to serve Australia 5/31, p. 53
U.S. firm building Australian satellites 6/7, p. 91

Canada
Anik D1 launched 9/6, p. 53
Anik space shuttle payload prepared 10/18, p. 13
Two satellites placed in bay of Columbia 10/25, p. 21
Antenna configuration jeopardized Anik launch 11/22, p. 26
Satellites launched from Columbia shown before liftoff 11/22, p. 74
Crew photographs Mission 5 highlights 11/29, p. 16

Canada (Telsat F)
Canadian satellite to use new delta launch vehicle 4/26, p. 63

France
French marketing services of Spot satellite network 1/11, p. 98
France's Spot earth observation satellite detailed in exploded view of the spacecraft 1/11, p. 99
Simplified drawing of Spot shows general configuration of France's new earth observation satellite 1/11, p. 102

France (Sigma)
French Satellite 9/6, p. 47

India
Indian Bhaskara 2 launched on Soviet booster 1/11, p. 103
Three Indian satellites orbited 4/12, p. 24
Indian Insat spacecraft testing bipropellant propulsion system 6/28, p. 149
Insat satellite deactivated after fuel depletion 9/13, p. 30
Ford modifying Indian Insat-1B satellite 11/22, p. 80

Japan
Japan space effort moves into operational phase 3/8, p. 107
Japan's space launch schedule for the 1980s 3/8, p. 110

Mexico
Mexican Satcom 6/21, p. 63
Hughes receives Mexican satellite contract 10/18, p. 19

USSR
Soviets launch communications and reconnaissance satellites 1/4, p. 20
Soviets slow space launch rate during last two months 1/18, p. 22
Swedish student photographs Soviet launch of Meteor 2 weather satellite 1/18, p. 46
Soviets launch atmospheric data payload designated Vertical 10 from Kapustin Yar 1/18, p. 51
Soviet shuttle program integral to orbital station, new space mission listed 3/1, p. 24
Soviet Venera 13 lander transmits data from Venus 3/8, p. 266
Two-spacecraft Venus, Halley mission planned by USSR 3/8, p. 278
A Soviet planetary payoff 3/15, p. 9
Venera 14 is improved version of Venera 9 and 10 3/15, p. 17
Venera 14 second landing on Venus samples lowland region 3/15, p. 17
Soviet military reconnaissance satellite missions accelerate 5/3, p. 22
Soviets launch another surveillance satellite 5/10, p. 24
Soviets again boost Falklands reconnaissance 5/31, p. 20
Soviets again boost Falklands reconnaissance 5/31, p. 20
Soviets launch ocean surveillance satellites Cosmos 1,372 and Cosmos 1,378 6/7, p. 16
Soviets launch antisatellite targetlike vehicle 6/14, p. 19
Soviet satellites designed to carry bigger payloads 8/9, p. 53
Cosmos system 8/16, p. 17
Soviets plan navigation system similar to Navstar 8/30, p. 12
NASA receives signals from Cosmos 1,383 10/11, p. 85
Soviets orbit three satellites to start Navstar-like project 10/18, p. 15
Soviet launch demonstrates innovation 10/25, p. 22

SATELLITES-INTERNATIONAL-CONSORTIUM

Arabsat
State Dept. notifies Congress of its intention to license the sale of commercial satellite equipment for Arabsat 2/1, p. 27

C-Ban Communications Satellite
Embratel negotiates with spar on satellites 5/17, p. 23

Chinese TV Satellite
China abandons joint satellite program 6/14, p. 94
China abandons joint satellite program 6/14, p. 94

Communications
Communications satellite 10/25, p. 23

Cosmos 1,383
Soviet spacecraft aids rescue of Canadian air crash victims 9/20, p. 26

ECS-1
Ariane first flight slips to September 5/24, p. 22

ESA Remote Sensing
ESA developing remote sensing satellite 3/8, p. 101

EXOSAT
Ariane first flight slips to September 5/24, p. 22

Eutelsat
Intelsat viewed as threat to Eutelsat's operations 10/25, p. 25

General
Fast launch rate planned to meet Ariane contracts 6/21, p. 66

Giotto
General configuration of ESA's Giotto spacecraft for Halley's Comet mission shown 2/15, p. 133

Inmarsat
Maritime satellite communications capacity expected to double 2/15, p. 132
Spacecraft, deployment for maritime communications designed by Inmarsat 2/15, p. 132
Inmarsat adds contract stipulations 11/15, p. 25
Inmarsat plans aircraft communication 11/15, p. 79

Insat
U.S. to launch Insat satellite for India 4/5, p. 56

Intelsat
Negotiations begin with Hughes on construction of series of Intelsat 6 communications satellites 2/22, p. 20
Intelsat 6 spacecraft designed by Hughes shown in diagram 2/22, p. 21
Intelsat viewed as threat to Eutelsat's operations 10/25, p. 25
Intelsat studies monopoly alternatives 11/22, p. 70

L-Sat
ESA approves L-Sat program and awads $285-million contract to British Aerospace for first satellite 1/4, p. 23

Marecs
Launch and orbital flight path for Marecs A communications satellite, payload on Ariane, depicted 1/4, p. 52
Payload for fourth Ariane consisted of Marecs A communications satellite 1/4, p. 53
Maritime space communications capacity expected to double 2/15, p. 132

Marecs-B
Ariane first flight slips to September 5/24, p. 22

Polo
Europe considers restarting lunar program Polo (polar orbiting lunar observatory) 3/8, p. 93

Sirio
Ariane launcher will carry European weather satellite Sirio 2 3/22, p. 54
Ariane first flight slips to September 5/24, p. 22

Solar-Polar
ESA seeks assurance of continuation of U.S. commitments to Solar-Polar mission 2/15, p. 135

Spot Earth
Group created to market Spot satellite data 7/12, p. 26

TDF-1
China abandons joint satellite program 6/14, p. 94
China abandons joint satellite program 6/14, p. 94

TV-Sat
China abandons joint satellite program 6/14, p. 94
China abandons joint satellite program 6/14, p. 94

SATELLITES-U.S.

Anik-C
Deployment of satellite to test untried procedures 10/4, p. 40

Antisatellites
Launch pylon designed to mate antisatellite system with F-15 tested 1/18, p. 19
USAF antisatellite weapon model is trucked to F-15 at Boeing Developmental Center 1/18, p. 19
Operations of U.S. antisatellite weapon squadrons designed for space defense advance 2/8, p. 21
ASAT fitted to F-15 at Boeing facility 2/8, p. 23
Antisatellite weapon test planned this year 5/3, p. 14
Antisatellite weapon tested 5/17, p. 19

Ball Aerospace
Ball Aerospace earth radiation budget spacecraft shown in photo 2/22, p. 69
Small spacecraft studied by Ball Aerospace for early warning role 2/22, p. 69

Block 5D-2
Block 5D-2 meteorological satellite prepared for launch 9/20, p. 123

Commercial
Westar 5 satellite placed in orbit 6/14, p. 22
Commercial questions 6/14, p. 88
Business communications market eyed 6/21, p. 63
SBS authorization 10/4, p. 27
Satellite Servicing Firm 10/18, p. 15
American satellite credit 10/18, p. 56
Commercial booster, satellite projects expanding 10/25, p. 22
Contract on pay-TV satellite awarded 11/1, p. 17
SBS plans residential long-distance service 11/15, p. 23
Commercial rivalry with ESA growing 11/22, p. 24
Satellites launched from Columbia shown before liftoff 11/22, p. 74
Comsat general to offer launch support 11/29, p. 26
FAA authorizes construction of seven broadcast systems 11/29, p. 77

Communications
NASA preparing request for proposal on advanced communications satellite 9/13, p. 91

DMSP
Initial DMSP Defense Meteorological Satellite Program Block 5D-2 delivered to USAF at Vandenberg AFB 3/15, p. 15
Marines receive weather satellite terminal 5/10, p. 41

DSCS
New satellite systems designed for survivability 3/8, p. 82
Titan 34D readied for October launch 10/4, p. 19
Titan 34D orbits two defense relay satellites 11/8, p. 24

Early Warning
Small spacecraft studied by Ball Aerospace for early warning role 2/22, p. 69

Earth Resources Satellite
Firm develops earth resources system 10/25, p. 23

FleetSatCom
TRW receives USAF contract for FleetSatCom 2/8, p. 22
New satellite systems designed for survivability 3/8, p. 82

Galileo
Galileo probe model undergoing tests 1/11, p. 98

General
New satellite systems designed for survivability 3/8, p. 82
U.S. facing competition for satellite positions 3/8, p. 103
Evaluation of radiation hardening techniques used on military satellites conducted by Defense Nuclear Agency 3/15, p. 71
USAF weighs in-orbit storage of satellites 6/7, p. 19
Scientists track Mexican volcano ash 6/7, p. 87
Receiving station automates data reception 8/23, p. 62
Advisory unit urges that U.S. fund remote sensing to 1995 11/29, p. 26

Geosat
Geosat data to aid Trident 2 accuracy 7/19, p. 26

Insat-1A
Insat-1A controllers work to deploy reactor 4/19, p. 24
Insat 1A satellite tested in orbit 5/10, p. 21

Intelsat 5
Intelsat 5 flight model 5 tested 5/10, p. 42
Intelsat 5 readied for orbital tests 10/11, p. 27

Intelsat 6
More capacity expected from Intelsat 6 satellite 5/3, p. 59

Landsat
Space-derived data of Landsat, Heat Capacity Mapping Mission (HCMM) spacecraft combined 2/8, p. 38
China purchasing Landsat ground station 3/15, p. 16
Civil use of military space data eyed 3/29, p. 22
Landsat: public or private? 4/5, p. 11
Commercial questions 6/14, p. 88
Military assistance 6/14, p. 89
Price rise scheduled for Landsat data 7/5, p. 46

Landsat D
Thematic mapper prepared for launch 5/3, p. 56
Landsat D data flow offers challenge 6/14, p. 87
General Electric heads Landsat D contractors 7/5, p. 48
Landsat launch delay 7/12, p. 18

Marisat
Maritime space communications capacity expected to double 2/15, p. 132

Mesa
Boeing awarded contract for study of spacecraft 8/16, p. 16

Milstar
New satellite systems designed for survivability 3/8, p. 82
Milstar Satellite 4/19, p. 20

Milstar
GE drops out of primary Milstar bidding 8/30, p. 56

NOAA
Marines receive weather satellite terminal 5/10, p. 41

Navstar
Navstar global positioning system program officials considering earlier launch date than first planned 1/11, p. 24
Soviets plan navigation system similar to Navstar 8/30, p. 12

Navstar Block 2
Design review of Navstar Block 2 completed 6/7, p. 88

RCA Advanced Satcom
Advanced Satcom to double capacity 10/25, p. 55

SBS
Satellite Business Systems reaches agreement with Great Britain to link its network to the U.K. 1/25, p. 65

SBS-3
Deployment of satellite to test untried procedures 10/4, p. 40
Two satellites placed in bay of Columbia 10/25, p. 21

Satcom
Satcom 4 nears orbital position 1/25, p. 20

Solar Max
Astronaut flying Martin Marietta's manned maneuvering unit shown traveling between the shuttle orbiter and Solar Max to effect repair 1/18, p. 38
Plans proceed for in-orbit repair of Solar Max spacecraft 1/18, p. 38
Astronaut Navy Capt. Bruce McCandless with "flying grapple" used to dock with Solar Max for repair in orbit 1/18, p. 39
Astronaut USAF Capt Jerry Ross flies Martin Marietta space operations simulator practicing for repair of Solar Max 1/18, p. 41
Drawing illustrates how astronaut could dock to Solar Max using solar panel attachment clamps 1/18, p. 41
Repair of Solar Max spacecraft's coronograph main electronics box practiced by astronaut McCandless 1/18, p. 47
Simulated multimission spacecraft docking practiced for repair of Solar Max 1/18, p. 47
House unit argues canceling Solar Max repair 3/22, p. 20

Solar Mesosphere
Ball Aerospace Solar Mesosphere design 2/22, p. 73

Spot Earth
Spot satellite marketing pushed 9/6, p. 53

TDRSS
Data relay system made ready for January launch 7/12, p. 67
Tracking, data relay plans nearing collapse; shift sought 11/8, p. 16

Westar
Westar launched Mar. 1 3/15, p. 68

Westar 5
Westar 5 satellite placed in orbit 6/14, p. 22

SATURN
More satellites of Saturn detected by Voyager 2 imagery 2/8, p. 24

SAUDI ARABIA
U.S., Italian firms to build test facilities in Saudi Arabia 10/11, p. 121

SCANNING AND TRACKING
Soviet racking ships fitted with monopulse radar 7/19, p. 44

SEMICONDUCTORS
Industry plans semiconductor efforts 5/17, p. 181

SENSORS
Air Force Space Div. to recommend that space infrared experiment (SIRE) sensor be deployed on free-flying satellite and not in cargo bay of shuttle as planned 2/1, p. 23
Civil thermal imaging system developed 3/29, p. 52
Sensor monitors aircraft's systems 5/3, p. 67
Runway surface sensors draw divergent testimony 5/10, p. 28
Air Force modernizing command, control units 6/7, p. 80
Ion propulsion engine tests scheduled 6/28, p. 144
Sensor displays low helicopter speeds 7/5, p. 74
Runway surface sensor use expands 11/8, p. 175
Advisory unit urges that U.S. fund remote sensing to 1995 11/29, p. 26

SIMULATORS AND TRAINERS
Navy defines requirements for new trainer 1/18, p. 22
Singer Co. Link Div. tactical simulator uses laser imagery 1/18, p. 67
Flight training simulator use broadened at Army facility at Ft. Rucker 1/18, p. 68
Navy awards contract to Bell Helicopter Textron for 55 advanced instrument trainers designated TH-57 1/18, p. 71
Fairchild next-generation trainer in flight test 1/25, cover
Four members of Air Force Thunderbirds aerobatic team killed in crash of Northrop T-38 trainers 1/25, p. 22
Ensign Aircraft Co.'s EA-12 trainer design is one of five competitors in USAF NGT bidding 1/25, p. 23
Advanced flight simulation techniques in use at USAF test center 1/25, p. 81
Six-degree-of-freedom motion base simulator expected to be operational by May at Air Force Flight Test Center 1/25, p. 81
New aircraft simulators show trend toward being training systems rather than simply duplicating performance of aircraft and its surroundings 2/1, p. 77
Sperry develops operational simulators, training devices 2/1, p. 78
Sperry's most recent Grumman A-6E operational flight trainer destined for service at Marine Corps Air Station at Cherry Point, N.C. 2/1, p. 79
New microprocessor-based visual system for commercial flight simulators designed by Singer Co.'s Link Div. 2/8, p. 75
Typical airport landing approach scene created by new Image 2 visual system developed by Singer Co.'s Link Div. for commercial flight simulators 2/8, p. 75
Sperry develops flight management system trainer for digital cockpits 2/15, p. 156
New simulators providing safety gains 3/8, p. 225
Sales booked for Alpha Jet trainer 3/15, p. 52
Martin Marietta expands effort on shuttle simulation services 3/22, p. 52
Boeing alters approach to new aircraft 5/31, p. 40
FAA approves training by simulator 8/16, p. 60
Simulator buyers utilize FAA criteria 9/6, p. 210
Combat training 9/13, p. 63
Marines to test combat simulation programs 9/20, p. 127
Control stressed in trainer production 10/18, p. 63
French Defense ministry selects contractor for air combat simulator 10/25, p. 64
AV-8B simulator designed for combat missions 11/1, p. 86
Chinook simulator receives British certification 11/22, p. 81

SPACE IMAGERY
Space-derived data of Landsat, Heat Capacity Mapping Mission spacecraft (HCMM) combined 2/8, p. 38

SPACE SHUTTLE
Kennedy Space Center may supplement Vandenberg shuttle plan 1/4, p. 22
Investment firm subsidiary Space Transportation Co. considers private purchase of space shuttle orbiter 1/4, p. 23
NASA finds water damage on orbiter Columbia tiles 1/4, p. 24
Space Transportation Co. sets down-payment for purchase of fifth space shuttle orbiter 1/18, p. 20
Shuttle managers shift to operational focus 1/25, p. 22
Fuel cell malfunction that forced early termination of second shuttle flight could have been detected during countdown 1/25, p. 65
Greater defense shuttle role urged by DARPA 2/1, p. 22
Preparation for third launch continues 2/1, p. 22
Air Force Space Div. to recommend that space infrared experiment (SIRE) sensor be deployed on free-flying satellite and not in cargo bay of shuttle as planned 2/1, p. 23
Ball, Martin Marietta will vie for shuttle tether contract 2/8, p. 18
GTI Corp. and NASA to esign shuttle furnace 2/15, p. 137
Shuttle orbiter returned in advance of schedule 2/22, p. 20
NASA requests funds for development of lightweight structure for solid rocket booster for shuttle 2/22, p. 60
Martin Marietta stresses technology development for high-energy weapons and systems that will permit deployment of new facilities in space from shuttle 2/22, p. 66
Space shuttle orbiter training flights being expanded 2/22, p. 73
Space shuttle electron beam generator 3/1, cover
Manipulator, thermal tests pace shuttle mission 3 3/1, p. 50
OSS 1 Office of Space Science payload for the third space shuttle mission 3/1, p. 53
Payload to aid investigations of shuttle 3/1, p. 53

Plasma diagnostics package pulled away from payload by manipulator arm shown in photo 3/1, p. 54
Third flight to initiate materials processing 3/1, p. 58
Insignia of third mission 3/1, p. 59
Payload viewed from rear during checking 3/1, p. 60
Major elements of Office of space Science payload in diagram 3/1, p. 61
NASA/Spar Aerospace remote manipulator arm end effector near shuttle orbiter tail 3/8, p. 77
NASA studying shuttle-derived SRB-X launch vehicles 3/8, p. 81
Pharmaceutical processor developed by McDonnell Douglas Astronautics to be tested on shuttle 3/8, p. 85
NASA selecting contractor to produce filament-wound cases for space shuttle solid rocket boosters 3/8, p. 95
Space shuttle flight assignment schedule developed 3/8, p. 100
Collier Trophy awarded to the team that proved the concept of the reusable spacecraft and space shuttle system 3/8, p. 271
Bees, moths to fly on shuttle mission 3 3/15, p. 14
Scales record inaccurate shuttle weight 3/15, p. 14
First flight configuration space shuttle main engine for Orbiter 099 3/15, p. 15
Edwards lakebed runway ready for shuttle 3/15, p. 16
NASA acts to standardize shuttle launch procedure 3/15, p. 19
Drawings show various manipulator arm positions undertaken during one automatic arm sequence planned for third mission 3/15, p. 61
Payload tests challenge shuttle crew 3/15, p. 61
Diagram shows how manipulator arm will be positioned 3/15, p. 63
Western shuttle facilities at Vandenberg being improved 3/15, p. 63
Two views of plasma diagnostics package payload 3/15, p. 66
Construction at Kennedy Space Center aimed to support space shuttle launch schedule 3/15, p. 68
Choice of White Sands as primary landing site of shuttle mission 3 spurs massive ground support shifts 3/22, p. 24
Martin Marietta expands effort on shuttle simulation services 3/22, p. 52
NASA, Martin Marietta study weighs in-orbit tank inspection 3/22, p. 52
NASA drops astronaut backup crews and names prime crew astronauts 3/22, p. 55
Launch of space shuttle tests new options 3/29, p. 14
External tank 3/29, p. 17
Manipulator arm performs smoothly 3/29, p. 17
Shuttle coverage 3/29, p. 17
Early APU shutdown affects No. 3 engine 3/29, p. 18
NASA weighs advancing shuttle launches 3/29, p. 18
Crew activities shifted to reduce heavy tasks 3/29, p. 19
Electron beam generator fired 3/29, p. 19
Space shuttle completes its third mission 4/5, p. 16
Landing preparations 4/5, p. 18
Postponed landing lowers crowd size 4/5, p. 18
Shuttle coverage 4/5, p. 18
Flight test data gained on reentry of Columbia 4/5, p. 19
Kennedy Center deficiencies cited 4/5, p. 19
Harsh environment encountered on third flight of shuttle 4/5, p. 20
Shuttle recovery plans on schedule 4/5, p. 43
Northrup strip facilities constructed in 2.5 days 4/5, p. 45
Spar Aerospace, Ltd. manipulator arm 4/5, p. 45
Shuttle tile loss under investigation 4/5, p. 46
Shuttle booster in good condition 4/5, p. 47
Space shuttle orbiter Columbia climbs toward Earth orbit 4/5, p. 47
Processing begins at Kennedy for fourth mission of shuttle 4/12, p. 24
Shuttle experiment data lost in melt 4/12, p. 24
NASA experimenters studying data on reentry heating of orbiter Columbia 4/12, p. 68
Scientists liken shuttle flight to comet 4/12, p. 74
Duration Flexibility 4/12, p. 81
Shuttle engine fire to delay testing 4/19, p. 24
Kraft to leave Johnson Space Center 4/19, p. 25
NASA names three shuttle crews 4/26, p. 25
Third shuttle mission being assessed 4/26, p. 51
NASA plans to reorganize shuttle offices 4/26, p. 58
Shuttle system processing holds target date for fourth launch 5/3, p. 13
Payload bay excursion set for mission 5 5/3, p. 55
Orbiter glow in dark concerns NASA 5/10, p. 14
Defense moving to exploit space shuttle concept 5/10, p. 40
Television camera to be payload on ninth shuttle mission 5/10, p. 40
Patch developed for fourth shuttle mission 5/10, p. 41
Engineers study damage to Columbia's breaks 5/10, p. 49
Work progressing on space shuttle facilities at Vandenberg 5/10, p. 53
Lightweight material studied for shuttle 5/10, p. 56
Senate unit urges higher USAF shuttle charges 5/17, p. 21
NASA delays Kennedy shuttle landing 5/17, p. 25
Contamination causes processing delay 5/17, p. 28
Contamination threatens USAF payload 5/24, p. 63
Delivery still firm despite hydraulic spill 5/24, p. 65
Payload integrator 5/24, p. 65
Payload tied to commercial drug goal 5/31, p. 51
Shuttle orbiter discovery's wings checked for fit 5/31, p. 77
Cryogenic propellant test loading completed 6/7, p. 21
NASA officials negotiate site for shuttle abort in Senegal 6/7, p. 22
Shuttle flight plan paced by payloads 6/7, p. 82
Company completes manufacture of shuttle tiles 6/7, p. 86
Defense infrared payload loaded in shuttle orbiter 6/14, p. 20
Defense payload lengthens countdown 6/14, p. 22
Rocket Propulsion Laboratory studying space sortie system 6/14, p. 28
NASA curtails shuttle flights 6/21, p. 16
Perkin-Elmer developing solar optical telescope 6/21, p. 17
Telescope effort adds to countdown 6/21, p. 19
New shuttle stage aims at manned use 6/28, p. 137
MX stage may aid in shuttle developments 6/28, p. 138
Shuttle engine power boost studied 6/28, p. 152
Shuttle gears toward operational era 7/5, p. 18
Touchdown support crews sent to Dakar 7/5, p. 18
Mission 4 liftoff gives officials confidence 7/5, p. 19
Tank splashdown 7/5, p. 19
Depressed launch profile causes concern initially 7/5, p. 20
Flameout delays Mattingly's arrival at Kennedy 7/5, p. 20
Space agency panel investigates failure of booster parachutes 7/5, p. 20
Shuttle mechanical system problem studied 7/5, p. 21
U.S., France discuss joint space mission 7/5, p. 22
Better than nothing 7/12, p. 13
Infrared reentry data experiment failed 7/12, p. 20
Shuttle reentry tests vehicle crossrange 7/12, p. 20
Call-in service 7/12, p. 22
Shuttle lands on hard surface runway 7/12, p. 22
July 4 landing attracts large crowd 7/12, p. 25
Aerospace firms seeking shuttle systems contract 7/12, p. 62
Martin studies shuttle aft cargo unit 7/12, p. 65
Price of external tanks increasing 7/12, p. 65
NASA advances fifth shuttle launch by two weeks 7/19, p. 26
Shuttle returns to Florida for October launch 7/19, p. 27
Lightweight external shuttle tank readied 7/19, p. 41
Shuttle deservicing time cut in half 7/19, p. 45
Shuttle processing 7/26, p. 17
NASA Attempting to image booster wreckage 7/26, p. 19
User needs restore shuttle's schedule 7/26, p. 19
Images from space reshape NASA plans 8/2, p. 17
Timing of explosive bolts cited in loss of boosters 8/9, p. 20
Single contractor to process shuttles 8/9, p. 21
Challenger engine test set Dec. 17 8/16, p. 25
Orbiter challenger photographed in flight to Kennedy 8/16, p. 56
NASA investigates shuttle-derived spacecraft 8/23, p. 57
Dual orbitor processing tests systems 8/30, p. 14
Bends incidence in tests alters shuttle EVA plans 8/30, p. 17
Italy to develop upper stage for U.S. orbiter 9/6, p. 241
External tank depicted as space station element 9/6, p. 246
Lockheed develops solar wing array 9/6, p. 247
Firms jockeying for shuttle contracts 9/13, p. 77
Shuttle facility completion at Vandenberg postponed 9/20, p. 108
Lockheed to build shuttle support system 9/27, p. 19
Payload specialists for shuttle selected 9/27, p. 23
Mission 5 processing is problem-free 10/4, p. 25
Deployment of satellite to test untried procedures 10/4, p. 40
Lockheed solar array deployed during tests 10/4, p. 50
Shuttle managers considering delay of sixth mission launch 10/11, p. 30
Crew preparing for first shuttle EVA 10/11, p. 75
Spacelab, Eureca groomed for shuttle 10/11, p. 99
Shuttle fund policy stirs concern at NASA 10/18, p. 12
Shuttle's main engines receive leak checks after full firings 10/18, p. 16
Mission 5 crew insignia depicts payloads 10/18, p. 59
Sputnik's tocsin in space 10/25, p. 11
Two satellites placed in bay of Columbia 10/25, p. 21
NASA planning for shift of shuttle marketing operations 11/1, p. 16
Vandenberg processing included in contract 11/1, p. 18
Unplanned hold may slip Mission 5 launch one day 11/1, p. 19
Automatic landing canceled from fifth mission of shuttle 11/1, p. 22
Shuttle Mission 5 to investigate motion sickness 11/1, p. 22
Liftoff time pivotal to shuttle events 11/1, p. 57
Shuttle Mission 5 to study orbiter glow phenomenon 11/1, p. 64
$1 billion insurance coverage purchased 11/15, p. 18
Mission 5 begins operational phase 11/15, p. 18
Shuttle coverage 11/15, p. 19
Hard-surface runway landing planned 11/15, p. 20
Readying shuttle systems duplicates previous count 11/15, p. 20
Booster recovery 11/15, p. 21
Crewmen successfully deply SBS-3 commercial spacecraft 11/15, p. 21
Performance of solids revised downward 11/15, p. 21
Commercial rivalry with ESA growing 11/22, p. 24
Columbia reentry tests low-Mach characteristics 11/22, p. 26
Crosswind touchdown dropped as prerequisite 11/22, p. 27
Motion sickness solution remains elusive 11/22, p. 27
Suit problems force EVA reschedule 11/22, p. 28
Satellites launched from Columbia shown before liftoff 11/22, p. 74
Crew photographs Mission 5 highlights 11/29, p. 16
Shuttle returned to Kennedy Space Center 11/29, p. 27
Satellite refueling cited as EVA goal 11/29, p. 69
Orbiter Challenger prepared for its initial space launch 11/29, p. 72
Shuttle suit modification urged 11/29, p. 73
Industry teams to bid on shutte processing 11/29, p. 77

SPACE STATIONS, PLATFORMS, STRUCTURES

Consensus nearing on space station and orbital platform concepts at Marshall and Johnson space centers 2/15, p. 119
Johnson Space Center's concept to initiate permanent manned operational capability in orbit shown 2/15, p. 119
Marshall Space Flight Center concept for initiating a permanent U.S. manned base in orbit shown 2/15, p. 122
Johnson Space Center believes its core platform for permanent manned base in orbit could be enlarged into full-capability space operations center 2/15, p. 125
NASA mulls international effort on space station 3/1, p. 20
Multinational space station/platform effort studied 3/8, p. 80
Salyut 7 launched 4/26, p. 19
Soviets launch crew to Salyut 7 5/17, p. 28
Progress tanker resupplies Salyut 7 5/31, p. 16
Soviets investigate space station assembly (Salyut6/Cosmos 1,267) 6/28, p. 24
Salyut 7 team begins biological studies 7/5, p. 22
Space station office formed at Johnson 7/12, p. 24
Reagan policy expected to aid space 7/12, p. 25
Salyut 7 incorporates state-of-art upgrades 7/26, p. 26
Cosmonauts work outside Salyut 7 8/9, p. 21
Stronger support urged for research 8/16, p. 53
Manned orbital space station studied 8/23, p. 57
Crew of Soyuz T-7 prepares return to Earth from Salyut 8/30, p. 14
Aeritalia studies future space stations 9/6, p. 243
External tank depicted as space station element 9/6, p. 246
Spacelab program complexities surface 9/6, p. 249
U.S., Germany agree on spacecraft venture 9/6, p. 253
Spacelab, Eureca groomed for shuttle 10/11, p. 99
Lockheed studying space station for U.S. Space Agency 11/22, p. 73

SPACE TECHNOLOGY

Canada
Soviet spacecraft aids rescue of Canadian air crash victims 9/20, p. 26
China
Chinese space flight 9/20, p. 18
Commercial
Conestoga lifts off from Matagorda Island 9/20, p. 17
Commercial booster, satellite projects expanding 10/25, p. 22
Europe
Europe studies future launch systems 2/1, p. 50
ESA studying all-European lunar-orbiting laboratory 2/15, p. 124
Multinational European efforts in space include launchers, research vehicles 3/8, p. 88
U.S./ESA vie for commercial, non-space shuttle launched payloads 3/8, p. 93
Ariane launcher will carry European weather satellite Sirio 2 3/22, p. 54
Europe considers future manned role in space 7/12, p. 26
Comparative study 9/6, p. 241
Europeans prepare space science proposals 9/27, p. 20
ESA defining future in space 10/4, p. 22
New European spacecraft models shown 10/11, p. 97
Change in Ariane's payload considered 10/18, p. 68
Ariane radar bid 10/25, p. 69
ESA launch rescheduled for pump modification 11/1, p. 24
France
Franco/Soviet space mission nears launch 5/3, p. 19
Soviet/French crew launched in Soyuz 6/28, p. 24
Ariane's success spurs further activity 6/28, p. 137
French study advanced Ariane launcher versions 6/28, p. 141
U.S., France discuss joint space mission 7/5, p. 22
Joint scientific experiments planned by French, Soviets 8/9, p. 58
Second Franco-Soviet mission discussed 10/11, p. 25
Germany
U.S., Germany agree on spacecraft venture 9/6, p. 253
India
Soviet/Indian mission 7/5, p. 23
International
Competition between NASA, ESA grows 2/1, p. 50
NASA mulls international effort on space station 3/1, p. 20
Italy
Aeritalia studies future space stations 9/6, p. 243
Japan
Japanese scientists plan sounding rocket tests to verify principles of microwave transmissions of electrical power to Earth from solar power satellites 1/25, p. 58
Japan space effort moves into operational phase 3/8, p. 107
Japan's space launch schedule for the 1980s 3/8, p. 110
Comparative study 9/6, p. 241
Japan studies small shuttle development 10/4, p. 22
Japanese agency requests funds for projects 10/4, p. 25
Japan studies lunar spacecraft development 10/18, p. 69
U.N.
Conference studies space usage 8/16, p. 16
U.S.
State Dept. has approved U.S. participation in U.N. space technology conference in Vienna next August 1/11, p. 27
DARPA military official stresses need for survivable space systems 1/18, p. 22
Consensus nearing on space station and orbital platform concepts at Marshall and Johnson space centers 2/15, p. 119
Space Services, Inc. exploring lease of federal launch facilities for privately financed space launches 2/22, p. 21
USAF awaits space defense policy guidance from White House and Defense Dept 2/22, p. 65
Martin Marietta stresses technology development for high-energy weapons and systems that will permit deployment of new facilities in space from shuttle 2/22, p. 66
Development of large space systems technology at Martin Marietta includes 100-meter dia. radiometer shown in photo 2/22, p. 67
Presidential Science Advisor George A. Keyworth does not support development of U.S. space operations center at the present time 3/1, p. 20
Sen. John Glenn criticizes U.S. technology leadership loss 3/8, p. 67

New space policy directives expected 3/8, p. 79
New satellite systems designed for survivability 3/8, p. 82
U.S./ESA vie for commercial, non-space shuttle launched payloads 3/8, p. 93
U.S. facing competition for satellite positions 3/8, p. 103
NASA, Martin Marietta study weighs in-orbit tank inspection 3/22, p. 52
Electron beam generator fired 3/29, p. 19
Shuttle recovery plans on schedule 4/5, p. 43
Pioneer's unfunded reach for the stars 4/12, p. 11
GAO pushing accelerated laser program 4/12, p. 16
Firm develops large space antennas 4/12, p. 105
Simulation verifies telescope servicing 5/3, p. 47
JPL scientist discovers new asteroid 5/10, p. 51
Solar energy decrease 5/10, p. 65
Personnel sought to develop defense payloads 5/24, p. 54
Contamination threatens USAF payload 5/24, p. 63
Space telescope mirror coated with aluminum 5/24, p. 68
Payload tied to commercial drug goal 5/31, p. 51
Joint-venture pact leads to space processing 5/31, p. 56
Landsat D data flow offers challenge 6/14, p. 87
Perkin-Elmer developing solar optical telescope 6/21, p. 17
Business communications market eyed 6/21, p. 63
USAF's space command to be established Sept. 1 6/28, p. 30
Congressional unit warns of space competition 7/5, p. 51
Infrared reentry data experiment failed 7/12, p. 20
Martin studies shuttle aft cargo unit 7/12, p. 65
Prototype plan follows space processing test 7/19, p. 27
Images from space reshape NASA plans 8/2, p. 17
Cost, gimbal difficulties threaten Halley mission 8/16, p. 26
Stronger support urged for research 8/16, p. 53
Viking I spacecraft transmitting images of Mars 8/16, p. 53
Spacelab program cost rise threatens gimbal 8/23, p. 54
Bendix expands molecular seive technology 8/30, p. 57
Communications research plan gains 9/6, p. 241
Comparative study 9/6, p. 241
Lockheed develops solar wing array 9/6, p. 247
U.S., Germany agree on spacecraft venture 9/6, p. 253
Deployment problem forces Galileo test reschedule 9/20, p. 106
Defense Dept. backs space-based missile defense 9/27, p. 14
Astronaut involvement 10/4, p. 42
Lockheed solar array deployed during tests 10/4, p. 50
USAF program urged as model for NASA 10/11, p. 27
Aerospace education 10/11, p. 29
Crew preparing for first shuttle EVA 10/11, p. 75
Military power in space 10/18, p. 7
Fairchild, NASA agree on leasecraft 10/18, p. 14
Sputnik's tocsin in space 10/25, p. 11
Citicorp shows interest in financing orbiter 11/1, p. 16
Shuttle Mission 5 to investigate motion sickness 11/1, p. 22
Shuttle Mission 5 to study orbiter glow phenomenon 11/1, p. 64
Study shows space sortie concept viable by 1990 11/1, p. 69
NASA curtail astronaut T-38 flights 11/8, p. 26
Transition in space 11/15, p. 9
Inertial upper stage telemetry data lost 11/15, p. 16
Agencies' dispute delays power effort 11/15, p. 24
Technology effort lays advanced radar base 11/15, p. 56
Suit problems force EVA reschedule 11/22, p. 28
Analysis points to meteorite coming from Mars 11/29, p. 18
NASA studies potential lunar meteorite 11/29, p. 21
Unit sets goal of manned lunar base 11/29, p. 21
Suite analysis 11/29, p. 28
Satellite refueling cited as EVA goal 11/29, p. 69
Phone calls to space 11/29, p. 72

USSR

Soviet shuttle program integral to orbital station 3/1, p. 24
Soviet military programs in space move forward 3/8, p. 106
Enhanced Venera 14 image 4/19, p. 25
Salyut 7 launched 4/26, p. 19
Burke assesses Soviet laser capability 5/3, p. 13
Franco/Soviet space mission nears launh 5/3, p. 19
Soviets launch crew to Salyut 7 5/17, p. 28
Progress tanker resupplies Salyut 7 5/31, p. 16
Soviets orbit shuttle vehicle 6/14, p. 18
Soviets launch antisatellite targetlike vehicle 6/14, p. 19
Salyut 7 mission scheduled for nine days 6/14, p. 20
Soviets test sub-scale shuttle 6/21, p. 16
Soviets trained for Soyuz T-5 space mission 6/21, p. 67
Soviet/French crew launched in Soyuz 6/28, p. 24
Soviets investigate space station assembly 6/28, p. 24
Booster malfunction 6/28, p. 25
Salyut team begins-biological studies 7/5, p. 22
Soviet/Indian mission 7/5, p. 23
Seven nations to contribute to Soviet comet observation 7/12, p. 72
Soviet Soyuz T-6 launch photographed 7/19, p. 42
Salyut 7 incorporates state-of-art upgrades 7/26, p. 26
Soviets propose multinational lunar mission 7/26, p. 26
Progress unloading completed 7/26, p. 27
Soyuz T-2 undergoes extensive space tests 7/26, p. 93
Control center supports Soviet Salyut spacecraft 7/26, p. 95
Cosmonauts work outside Salyut 7 8/9, p. 21
Soviet test unmanned shuttle-type vehicle 8/9, p. 24
Soviet cosmonauts training at Star City complex 8/9, p. 44
Soyuz, Progress share design 8/9, p. 55
Joint scientific experiments planned by French, Soviets 8/9, p. 58
Soviets launch women 8/23, p. 21
Soviets plan navigation system similar to Navstar 8/30, p. 12
Crew of Soyuz T-7 prepares return to Earth from Salyut 8/30, p. 14
Bends incidence in tests alters shuttle EVA plans 8/30, p. 17
Soviet preparations for Soyuz T-6 launch shown 8/30, p. 64
Cosmonauts return 9/6, p. 53
Soviets launch five spacecraft 9/20, p. 18
Soviet spacecraft aids rescue of Canadian air crash victims 9/20, p. 26
U.S. vigilance over Soviet space activities increased 10/4, p. 53
Second Franco-Soviet mission discussed 10/11, p. 25
Soyuz T-7 cosmonauts training in zero-g environment 10/11, p. 28
Sputnik's tocsin in space 10/25, p. 11
Soviet launch demonstrates innovation 10/25, p. 22

SPACE TELESCOPES

Infrared telescope to aid deep space observations 3/8, p. 243
Space telescope solar array development completed by British Aerospace Dynamics Group 3/15, p. 74
Simulation verifies telescope servicing 5/3, p. 47
Defense infrared payload loaded in shuttle orbiter 6/14, p. 20
NASA curtails shuttle flights 6/21, p. 16
U.S. role planned in German X-ray telescope 8/9, p. 22
Manipulator arm used to exchange telescope sensors 8/16, p. 57

SPACE VEHICLES

Venus mapper spacecraft proposed 4/5, p. 59
Antisatellite weapon tested 5/17, p. 19
Soviets orbit shuttle vehicle 6/14, p. 18
Soviets launch antisatellite targetlike vehicle 6/14, p. 19
Salyut 7 mission scheduled for nine days 6/14, p. 20
Rocket Propulsion Laboratory studying space sortie system 6/14, p. 28
Payload incentives 6/21, p. 63
Upper stage test vehicle shown at Cape 6/21, p. 64
Soviets trained for Soyuz T-5 space mission 6/21, p. 67
Soviet/French crew launched in Soyuz 6/28, p. 24
Booster malfunction 6/28, p. 25
Ion propulsion engine tests scheduled 6/28, p. 144
Soviet Soyuz T-6 launch photographed 7/19, p. 42
Eruption imaged by NOAA spacecraft 7/26, p. 29
Soyuz T-2 undergoes extensive space tests 7/26, p. 93
Soviets test unmanned shuttle-type vehicle 8/9, p. 24
Soyuz, Progress share design 8/9, p. 55
Viking I spacecraft transmitting images of Mars 8/16, p. 53
Soviet preparations for Soyuz T-6 launch shown 8/30, p. 64
Deployment problem forces Galileo test reschedule 9/20, p. 106
Japan studies small shuttle development 10/4, p. 22
NASA to seek Venus mapper funding 10/11, p. 26
New European spacecraft models shown 10/11, p. 97
Maritime communications subsystem deployed 10/11, p. 100
Fairchild, NASA agree on leasecraft 10/18, p. 14
ESA launch rescheduled for pump modification 11/1, p. 24

SPACELAB

Payload tied to commercial drug goal 5/31, p. 51

SPAIN

U.S. lifts Spanish firm's export privileges 3/15, p. 19
Spain plans buy of F/A-18s; deliveries to begin in 1986 8/2, p. 22
CASA to get technology transfers from U.S. 9/6, p. 173
Spanish socialists may reconsider NATO entry 11/8, p. 17

SPARE PARTS

Air Florida sells parts inventory 11/8, p. 29

SRB-X

See CONTRACTS, AWARDS, PROPOSALS; LAUNCH VEHICLES, Boeing SRB-X

STRIKES, BOYCOTTS, JOB ACTIONS

FAA denies authority on PATCO union issue 1/25, p. 28
Ground handling workers disrupt British Airways flights 2/15
British Airways operated full schedule despite picketing of its operations by striking ramp workers at Heathrow 2/22, p. 33
UAW strikes GE Evendale plant 3/29, p. 24
Mass picketing, rock-throwing mark IAM strike at Northwest 5/31, p. 29
Northwest strike 6/14, p. 34
Controlling the system 8/16, p. 11
Israeli walkout 10/18, p. 25
El Al management, workers agree to talks 11/1, p. 32
1982 airline work stoppages match record low in 1947 11/8, p. 39
FAA chief acknowledges difficulties of controllers 11/15, p. 42

SURVEILLANCE

Small spacecraft studied by Ball Aerospace for early warning role 2/22, p. 69
Civil thermal imaging system developed 3/29, p. 52
Falklands reconnaissance improved by Soviet Union 5/24, p. 20
Surveillance integration pivotal in Israeli successes 7/5, p. 16
Pave Mover surveillance radar tested on F-111 7/19, p. 141
Studies envision 'common core' radar 7/19, p. 141
Cost factor key to unmanned vehicles 8/9, p. 65
Martin Marietta, Nissan parleys center of technology exchange 9/6, p. 46
Cossor develops secondary surveillance radar antenna 9/6, p. 212
Orion avionics systems being updated 9/13, p. 101
Bermuda area considered pivotal 9/13, p. 103
Soviets launch five spacecraft 9/20, p. 18
U.S. vigilance over Soviet space activities increased 10/4, p. 53
Battlefield radar competition widens 10/18, p. 70
NATO awards surveillance radar contract 10/18, p. 72

SURVIVABILITY

Survivability, capability pivotal to tactical operations center 6/14, p. 100

TACTICAL MODERNIZATION

USAF reassessment of requirements for its tactical air forces has prompted expansion of its European logistics capability with new distribution system 3/1, p. 26

TAIWAN

Taiwanese arms accord clears F-5E production 8/23, p. 20

TAXES

Reagan administration resubmits proposal to end the completed contract method of tax accounting 2/8, p. 22
Congress likely to alter "Safe Harbor Lease" tax 3/1, p. 18

TECHNOLOGY TRANSFER

U.S. pressures two unidentified countries to tighten the control of their technology exports to the East 2/1, p. 27
Control of unauthorized transfer of high technology should be incorporated into the design and production of advanced products 2/22, p. 25
Court of Military Appeals reverses Cooke decision on espionage charges 3/1, p. 24
Reagan policy on classification spurs split along party lines 4/12, p. 23
Profligacy in technology transfer 4/19, p. 11
U.S. Cracks down on smuggling of high technology products 4/26, p. 26
Technology losses spur concern of congressmen 5/10, p. 24
Technology transfer 5/24, p. 47
Offsets and technology transfer 7/26, p. 11
U.S. agents seize USSR-bound equipment 8/30, p. 19
CASA to get technology transfers from U.S. 9/6, p. 173
Technology meeting disrupted 9/13, p. 30
State Dept. delaying transfer of technology for Israeli Lavi 9/13, p. 31
Security guidelines proposed for research 10/4, p. 18
New directive on data release implemented 10/4, p. 20
Espionage sentence 11/15, p. 17
Defense Dept. reviews lie detector use 11/29, p. 25

TELESCOPES

See SPACE TELESCOPES

TELEVISION

Northrop receives contract for closed-circuit television systems for F-14s 2/8, p. 55

TESTING EQUIPMENT

Electro-optical scoring system for missile testing and training being developed by Hughes for U.S.Navy and USAF 1/4, p. 63
Vector Scoring System (VSS) designed for Navy missile testing uses radiation sent by target 1/18, p. 75
Boeing's second-generation airborne data analysis and monitoring system (ADAMS 2) shown on board 767 2/15, p. 42
Reels near aft end of cabin of 767 used for pressure and altitude measurements 2/15, p. 43
Major elements of Boeing flight test data system illustrated schematiccally 2/15, p. 49
Airlines order collins test system 4/19, p. 67
New consoles aid engine development 7/19, p. 144
Thai buys automated engine test system 7/19, p. 145
Photoelastic analysis used to reveal stress patterns 9/6, p. 153
U.S., Italian firms to build test facilities in Saudi Arabia 10/11, p. 121

THEFT

See AIRCRAFT THEFT

THEMATIC MAPPER

Venus mapper spacecraft proposed 4/5, p. 59
Thematic mapper prepared for launch 5/3, p. 56
Landsat D data flow offers challenge 6/14, p. 87
Landsat D flow offers challenge 6/14, p. 87
Scanner, mapper compared 7/5, p. 48
NASA to seek Venus mapper funding 10/11, p. 26
Toxic waste study 11/1, p. 64

TILT-ROTOR AIRCRAFT

Bell, Boeing Vertol form tilt-rotor team 6/14, p. 20
Services favor tilt rotor for vertical lift aircraft 7/5, p. 25
Bell XV-15 demonstrates tilt-rotor technology 7/26, p. 101
British army air corps displays tilt-rotor concept 8/2, p. 20

TRACKING AND SCANNING

Firm develops large space antennas 4/12, p. 105
Navy tracking system 4/19, p. 66
Marine unit determines infrared signature of Soviet transport aircraft 5/3, p. 75
Budget cuts curtail flir pod testing 5/10, p. 68
Badge-X contractor 6/14, p. 26
Helicopter AEW 6/21, p. 20
Backscatter radar unit enters production phase 8/16, p. 68
Spacelab program cost rise threatens gimbal 8/23, p. 54
Receiving station automates data reception 8/23, p. 62
Interest rises in infrared search, track 8/30, p. 68
Pave Tack target system demonstrated 9/6, p. 200
Orion avionics systems being updated 9/13, p. 101

Lantirn system flight testing begins 9/20, p. 117
SAM array 9/27, p. 22
Data acquisition 10/11, p. 85
Battlefield radar competition widens 10/18, p. 70
Ariane radar bid 10/25, p. 69
Tracking, data relay plans nearing collapse; shift sought 11/8, p. 16

TRAINING
ATC trainee failure rate high 1/4, p. 37
Computer video animation and simulation techniques being applied to aircraft maintenance training system being developed by Lockheed 1/11, p. 58
Special software augments readability of instruction manuals for military weapon systems 1/11, p. 106
Flight training simulator use broadened at Army facility at Ft. Rucker 1/18, p. 68
Tanta, Egypt principal site for Mirage training 2/1, p. 61
New aircraft simulators show trend toward being training systems rather than simply duplicating performance of the aircraft and its surroundings 2/1, p. 77
Sperry develops operational simulators, training devices 2/1, p. 78
Sperry develops flight management system trainer for digital cockpits 2/15, p. 156
Space shuttle orbiter training flights being expanded 2/22, p. 73
Utah test range being upgraded to provide air combat maneuvering instrumentation (ACMI) capability for training F-16 aircrews 3/22, p. 73
Airbus division will Open training facility for A300 4/5, p. 36
Boeing cockpit trainers ordered by Delta 4/19, p. 52
Calspan learjet provides training aid 5/3, p. 39
Combat-Qualified aircrew trains in Tornado fighter 5/17, p. 155
Boeing alters approach to new aircraft training 5/31, p. 40
340 training center 5/31, p. 65
Leadership training designed to sharpen air combat crews 6/7, p. 75
Soviets trained for Soyuz T-5 space mission 6/21, p. 67
New aircraft spur training center expansion 7/26, p. 116
Performance taped during simulation 7/26, p. 129
Soviet cosmonauts training at Star City complex 8/9, p. 44
767/757 crew training stresses performance 8/30, p. 46
NTSB asks pilot transition changes 10/11, p. 23
Crew preparing for first shuttle EVA 10/11, p. 75
Navy air combat program gives fleet pilots realistic training 10/18, p. 34
Training strains controller morale 10/25, p. 28
Braniff unit bought 11/1, p. 36
ATC training drive continues 11/8, p. 149

TRAVEL AGENTS
State Dept. has approved U.S. participation in U.N. space technology conference in Vienna next August 1/11, p. 27
CAB expected to review ruling on travel agents 6/14, p. 46

UNITED NATIONS
Conference studies space usage 8/16, p. 16
Arms race decried 9/20, p. 113

UNITED STATES AIR FORCE
USAF seeks continued development of C-17 transport for airlift requirements 2/1, p. 24
USAF Fiscal 1983 budget request encompasses modernization of strategic nuclear weapons programs 2/15, p. 19
GAO report criticizes USAF space center plans 2/15, p. 136
Air Force, Navy accident rates improve 2/15, p. 143
USAF awaits space defense policy guidance from White House and Defense Dept 2/22, p. 65
USAF reassessment of requirements for its tactical air forces has prompted expansion of its European logistics capability with new distribution system 3/1, p. 26
USAF halts study on continuous patrol aircraft for MX missile basing 3/8, p. 275
USAF disputes Congress' findings about KC-10 tankers 3/15, p. 21
Air shows canceled 4/5, p. 24
USAF readies retirement-for-cause testing 4/12, p. 64
New Avionics Enhance USAF Inventory Reliability 4/19, p. 61
Homes posing Vandenberg constraints 4/26, p. 20
Cyrogenic fuel tanks being built at Vandenberg 4/26, p. 167
USAF office aids industrial modernization 5/10, p. 60
USAF Reports on Thunderbird crash 5/17, p. 195
Air Force opposes name change 5/24, p. 23
USAF studies high energy laser use 5/24, p. 24
F-16 procurement buy offers incentives 5/24, p. 46
Personnel sought to develop defense, payloads 5/24, p. 54
Contamination threatens USAF payload 5/24, p. 63
Air Force intending dual engine purchase 5/31, p. 14
USAF names Raytheon second missile source 5/31, p. 17
USAF weighs in-orbit storage of satellites 6/7, p. 19
Burgeoning Warsaw Pact threat spurs dual challenge 6/7, p. 40
USAFE expands cross-servicing agreements 6/7, p. 43
Improved funding betters USAFE readiness 6/7, p. 44
Allied air units plan move to more updated aircraft 6/7, p. 57
Chemical weapons deterrents pushed 6/7, p. 62
USAFE improving its runway damage repair capabilities 6/7, p. 62
F-15s used for air defense intercepts 6/7, p. 68
Ramstein F-4Es used in air intercepts 6/7, p. 73
Leadership training designed to sharpen air combat crews 6/7, p. 75
Relocating TR-1 expected to double force potential 6/7, p. 78
Air Force modernizing command, control units 6/7, p. 80
USAFE upgrades air control facility 6/14, p. 97
USAFE upgrades air control facility 6/14, p. 97
USAFE must meet political, economic attacks 6/14, p. 106
USAFE must meet political, economic attacks 6/14, p. 106
USAF to keep 747s out of inventory 6/21, p. 23
Standardized altimeter meets USAF design tests 6/21, p. 73
USAF reevaluating MX missile sites 6/28, p. 26
USAF reaffirms B-1B costs in face of GAO disclosures 6/28, p. 29
USAF's space command to be established Sept. 1 6/28, p. 30
Military seeking advanced powerplant 6/28, p. 61
USAF studying automated engine inspection, repair 6/28, p. 100
New shuttle stage aims at manned use 6/28, p. 137
Ion propulsion engine tests scheduled 6/28, p. 144
Houston acquiring part of Air Force base 7/5, p. 56
USAF plans to replace Air Force One 7/12, p. 29
Defense decision hikes strategic funds 8/23, p. 17
USAF prefers CRAF to surplus aircraft 8/23, p. 25
Laser communications project deferred by USAF fund cut 8/30, p. 19
New software to focus on meeting USAF needs 9/6, p. 284
Lockheed to build shuttle support system 9/27, p. 19
Services modify business aircraft acquisition 10/11, p. 20
USAF program urged as model for NASA 10/11, p. 27
USAF to ask for proposals on launcher 10/18, p. 17

UNITED STATES AIR NATIONAL GUARD
Increase proposed for air guard fleet 4/19, p. 72

UNITED STATES ARMY
Army budget request reflects growth, evolution toward new division 2/15, p. 20
Airdropped controlled exit system in development 9/13, p. 65
Army awards air cushion vehicle contract 10/18, p. 42
Damage assessment 11/8, p. 20

UNITED STATES COAST GUARD
U.S. Coast Guard seeks Fiscal 1983 helicopter funds 2/22, p. 60
Coast Guard reviews aviation needs 3/29, p. 49
HU-25A increases Coast Guard mission capabilities 7/26, p. 112
New aircraft spur training center expansion 7/26, p. 116

UNITED STATES GOVERNMENT
Commerce Dept
Commerce Dept. forecasts decrease in exports 2/8, p. 16
Foreign commercial service funding bid rises 2/22, p. 59
Congress
Bill in Congress proposes strategic stockpile commission 1/4, p. 18
Presidential intervention with Congress sought to win approval for new government-wide procurement system 1/4, p. 18
Congress kills ceiling on commercial exports 1/4, p. 40
Senate committee approves liability protocols for new system for passenger compensation in the event of accident 1/18, p. 28
Congressional units to review Pentagon's selection of C-5N instead of C-17 2/1, p. 24
Congressional critics of Fiscal 1983 defense spending have limited alternatives 2/15, p. 27
Senate economists find support increasing for cuts in defense 2/22, p. 22
Senate proposes defense budget cuts 2/22, p. 22
Armed services notify Congress of Nunn threshold cases 2/22, p. 26
Congress likely to alter "Safe Harbor Lease" tax 3/1, p. 18
Senators attack Fiscal 1983 NASA budget cuts 3/1, p. 26
Sen. John Glenn criticizes U.S. technology leadership loss 3/8, p. 67
USAF disputes Congress' findings about KC-10 tankers 3/15, p. 21
U.S. expects Israel aid boost to stimulate larger purchases 3/29, p. 22
Military reform caucus has 54 members 3/29, p. 55
Military reform caucus seeks targets 3/29, p. 55
MX production runs into opposition 4/5, p. 22
Congress at odds on funding mix-up 4/5, p. 24
Scientific data security urged to House unit 4/5, p. 24
Short-wavelength laser effort urged 4/12, p. 19
Funding mix-up potends strong conference 4/12, p. 22
Reagan policy on classification spurs split along party lines 4/12, p. 23
Quantities, inflation indices boost costs of weapons 4/12, p. 64
Progressive weapon cuts proposed in Congress 4/12, p. 93
Concern mounts on technology 4/19, p. 16
Defense officials ready $5-7 billion budget cut 4/26, p. 18
House unit alters laser goals 4/26, p. 18
House unit eases governmental sales curb 4/26, p. 22
House unit investigates cost overrun reporting 4/26, p. 152
Negotiators reach defense cut accord 5/3, p. 12
House unit curbs defense dept. FX funding 5/10, p. 15
Senators propose agency to select NATO's arms 5/10, p. 20
Technology losses spur concern of congressmen 5/10, p. 24
Defense secretary offers list of cuts to congress 5/17, p. 18
Senate budget action 5/17, p. 19
House unit asks increased defense cut 5/17, p. 21
Senate unit urges higher USAF shuttle charges 5/17, p. 21
Resolution urges full exim bank authority 5/17, p. 31
Support grows for national guard reform 5/17, p. 173
Senate backs 747 over C-5 transport 5/24, p. 21
C-2A production planning based on multiyear funds 5/24, p. 48
Defense cut of $5 billion expected in budget action 6/7, p. 21
Bill proposes moving exim bank from budget 6/7, p. 22
House, Senate units seek laser effort agreement 6/14, p. 26
Divisions erupt over revising foreign corrupt practices act 6/14, p. 28
Senate passes controller pay boost, conflict likely in house 6/14, p. 31
War risk insurance 6/14, p. 39
Military cost hearing planned in congress 6/14, p. 109
Military cost hearings planned in congress 6/14, p. 109
Jones appeals for Joint Chiefs reform 6/21, p. 18
Resolution forces defense budget bill cuts 6/28, p. 27
Congress' support aids propfan work 6/28, p. 88
Congressional unit warns of space competition 7/5, p. 51
Navy suspends transport leasing plan 7/12, p. 28
Safe Harbor faces challenge 7/12, p. 30
Aviation user taxes compared 7/12, p. 31
Congressional unit criticizes report 7/12, p. 62
Bill readied to reorganize Joint Chiefs 7/19, p. 25
House votes partial MX fund withholding 7/26, p. 22
Airlines marshal support against labor protection 8/2, p. 30
Conferees agree on ADAP funding levels 8/9, p. 27
House bill would ease U.S. arms parts sales 8/9, p. 93
House unit raises aeronautics, planet funds 8/16, p. 24
House units scrutinize safety 8/16, p. 27
Pressure arises for trade pact compliance 8/16, p. 46
Defense authorization passed by Congress 8/23, p. 14
Congress boosts space laser funding 8/23, p. 16
Congress votes to terminate A-10 production 8/23, p. 16
Bill proposes independent export agency 8/23, p. 24
Groping toward a budget 9/6, p. 37
Contract competition bill endorsed 9/6, p. 266
Bill approving sale of defense parts gains 9/27, p. 24
Parts sale approved in Senate 10/11, p. 24
Reorganizing the chiefs 11/1, p. 11
Elections could heighten defense spending attack 11/8, p. 22
House appropriations group votes full funding for MX 11/22, p. 20
House MX division nearly equal 11/29, p. 24
Montreal ratification lack concerns administration 11/29, p. 43
Defense Dept.
Defense Dept. attempting to assess impact of National Semiconductor Corp.'s suspension of component and integrated circuit shipments 1/4, p. 21
Defense Dept. places higher priority on air defense than on modernizing ICBMs 1/11, p. 23
DARPA military official stresses need for survivable space systems 1/18, p. 22
Harassment in the Pentagon 2/1, p. 11
Congressional units to review Pentagon's selection of C-5N instead of C-17 2/1, p. 24
USAF seeks continued development of C-17 transport for airlift requirements 2/1, p. 24
Defense Dept. restores Navy P-3C funding to budget 2/1, p. 26
National Semiconductor meets with Defense agency to agree on measures to reverse decertification of the company's facilities for producing components for defense and space systems 2/8, p. 18
Fiscal 1983 Defense Dept. budget 2/15, p. 18
Multiyear procurement, accelerated production of weapons systems, and increased funding for research highlight Defense Dept.'s Fiscal 1983 budget request 2/15, p. 18
Increases in Fiscal 1983 budget by individual aircraft and missiles 2/15, p. 19
Reagan administration submits supplemental defense request to Congress 2/15, p. 23
Defense program's share of GNP 2/15, p. 27
Top 10 military contractors named 2/22, p. 18
Senate proposes defense budget cuts 2/22, p. 22
Jones seeks reorganization of Joint Chiefs of Staff 2/22, p. 25
Armed services notify Congress of Nunn threshold cases 2/22, p. 26
Fiscal 1983 aerospace budget: Defense research request rises 14% 2/22, p. 53
Fiscal 1983 major weapons systems spending detailed by service 2/22, p. 54
Economic production rates of military programs 2/22, p. 57
Multiyear procurement initiatives 2/22, p. 57
Fiscal 1982 supplemental to Fiscal 1983 defense budget 2/22, p. 58
Defense Dept employment outlook 2/22, p. 59
Defense Dept budget financial summary 2/22, p. 60
Pentagon planning industrial surge capability to increase production of selected weapons systems 3/1, p. 16
Defense spending will have to increase throughout the decade in order to avoid falling farther behind the Soviet Union 3/22, p. 62
Defense Dept. lists top 100 contractors for fiscal 1981 3/29, p. 58
MX production runs into opposition 4/5, p. 22
Astronaut group to service military payloads 4/5, p. 44
Defense, state ask eased arms sales 4/12, p. 20
Hawks for Israel 4/12, p. 83
Defense Dept. proposes spare parts for Taiwan 4/19, p. 18
Defense officials ready $5-7 billion budget cut 4/26, p. 18
Defense moving to exploit space shuttle concept 5/10, p. 40
Defense secretary offers list of cuts to congress 5/17, p. 18
Integrated military guidance sought 5/17, p. 173
Pentagon urges coproduction changes 6/7, p. 18
Defense officials prefer improving CRAF to 747 6/14, p. 26
Resolution forces defense budget bill cuts 6/28, p. 27
Defense budget expected to be late 7/19, p. 24

Weinberger asks Joint Chiefs review 8/2, p. 22
Services ordered to push both export fighters 8/9, p. 26
Study aimed at missile defense policy 8/16, p. 24
Defense Dept. undertakes multiyear ramjet effort 8/16, p. 52
Ban adopted on foreign-made defense items 8/23, p. 14
Defense authorization passed by Congress 8/23, p. 14
Defense decision hikes strategic funds 8/23, p. 17
DeLauer urges technology spending 9/6, p. 257
Investigative unit formed to monitor contract fraud 9/6, p. 265
Technical meeting disrupted 9/13, p. 30
Defense Dept. backs space-based missile defense 9/27, p. 14
New directive on data release implemented 10/4, p. 20
Misuse of military aircraft claimed 10/4, p. 30
Interim defense funding set near Senate figure 10/11, p. 28
Defense Dept. tightens lobbying cost rules 11/1, p. 21
Defense Dept. joins Army, Air Force missile projects 11/1, p. 77
Defense Dept. expects start on missile defense program 11/8, p. 20
Defense Dept. prepares its budget for White House talks 11/15, p. 14
Defense Dept. reviews lie detector use 11/29, p. 25

Executive
Presidential intervention with Congress sought to win approval for new government-wide procurement system 1/4, p. 18
Reagan administration plans authorizing $300 million more in Foreign Military Sales for Israel 1/11, p. 24
Reagan administration plans new attempt at reducing Exim Bank funds 1/25, p. 24
Reagan administration resubmits proposal to end the completed contract method of tax accounting 2/8, p. 22
The big bet on Reaganomics 2/15, p. 11
Reagan administration submits supplemental defense request to Congress 2/15, p. 23
Presidential Science Advisor George A Keyworth does not support development of U.S. space operations center at the present time 3/1, p. 20
U.S. expects Israel aid boost to stimulate larger purchases 3/29, p. 22
Administration seeks hike in foreign military sales 4/26, p. 22
Negotiators reach defense cut accord 5/3, p. 12
Administration refines MX basing plan 5/3, p. 14
Integrated military guidance sought 5/17, p. 173
Reagan backs Centaur funding 7/26, p. 16
Defense figures concern senate leaders 8/9, p. 23
Stronger support urged for research 8/16, p. 53
Administration pushes ICBM defense 10/11, p. 113
Montreal ratification lack concerns administration 11/29, p. 43

Justice Dept.
Justice Dept. investigates engine joint venture 8/16, p. 32

Labor Dept
Labor regulations 5/24, p. 27

Labor Dept.
ATA, regionals oppose labor guidelines 11/8, p. 39

OMB
Presidential intervention with Congress sought to win approval for new government-wide procurement system 1/4, p. 18
Changing the rules 1/11, p. 15

Senate
Senate bill clouds coproduction talks 10/25, p. 18
Aircraft funding cuts offered Senate unit by Navy Secretary 10/25, p. 24

State Dept
State Dept. notifies Congress of its intention to license the sale of commercial satellite equipment for Arabsat 2/1, p. 27
Transportation Dept task force study finds controller morale drop 3/22, p. 34

State Dept.
State Dept. delaying transfer of technology for Israeli Lavi 9/13, p. 31

Transport Dept.
Improvement funds 9/27, p. 26

Treasury Dept
Budget talks delay bond action 5/10, p. 30

UNITED STATES GOVERNMENT AGENCIES

CAB
CAB Chief Dan McKinnon's pragmatism tempers ideals and principles 2/1, p. 38
CAB delays effectiveness of sanctions against Japan Air Lines until after bilateral negotiations resume 2/8, p. 28
CAB permits increase in Pacific fares 2/8, p. 37
CAB reports drop in consumer complaints about airlines despite air traffic control situation 2/15, p. 34
Bilateral "give and take" international aviation policy adopted 3/1, p. 39
CAB turns attention to post-sunset environment 3/8, p. 170
FAA and Transportation Dept withdraw opposition to CAB slot exchange plan for airports 3/8, p. 195
CAB approves airport slot exchange in principle 3/15, p. 26
Airline default protection plan receives approval from CAB 3/15, p. 30
CAB weighs temporary rights in Braniff-Pan Am route shift 4/5, p. 32
Default protection 4/12, p. 31
South American routes 4/26, p. 32
Wien Air Alaska sale agreement reached 5/31, p. 30
CAB expected to review ruling on travel agents 6/14, p. 46
CAB issues standard ticket stock notice 6/21, p. 26
subsidy bumping 7/12, p. 49
Insurance clouds Alaska plan 7/26, p. 28
CAB Air Florida investigation uncovers no violation of law 8/16, p. 30
CAB to keep baggage, bumping rules 8/30, p. 24
CAB weighing higher fares on American's Brazil Routes 9/13, p. 41
Bumping fee 9/20, p. 30
CAB adopts amendment on consumer advisories 9/20, p. 32
CAB revises ticket refund plan 9/20, p. 42
GSA cancels its contract with Davis travel agency 9/27, p. 29
CAB asked to okay new cargo rates 10/11, p. 39
Task force reconstituted on issues of CAB sunset 11/1, p. 32

DARPA
Short-wavelength laser effort urged 4/12, p. 19
DARPA evaluating new rotor system 4/12, p. 63

FAA
New and innovative FAA national airspace system plan set 1/11, p. 28
FAA denies authority on PATCO union issue 1/25, p. 28
New entrant airlines complain that FAA regulations issued since controllers strike exceed level of regulation prior to deregulation 1/25, p. 28
FAA schedules airport use parley with airline officials to decide allocation capacity for the summer season 2/1, p. 29
FAA directs operators to modify DC-10 slats 2/1, p. 32
NTSB urges FAA action with recommendations for 737 operations 2/8, p. 29
FAA plans to increase ATC capacity 2/8, p. 31
FAA budget uses trust fund for ATC plan 2/15, p. 16
FAA readies helicopter rule revisions 2/15, p. 139
Aviation forecast by FAA projects passenger drop 2/22, p. 36
FAA delays alternative antimisting effort 2/22, p. 36
FAA readies airspace plan cost estimate for Congress 3/1, p. 36
Program aimed at obtaining data to justify reduction of vertical separation standards expected to emerge from FAA sponsored conference 3/1, p. 40
Support develops for new FAA airspace plan 3/1, p. 40
FAA's noise curfew plan termed "trial balloon" 3/8, p. 205
FAA proposed airspace system to involve $10 billion 3/8, p. 211
New FAA rule to help track drug smugglers 3/22, p. 25
FAA restricts certain 210s from IFR flight operations 3/29, p. 22
FAA moves to simplify, update aviation regulations 3/29, p. 40
Muse expansion delayed by slot problems 4/12, p. 26
GE tests find inspection missed CF6 disk crack 4/12, p. 34
CF6-50 directive accelerates inspections 4/19, p. 30
FAA, industry formalize software design process 4/19, p. 66
Derivative turboprop 5/24, p. 23
FAA amends Part 67 regulation concerning airman medicals 5/24, p. 45
Military controllers 6/14, p. 32
Latin aviation needs offer challenge to U.S. industry 6/21, p. 35
Slot restrictions ease 6/28, p. 36
Duty time changes drawing fire 7/5, p. 28
FAA suspends airport slot sale policy 7/12, p. 32
FAA links pilot age extension to test program 7/19, p. 33
FAA continues to weigh peak-hour ATC staffing 7/26, p. 42
Regulations by objective draft review under way 8/9, p. 33
Two teams to bid on FAA computers 8/16, p. 29
FAA approves training by simulator 8/16, p. 60
FAA seeking users' views on options for navigation 8/23, p. 34
Carrier groups support duty time proposals 8/23, p. 35
FAA mulls extending approval for automobile gasoline use 8/30, p. 18
FAA proposes safety rule changes 9/27, p. 31
Traffic controllers voted pay increase 10/11, p. 32
Fairchild seeks Bandeirante certification data 10/25, p. 24
FAA school spurs pace to bolster ATC force 11/1, p. 28
FAA evaluates electronic tabular display subsystem 11/8, p. 166
FAA chief acknowledges difficulties of controllers 11/15, p. 42
FAA's eastern region initiates controller development effort 11/15, p. 42
FAA alters its collision avoidance plan 11/15, p. 95
FAA pushes to increase quality of traffic controller trainees 11/22, p. 40
FAA action clouds slot exchange process 11/29, p. 32
Suit seeks airline carriage of emergency medical gear 11/29, p. 41
FAA withdraws cockpit time proposal 11/29, p. 44

FCC
SBS authorization 10/4, p. 27
FCC authorizes construction of seven broadcast systems 11/29, p. 77

GAO
GAO report criticizes USAF space center plans 2/15, p. 136
GAO raises questions about F/A-18, AV-8B 3/22, p. 28
Congress at odds on funding mix-up 4/5, p. 24
GAO pushing accelerated laser program 4/12, p. 16
GAO urges end to licensing for low-technology exports 6/7, p. 19
GAO urges suspension of radar warning work 6/21, p. 24
GAO finds ARTS outrages infrequent 6/21, p. 35
USAF reaffirms B-1B costs in face of GAO disclosures 6/28, p. 29
Maverick production opposed by GAO 7/19, p. 143
GAO charges stockpile funds misused 8/16, p. 20
GAO criticizes use by U.S. Navy of aviator retention incentives 8/30, p. 50
GAO recommending curb on employee aircraft use 10/4, p. 29

GSA
GSA to audit carriers on unused tickets 1/18, p. 29

NASA
DARPA military official stresses need for survivable space systems 1/18, p. 22
Competition between NASA, ESA grows 2/1, p. 50
NASA request rises 11%, reflects gains in space science, shuttle 2/15, p. 24
NASA budget summary 2/15, p. 26
NASA requests funds for development of lightweight structure for solid rocket booster for shuttle 2/22, p. 60
NASA mulls international effort on space station 3/1, p. 20
Senators attack Fiscal 1983 NASA budget cuts 3/1, p. 26
NASA budget cuts may force shutdown of planetary vehicles 3/8, p. 266
NASA to study diverting satellite to meet comet 3/22, p. 22
NASA chief assesses private booster operation and leasing of launch facilities 3/22, p. 54
Launch of space shuttle tests new options 3/29, p. 14
Launch preceded by smooth countdown 3/29, p. 17
NASA weighs advancing shuttle launches 3/29, p. 18
Crew activities shifted to reduce heavy tasks 3/29, p. 19
USAF studying wing adaptable in flight 3/29, p. 50
Space shuttle completes its third mission 4/5, p. 16
Kennedy Center deficiencies cited 4/5, p. 19
Harsh environment encountered on third flight of shuttle 4/5, p. 20
Shuttle recovery plans on schedule 4/5, p. 43
Astronaut group to service military payloads 4/5, p. 44
Northrup strip facilities constructed in 2.5 days 4/5, p. 45
Space shuttle orbiter Columbia climbs toward Earth orbit 4/5, p. 47
Creation of alloys in space investigated 4/5, p. 62
Pioneer's unfunded reach for the stars 4/12, p. 11
NASA experimenters studying data on reentry heating of orbiter Columbia 4/12, p. 68
NASA names three shuttle crews 4/26, p. 25
NASA plans to reorganize shuttle offices 4/26, p. 58
NASA studies business aircraft avionics 4/26, p. 119
NASA considers program to Watch global climate 5/10, p. 52
NASA delays Kennedy shuttle landing 5/17, p. 25
Contamination threatens USAF payload 5/24, p. 63
Space telescope mirror coated with aluminum 5/24, p. 68
Joint-venture pact leads to space processing 5/31, p. 56
Contract awarded 5/31, p. 57
NASA curtails shuttle flights 6/21, p. 16
Telescope effort adds to countdown 6/21, p. 19
Laminar flow tests pass expectations 6/21, p. 56
New shuttle stage aims at manned use 6/28, p. 137
Touchdown support crews sent to dakar 7/5, p. 18
Space agency panel investigates failure of booster parachutes 7/5, p. 20
U.S., France discuss joint space mission 7/5, p. 22
Better than nothing 7/12, p. 13
NASA weighs advancing first operational mission 7/12, p. 24
NASA T-38 trainers may be replaced 7/12, p. 52
Aerospace firms seeking shuttle systems contract 7/12, p. 62
High angle of attack characteristics studied 7/12, p. 63
NASA supplemental 7/26, p. 16
Defense authorization passed by Congress 8/23, p. 14
NASA investigates shuttle-derived spacecraft 8/23, p. 57
National full-scale aerodynamics facility wind tunnel being expanded 8/30, p. 49
Minimum impact seen from cuts 9/6, p. 52
Communications research plan gains 9/6, p. 241
Airfoil used to cull aerodynamic data 9/6, p. 273
NASA preparing request for proposal on advanced communications satellite 9/13, p. 91
NASA evaluating design for new commuter aircraft 9/20, p. 41
National Aeronautics and Space Administration completes propfan test series 10/4, p. 58
NASA funded $197 million above request 10/11, p. 25
NASA to seek Venus mapper funding 10/11, p. 26
NASA will divert satellite for comet interception 10/11, p. 26
USAF program urged as model for NASA 10/11, p. 27
NASA receives signals from Cosmos 1,383 10/11, p. 85
Shuttle fund policy stirs concern at NASA 10/18, p. 12
Fairchild, NASA agree on leasecraft 10/18, p. 14
Citicorp shows interest in financing orbiter 11/1, p. 16
NASA planning for shift of shuttle marketing operations 11/1, p. 16
Vandenberg processing included in contract 11/1, p. 18
NASA to resume RPV program 11/1, p. 71
Tracking, data relay plans nearing collapse; shift sought 11/8, p. 16
NASA curtails astronaut T-38 flights 11/8, p. 26
Transition in space 11/15, p. 9
New information role urged for NASA 11/15, p. 22
Space agency studying contour of ocean floor, depth of water 11/22, p. 70
NASA studies potential lunar meteorite 11/29, p. 21

NOAA
NOAA facility move 7/5, p. 47

NTSB
Two accidents spark hearings on icy, wet runway operations 4/5, p. 66
NTSB urges recorder improvements 7/19, p. 33
CVR warning 9/6, p. 288

National Academy of Sciences
Scientific communication panel members 10/4, p. 20

U.S. Customs
Airlines opposed to customs user fees 3/15, p. 41

UNITED STATES MARINE CORPS
Marine Corps considers OV-10D buy 5/31, p. 63

UNITED STATES NAVAL AIR RESERVE
Naval reserve prepares for first-line aircraft 7/26, p. 22

UNITED STATES NAVY
Navy defines requirements for new trainer 1/18, p. 22
Defense Dept restores Navy P-3C funding to budget 2/1, p. 26
Emphasis in Navy budget shifts toward expansion 2/15, p. 22
Air Force, Navy accident rates improve 2/15, p. 143

Navy stressing survival of fleet in nuclear war 3/8, p. 50
Navy will seek extension of pilot continuation pay 4/19, p. 20
Navy tracking system 4/19, p. 66
Military seeking advanced powerplant 6/28, p. 61
Navy to study tandem fan concept 6/28, p. 92
Navy suspends transport leasing plan 7/12, p. 28
U.S. Navy moves to boost missile protection 7/12, p. 61
Navy power supply guidelines to boost reliability 7/19, p. 18
Navy to test F-18 Recon modification 7/19, p. 125
Defense board studying navy aircraft alternatives 7/26, p. 23
Navy pushes aircraft repair automation 8/9, p. 84
Navy removes cruise missile project director 8/23, p. 22
GAO criticizes use by U.S. Navy of aviator retention incentives 8/30, p. 50
Navy inspecting F-18 horizontal stabilizers 9/13, p. 29
Navy preparing to purchase used DC-9s 10/4, p. 31
Services modify business aircraft acquisition 10/11, p. 20
Navy air combat program gives fleet pilots realistic training 10/18, p. 34
Aircraft funding offered Senate unit by Navy Secretary 10/25, p. 24
Navy secretary tightens control on changes in programs 11/1, p. 26

USED AIRCRAFT
Used aircraft inventory swells 8/23, p. 27

VENUS
Soviet Venera 13 lander transmits data from Venus 3/8, p. 266
Venus surface image transmitted from Soviet Venera 13 lander 3/8, p. 267
Two-spacecraft Venus, Halley mission planned by USSR 3/8, p. 278
A Soviet planetary payoff 3/15, p. 9
Venera 14 second landing on Venus samples lowland region 3/15, p. 17
Jet Propulsion Laboratory attempts to revive VOIR program with new program called Venus Mapper 3/15, p. 18
Venus Mapper spacecraft elliptical orbit in diagram 3/15, p. 18
Venus surface picture returned by Soviet Venera 14 lander shows surface appears like cooled basalt 3/22, p. 24
Venera 13 images show Venus surface colors 3/29, p. 16
Venus mapper spacecraft proposed 4/5, p. 59
Enchanced Venera 14 image 4/19, p. 25
NASA to seek Venus mapper funding 10/11, p. 26

VERTICAL LIFT AIRCRAFT
Services favor tilt rotor for vertical lift aircraft 7/5, p. 25
Proposal request for JVX authorized for December 11/22, p. 29

VOIR (Venus Orbiting Imaging Radar)
See PROJECTS, Voyager:VENUS

WARSAW PACT
Soviet weapons procurement increases 5/10, p. 16
NATO's Qualitative edge over Warsaw pact slips 5/10, p. 17
Allied air units plan move to more updated aircraft 6/7, p. 57

WEAPON SYSTEMS
Sakr factory in Egypt schedules three missile projects 1/4, p. 45
Egyptian 122-mm. light artillery rocket system is based on Soviet design 1/4, p. 46
Production of 132-mm. artillery rocket system is taking place at Sakr factory 1/4, p. 47
Special software augments readability of instruction manuals for military weapon systems 1/11, p. 106
Operations of U.S. antisatellite weapon squadrons designed for space defense advance 2/8, p. 21
USAF testing low-altitude dispenser (LAD) for submunitions 3/8, p. 57
Avco Skeet submunition hits tank 3/22, cover
Skeet "smart" antitank submunition developed for Assault Breaker program 3/22, p. 66
Missile defense keyed to technology 4/19, p. 79
Ballute contract 4/26, p. 26
Naval armament system delivered 4/26, p. 157
Marconi Stingray antisubmarine torpedo 6/7, p. 17
Chemical weapons deterrents pushed 6/7, p. 62
Guided-weapon system 7/5, p. 17
Spacelab program cost rise threatens gimbal 8/23, p. 54
Marines receive angle rate bombing sets 8/30, p. 56
Cost, reliability effort mounted for TADS 9/6, p. 44
Pave Tack target system demonstrated 9/6, p. 200
Apache to provide night/bad weather capability 9/13, p. 42
Fighter control system to be tested 9/13, p. 61
Smart munition system developed for DARPA 9/27, p. 68
Administration pushes ICBM defense 10/11, p. 113
Military power in space 10/18, p. 7
Electronic trends key to force update 10/18, p. 18
Defense Dept. joins army, air force missile projects 11/1, p. 77
Air Force to consolidate programs 11/15, p. 51
Common armed forces links sought 11/15, p. 51
Air Force tests low-altitude dispenser with German submunitions 11/15, p. 63

WEATHER REPORTING SYSTEMS
Winter storms generate ground delays at airports 1/18, p. 29
Winter storms disrupt Europe's air traffic 1/18, p. 30
NASA considers program to watch global climate 5/10, p. 52
Alps weather-monitoring effort completes most program goals 5/24, p. 46
Scientists track Mexican volcano ash 6/7, p. 87
NOAA facility move 7/5, p. 47
Pilot atmospheric report requirements to change 9/6, p. 56
New weather code plan draws broad opposition 10/18, p. 26
University of North Dakota researching weather modification 10/25, p. 59

WINGS
Grumman wins contract from DARPA to build X-29A forward-sweptwing fighter 1/4, p. 19
DC-10 wingtip extensions studied as alternative to winglets 2/8, p. 30
Joined-wing aircraft designed by Rutan called Predator planned for agricultural applications 2/15, p. 144

X-WING
DARPA evaluating new rotor system 4/12, p. 63
X-Wing rotor system undergoes tests 5/10, p. 57

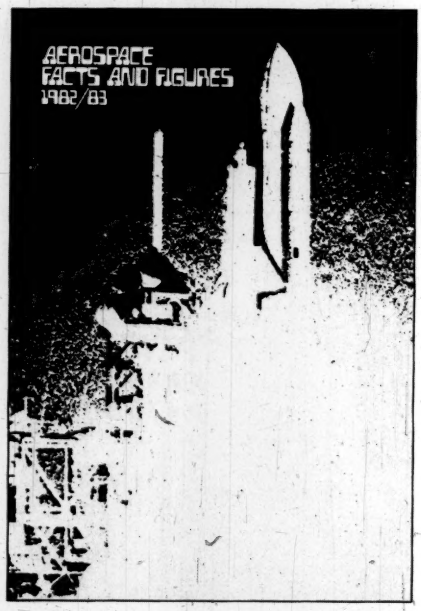
AEROSPACE FACTS AND FIGURES 1982/83

Compiled by Aerospace Industries of America, Inc.
Published by Aviation Week & Space Technology

This new 1982/83 edition has been revised and updated to reflect current statistics as well as historical trends in eight segments of the aerospace industry:

- Aircraft and Engine Production
- Missile Programs
- Space Programs
- Air Transportation
- Research and Development
- Foreign Trade
- Employment
- Finance

Plus... a summary, glossary and complete index.



Aviation Week & Space Technology
Book Dept., 1221 Ave. of the Americas, New York, N.Y. 10020

Please send me_____copies of the 1982/83 edition of **Aerospace Facts and Figures** at $9.95 each (postpaid).
All orders under $25.00 must be prepaid.

Enclosed is $_____, plus my local tax.
Orders received from outside the U.S. must have checks drawn against a U.S. bank.
